Definitions

Brand name drug means a drug that is marketed under a proprietary, trademark-protected name. A brand name drug is listed in this formulary in all CAPITAL letters.

Coinsurance means a percentage of the cost of a covered health care benefit that you pay after you have paid the deductible, if a deductible applies to the health care benefit.

Copayment means a fixed dollar amount that you pay for a covered health care benefit after you have paid the deductible, if a deductible applies to the health care benefit.

Deductible means the amount you pay for covered health care benefits that are subject to the deductible before your health insurer begins to pay. If your health insurance policy has a deductible, it may have either one deductible or separate deductibles for medical benefits and prescription drug benefits. After you pay your deductible, you usually pay only a copayment or coinsurance for covered health care benefits. Your insurance company pays the rest.

Drug Tier means a group of prescription drugs that correspond to a specified cost sharing tier in your health insurance policy. The drug tier in which a prescription drug is placed determines your portion of the cost for the drug.

Enrollee is a person enrolled in a health plan who is entitled to receive services from the plan.

Exception request means a request for coverage of a non-formulary drug. If you, your designee, or your prescribing health care provider submits a request for coverage of a non-formulary drug, your insurer must cover the non-formulary drug when it is medically necessary for you to take the drug.

Exigent circumstances means when you are suffering from a medical condition that may seriously jeopardize your life, health, or ability to regain maximum function, or when you are undergoing a current course of treatment using a non-formulary drug.

Formulary or **prescription drug list** means the list of drugs that is covered by your health insurance policy under the prescription drug benefit of the policy.

Generic drug means a drug that is the same as its brand name drug equivalent in dosage, strength, effect, how it is taken, quality, safety, and intended use. A generic drug is listed in this formulary in italicized lowercase letters.

Medically Necessary means health care benefits needed to diagnose, treat, or prevent a medical condition or its symptoms and that meet accepted standards of medicine. Health insurance usually does not cover health care benefits that are not medically necessary.

Non-formulary drug means a prescription drug that is not listed on this formulary.

Out-of-pocket costs means your expenses for health care benefits that aren't reimbursed by your health insurance. Out-of-pocket costs include deductibles, copayments, and coinsurance for covered health care benefits, plus all costs for health care benefits that are not covered.

Prescribing provider means a health care provider who can write a prescription for a drug to diagnose, treat, or prevent a medical condition.

Prescription means an oral, written, or electronic order from a prescribing provider authorizing a prescription drug to be provided to a specific individual.

Prescription drug means a drug that by law requires a prescription.

Prior Authorization means a decision by your health insurer that a health care benefit is medically necessary for you. If a prescription drug is subject to prior authorization in this formulary, your prescribing provider must request approval from your health insurer to cover the drug before you fill your prescription. Your health insurer must grant a prior authorization request when it is medically necessary for you to take the drug.

Step therapy means a specific sequence in which prescription drugs for a particular medical condition must be tried. If a drug is subject to step therapy in this formulary, you may have to try one or more other drugs before your health insurance policy will cover that drug for your medical condition. If your prescribing provider submits a request for an exception to the step therapy requirement, your health insurer must grant the request when it is medically necessary for you to take the drug.

Subscriber means the person who is responsible for payment to a plan or whose employment or other status, except for family dependency, is the basis for eligibility for membership in the plan.

How to use this guide

Your guide includes a list of commonly used drugs covered on your pharmacy plan. The amount you pay depends on the drug your doctor prescribes. It's either a flat fee or a percentage of the prescription's price after you meet your deductible, if applicable. Preferred generic drugs cost less. Preferred brand drugs will have a higher cost.

Refer to the Summary of Benefits for differences and information about the prescription drugs covered under your Outpatient prescription drugs and medical benefit in your plan.

A prescription drug may be located by looking up the therapeutic category and class to which the drug belongs or the brand or generic name of the drug in the alphabetical index; and

If a generic equivalent for a brand name drug is not available on the market or is not covered, the drug will not be separately listed by its generic name.

