

InterCommunity Health Network CCO (IHN-CCO)

# **2020 FORMULARY**

(List of Covered Drugs)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN**

This formulary was updated on 12/01/2020. For more recent information or other questions, please contact us, InterCommunity Health Network CCO at 1-800-832-4580 or, for TTY users, 1-800-735-2900, daily 8 a.m. to 8 p.m., or visit [IHNtogether.org/](http://IHNtogether.org/)

**Note to existing members:** This formulary may have changed since last year. Please review this document to make sure that it still contains the drugs you take.

This document includes a list of the drugs (formulary) for our plan, which is current as of 12/01/2020. Drugs in the Formulary are subject to change throughout the year, upon review by the Pharmacy & Therapeutics Committee. You will receive notice for negative changes. You must generally use network pharmacies to use your prescription drug benefit.

## **What a Formulary (drug list)?**

A formulary is a list of covered drugs selected by a plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. IHN-CCO will generally cover the drugs listed in our formulary if the drug is medically necessary, the prescription is filled at an IHN-CCO network pharmacy, and other plan rules are followed.

## **Can the Formulary (drug list) change?**

Generally, if you are taking a drug on our 2020 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2020 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released.

## **How do I use the Formulary?**

There are two ways to find your drug within the formulary:

### **Medical Condition**

The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Agents”. If you know what your drug is used for, look for the category name in the Table of Content. Then look under the category name for your drug.

### **Alphabetical Listing**

If you are not sure what category to look under, you should look for your drug in the Index. The Index provides an alphabetical list of all the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

## **What are generic drugs?**

IHN-CCO covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

## Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** IHN-CCO requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from our plan before you fill your prescriptions. If you don't get approval, our plan may not cover the drug.
- **Quantity Limits:** For certain drugs, IHN-CCO limits the amount of the drug that our plan will cover.
- **Step Therapy:** In some cases, IHN-CCO requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, our plan may not cover Drug B unless you try Drug A first. If Drug A does not work for you, our plan will then cover Drug B.
- **Morphine Equivalent Dose (MED):** Morphine is considered the "Gold Standard" of opioids. MED allows prescribers, pharmacists, and patients to compare different opioid medications to each other. IHN-CCO may use the MED calculation to limit the amount of opioid medication that is covered.

You can find out if your drug has any additional requirements or limits by looking in the formulary.

Your prescriber can ask IHN-CCO to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How to request an exception to the IHN-CCO formulary?" on page iii for information about how to request an exception.

## Mental Health Drugs

Mental health drugs are financed separately by the State of Oregon (OMAP) and not subject to the IHN-CCO Formulary. To see a list of medications that fall into this category search for "7-11 Drug Carveout List" at <http://www.oregon.gov/oha/healthplan/Pages/plantools.aspx>.

## Vaccines

IHN-CCO covers the listed vaccines at the pharmacy for members 19 years of age and older. Coverage for members 18 years of age and younger please call Medical Customer Service to discuss vaccine coverage at the providers office at 1-800-832-4580 or, for TTY users, 1-800-735-2900, daily 8 a.m. to 8 p.m.

## What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Service and ask if your drug is covered.

If you learn that IHN-CCO does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by IHN-CCO. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by our plan.

- Your provider can ask IHN-CCO to make an exception and cover your drug. See below for information about how to request an exception.

## **How to request an exception to the Formulary?**

Your provider can ask IHN-CCO to make an exception to our coverage rules by faxing a request to 1-844-611-3831. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, IHN-CCO limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, we will only approve your request for an exception if the alternative drugs included on the Plan's Formulary would not be as effective in treating your condition and/or would cause you to have adverse medical effects. To help us decide more quickly, your provider should include supporting medical information from your doctor when you submit your medication exception request.

We will make a coverage determination within 24 hours of receipt for all requests unless we require additional documentation from your provider. If we require additional documentation from your provider, we will make a coverage determination within 72 hours of receipt.

## **What do I do before I can talk to my doctor about changing my drugs or requesting an exception?**

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or have your provider submit a formulary exception to request coverage. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases. Please contact us, IHN-CCO at 1-800-832-4580 or, for TTY users, 1-800-735-2900, daily 8 a.m. to 8 p.m.

## **For more information**

For more detailed information about your IHN-CCO prescription drug coverage, please review the IHN-CCO website <https://www.ihntogether.org/>. If you have questions Please contact us, IHN-CCO at 1-800-832-4580 or, for TTY users, 1-800-735-2900, daily 8 a.m. to 8 p.m.

The IHN-CCO formulary is developed to reflect the State of Oregon Prioritized List of Health Services. The list uses ICD-10-CM diagnosis codes to rank health services. The prioritized health services list emphasizes prevention services and chronic diseases management. For more information about the prioritized health services list see [www.oregon.gov](http://www.oregon.gov).

## **IHN-CCO Formulary**

The formulary that begins on the next page provides coverage information about the drugs covered by IHN-CCO. If you have trouble finding your drug in the list, turn to the Index at the back of the book.

The first column of the chart lists the drug name. Brand name drugs are bold (e.g., **STRATTERA**) and generic drugs are not bolded (e.g., ATOMOXETINE HCL). If brand and generic are both covered by IHN-CCO the drug will be displayed as **Brand Name** (Generic Name), (e.g., **STRATTERA ORAL CAPSULE** (ATOMOXETINE HCL)). Brand and generic status columns are referring to the copay tier level of which it will pay at.

The information in the Formulary Notes column tells you if IHN-CCO has any special requirements for coverage of your drug.

### **Legend**

**PA** = Prior Authorization Required

**ST** = Step Therapy Required

**QL** = Quantity Limit

### **Opioid Limits:**

**All Opioid:** Maximum of 2 fills in a 60-day period.

#### **Opioid anti-tussive limits:**

- Liquids:
  - Maximum of 240ML per fill.
- Tablets/Capsules:
  - Maximum 7-day supply per fill.

#### **Short-acting Opioid (SAO) Limits:**

- New to therapy:
  - Maximum of 49 MED.
  - Maximum 7-day supply per fill.
- Experience with therapy:
  - Maximum of 90 MED.

#### **Long-acting Opioid (LOA) Limits:**

- PA required.
- Maximum of 90 MED.
