**Formulary introduction**

The Florida Health Care Plans formulary is an extensive list of FDA approved brand and generic drugs used to treat the most common medical conditions.

The FHCP Formulary is developed by FHCP's Pharmacy and Therapeutics Committee (P&T). The committee consists of physicians, pharmacists, and nurses who review drugs on the basis of safety, efficacy, tolerability, and cost. The P&T Committee reviews and updates the drug list quarterly. New drugs and newly available generics are added as needed, and drugs that are deemed unsafe by the Food and Drug Administration (FDA) are immediately removed.

Your prescription drug benefit provides coverage for drugs listed in each of the therapeutic classes of the FHCP Formulary. The FHCP Formulary represents the major therapeutic classes and should serve as a quick reference to you, your physician, or pharmacist for those covered drugs within the classes listed. Information on drug coverage for a non-listed therapeutic drug class should be directed to an FHCP pharmacist or physician. If your physician prescribes a drug that is not covered, show your physician this list, and ask the physician to prescribe a drug from within the FHCP Formulary.

**Any drug not listed in the FHCP Formulary is considered a non-covered drug and is subject to a higher out of pocket costs.**

### **What if my drug is not on the Formulary?**

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that FHCP does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by FHCP. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by FHCP.
- You can ask FHCP to make an exception and cover your drug. See below for information about how to request an exception.

### **How do I request an exception to the Formulary?**

You can ask FHCP to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make:

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved, this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, FHCP limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, FHCP will only approve your request for an exception if the alternative drug is included on the plan's formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition, and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tier or utilization restriction exception. **When you request a formulary, tier or utilization restriction exception you must submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 14 days of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 14 days for a decision. If your request to expedite is granted, we must give you a decision no later than 24 to 72 hours after we get a supporting statement from your doctor or other prescriber.

## **What do I do before I can talk to my doctor about changing my drugs or requesting an exception?**

As a new or continuing Member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a Member of our plan. For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 31-day supply (unless you have a prescription written for fewer days) when you go to an FHCP pharmacy. After your first 31-day supply, we will not pay for these drugs, even if you have been a Member of the plan less than 90-days.

## **Drug transition for new FHCP members**

FHCP pharmacies will dispense a one-time 31-day supply of the current transition drug, excluding specialty drugs, to allow you and our physician(s) to discuss possible formulary alternatives, request a prior authorization, or, in the event the physician(s) deems the non-formulary drug to be medically necessary, request a formulary exception. Specialty drugs will require review and authorization through the Referral Department prior to coverage.

## **How much will my prescriptions cost?**

Your pharmacy benefit and the drugs listed in the formulary are assigned a "TIER." There are seven (7) Tiers in the Formulary. Generally, the higher the "Tier," the higher your cost will be. Carefully review your Summary of Benefits Coverage to ascertain if you have a pharmacy benefit and/or any pharmacy benefit limitations.

## **For more information**

For more detailed information about your FHCP prescription drug coverage, please review your Certificate of Coverage, your Summary of Benefits Coverage and other plan materials for your cost sharing and any benefit limitations (such as "Generic Only" option). If you have questions, please contact us.

## **Note:**

FHCP's Formulary can also be found on our website at [www.fhcp.com/NGF-2020](http://www.fhcp.com/NGF-2020). If you are unable to find a certain drug within this booklet, please check out our website.

## **How to search for a drug in the Florida Health Care Plan preferred drug list (formulary)**

Go to [www.fhcp.com/NGF-2020](http://www.fhcp.com/NGF-2020). When the PDF file comes up, press Control F. A pop-up search text box will appear at the top of the page. Type the drug name for which you are searching and click the right arrow in the pop-up search text box to begin the search.

To close the pop-up search text box, click on the "x" in the pop-up search text box.

## Affordable Care Act - Preventive drugs available for \$0 cost-sharing

The Affordable Care Act (ACA) requires coverage of certain preventive drugs without any patient cost-sharing to ACA compliant and non-grandfathered plans. "ACA compliant" and "non-grandfathered" plan means any health plan available to subscribers created by FHCP on or after March 23, 2010. For more information call Member Services at 1-877-615-4022, 7 days a week, 8 am – 8 pm. TTY users should call TRS Relay 711.

The products listed below are available for \$0 cost-sharing when applicable requirements are met. Some products may have restrictions such as age or gender limits.

## Our Plan's Formulary

The information in the Requirements/Limits column tells you if our plan has any special requirements for coverage of your drug.

### Usage Rules

- **75% Usage Rule:** Prescription refills will not be covered unless at least 75% of the previous prescription has been used by the Member (based on the dosage schedule prescribed by the physician).
- **90% Usage Rule:** Prescription refills for narcotics or controlled substances will not be covered unless at least 90% of the previous prescription has been used by the Member (based on the dosage schedule prescribed by the physician).

### List of Abbreviations

**Tier 1:** Preferred Generic

**Tier 2:** Non-Preferred Generic

**Tier 3:** Preferred Brand, some high cost generic

**Tier 4:** Non-Preferred Brand, some high cost generic

**Tier 5:** Preferred Specialty

**Tier 6:** Non-Preferred Specialty

**Tier 7:** Preventive (\$0) – With the exception of flu vaccines, in order for \$0 cost-sharing to apply, all products in this tier must be filled at an FHCP pharmacy and require a prescription for coverage, including over the counter items. Additionally, some products may have restrictions such as age or gender limits.

**(AL) Age Limit:** This drug is covered only if member satisfies age requirements for coverage.

**(DDL) Discount Drug List:** Some low-cost drugs are available at a discounted rate when filled at an FHCP pharmacy. For more information and to see a complete list of these drugs, go to [www.fhcp.com/DDL-2020](http://www.fhcp.com/DDL-2020)

**(DL) Dispensing Limit:** Cannot be dispensed for more than a 31-day supply.

**(FHCP) FHCP Only:** Must be filled at an FHCP pharmacy.

**(PA) Prior Authorization:** Our plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from our plan before you fill your prescriptions. If you don't get approval, our plan may not cover the drug. **Prior authorization drugs must be obtained from FHCP pharmacies.**

## List of Abbreviations (Continued)

**(QL) Quantity Limit:** For certain drugs, our plan limits the amount of the drug that our plan will cover. For example, our plan provides 31 tablets per prescription for Januvia 50mg. This appears on the formulary as “31 EA per 31 days” which means coverage is limited to 31 tablets every 31 days, or 1 tablet per day.

**(ST) Step Therapy:** In some cases, our plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, our plan may not cover Drug B unless you try Drug A first. If Drug A does not work for you, our plan will then cover Drug B. **Step therapy drugs must be obtained from FHCP pharmacies.**

### Distribution Types

- **(RM) Retail and Mail:** May be filled at a retail pharmacy or the FHCP mail order pharmacy.
- **(RO) Retail Only:** Must be filled at a retail pharmacy. Mail order delivery not available.
- **(SP) Specialty Pharmacy Only:** Certain drugs can only be filled via specialty pharmacies. In most cases, the name of the specialty pharmacy that must be used will be listed in the Requirements/Limits column on the formulary. The contact information for those pharmacies is listed below.