- A drug is listed alphabetically by its brand and generic names in the therapeutic category and class to which it belongs;
- The generic name for a brand name drug is included after the brand name in parentheses and all lowercase italicized letters. (For example: COREG (*carvedilol*))
- If a generic equivalent for a brand name drug is both available and covered, the generic drug will be listed separately from the brand name drug in all lowercase italicized letters; and (For example: *carvedilol*)
- If a generic drug is marketed under a proprietary, trademark-protected brand name, the brand name will be listed after the generic name in parentheses and regular typeface with the first letter of each word capitalized. (For example: *desogestrel-ethinyl estradiol* (Azurette)).
- Inclusion of a prescription drug on the formulary does not guarantee that your provider will prescribe the drug for a particular medical condition.
- Therapeutic categories and classes are based on the Medispan therapeutic classification system.

Your plan includes

- Brand and generic drugs that are hand-picked for their quality and effectiveness
- A specialty pharmacy fills specialty drug prescriptions (ones that are injected, infused or taken by mouth) — and provides services that include personal support, helpful resources and training, and free secure home delivery
- A home delivery pharmacy that delivers maintenance drugs to your home or wherever you choose (for drugs that are taken regularly to treat conditions like diabetes or asthma)

What you can expect to pay

With your pharmacy plan, the amount you pay depends on the drug your doctor prescribes. It's either a flat fee or a percentage of the drug's/medicine price.

Each drug is grouped as a generic, a brand or a specialty drug. The preferred drugs within these groups will generally save you money compared to a non-preferred drug. Typically, generic drugs are less expensive than brands.

Specialty prescription drugs typically include higher-cost drugs that require special handling, special storage or monitoring. These types of drugs may include, but are not limited to, drugs that are injected, infused, inhaled or taken by mouth.

You're covered for all types of medicine — some more expensive, and some less.

- **Generic – G (tier 1):** the lowest cost share
- **Preferred brand – PB (tier 2):** a slightly higher cost share
- **Non-preferred brand – NP (tier 3):** a higher cost share
- **Preferred Specialty – PSP (tier 4):** lower cost share for specialty drugs
- **Non-preferred Specialty – NPS (tier 5):** higher cost share for non-preferred specialty drugs
- **Copay Exception – CE:** Available to some members at no cost with a prescription from your provider when obtained at an in-network pharmacy. Certain limitations may apply.

Your pharmacy plan may not have all the coverage levels listed above so check your plan documents to see how much you will pay, for example your copayments and maximum dollar amounts.

For your exact coverage and cost, and to learn more about your plan

Visit the website that's on your member ID card. Then log in to your account, where you can:

- Find out the coverage and estimate of cost for specific drugs
- View your deductibles and plan limits
- Order medications

Have more questions about your pharmacy benefits?

We're here to help. There are several ways you can learn more about your benefits:

- Check your Plan Design and Benefits Summary in your enrollment kit.
- Call the toll-free number on your member ID card.
- Review our pharmacy frequently asked questions (FAQs) and answers. Just visit the website that's on your member ID card to search for the "Pharmacy FAQ".

Specialty Pharmacy Network

An in-network specialty pharmacy can fill your prescriptions for specialty drugs. These are the types of drugs that may be injected, infused or taken by mouth. They often need special storage and handling. And they need to be delivered quickly. A nurse or pharmacist may monitor your treatment, if needed. With this type of pharmacy, you can get this medicine sent right to our mailbox.

How to get started with a specialty pharmacy

Ordering your prescriptions through our specialty pharmacy is easy. And we typically offer a 30-day medicine supply.

- **To transfer your prescription,** just call us toll-free at **1-866-353-1892**.

- **For a new prescription,** your doctor can send it to us in one of four ways:

1. Electronically: Through e-prescribe

2. Fax: 1-800-323-2445

3. Phone: 1-800-237-2767

If you mail in your own prescription, please send it with a completed Patient Profile Form. To find this form, just visit the website that's on your member ID card, to search for the "Patient Profile Form".

CVS Caremark Mail Service Pharmacy™

You can have maintenance drugs sent right to your home or anywhere else you choose with CVS Caremark Mail Service Pharmacy. These are drugs that are taken regularly for chronic conditions like diabetes or asthma. Depending on your plan, you can get up to a 90-day supply of medicine for less cost. It's fast and convenient, and standard shipping is always free.

Get started right away

You can submit your order using one of these options:

- 2. Fax** — They can fax your prescription to **1-877-270-3317**. Make sure they include your member ID number, date of birth and mailing address on the fax cover sheet. Only a doctor may fax a prescription.

Frequently asked questions

How can I save on prescriptions?

Here are some tips to pay less out of pocket for your prescription drugs:

- Ask your doctor to consider prescribing drugs that are on the Pharmacy Drug Guide (formulary).
- Ask your doctor to consider prescribing generic drugs instead of brand-name drugs.
- Our home delivery service may save you money. For more information, visit the website on your member ID card and log in to your account.

What are generic drugs?

Generic drugs are proven to be just as safe and effective as brand-name drugs. They contain the same active ingredients in the same amounts as the brand-name drugs and work the same way. So they have the same risks and benefits as brand-name drugs. However, they typically cost less.

When appropriate, your doctor may decide to prescribe a generic drug or allow the pharmacist to substitute a generic drug.

What is prior authorization?

Prior authorization is one way that we can help you and your doctor find safe, appropriate drugs and keep costs down. Prior authorization means that you or your doctor need to get approval from the plan before certain drugs will be covered. Generally, Prior authorization applies to drugs that:

- Are often taken in the wrong way
- Should only be used for certain conditions
- Often cost more than other drugs that are proven to be just as effective

Keep in mind that your doctor must contact us to request approval of coverage for these drugs.

What is step therapy?

Some drugs require step therapy. This means that you must try one or more prerequisite drug(s) before a step therapy drug is covered.

The prerequisite drugs have U.S. Food and Drug Administration (FDA) approval and may cost less. They treat the same condition as the step therapy drug.

If you don't try the appropriate prerequisite drug(s) first, you may need to pay full cost for the step-therapy drug.

What are quantity limits?

Quantity limits help your doctor and pharmacist make sure that you use your drug correctly and safely. We use medical guidelines and FDA-approved recommendations from drug makers to set these coverage limits. The quantity limit program includes:

- **Dose efficiency edits** — Limits prescription coverage to one dose per day for drugs that have approval for once-daily dosing
- **Maximum daily dose** — If a prescription is lower than the minimum or higher than the maximum allowed dose, a message is sent to the pharmacy
- **Quantity limits over time** — Limits prescription coverage to a specific number of units over a specific amount of time

What if I need a drug that requires an exception to the prior authorization, step therapy or quantity limits requirements? Or what if I need a drug that's not covered under my plan?

In certain cases, you or your prescriber can request a medical exception to the prior authorization, step therapy or quantity limits requirement or for a drug that's not covered on your plan. Coverage determinations will be made within 72 hours of receiving non-urgent requests. You can ask for your request to be expedited. Expedited coverage decisions are made within 24 hours.

We'll then contact you or your prescriber with our decision. All medically necessary outpatient prescription drugs will be covered. If a medical exception is approved, you only need to pay the copay after the deductible. This amount is based on your pharmacy plan design.

Medical exceptions which are approved for non-urgent requests will cover the duration of the prescription, including refills. Approved medical exceptions for exigent circumstances will provide coverage for the duration of the exigency.

If your request is denied you have the right to file an appeal using the process described in the notification letter.

If a determination is not made for a prior authorization or step therapy exception request within 72 hours of receiving a non-urgent request and 24 hours of receiving a request based on exigent circumstances, the request is deemed approved and we may not deny the request thereafter.

In accordance with state law, members who are covered under small group health insurance policies and who have previously received approval from us for coverage of medications for the members' medical conditions will continue to have those medications covered, for as long as the prescriber continues prescribing them, provided that the drug is appropriately prescribed and is considered safe and effective for treating the member's medical condition.

How can your provider request a medical exception?

The following options will provide detail to help request a medical exception.

- Submit their request through our secure provider website on www.availity.com.
- Call the Aetna Pharmacy prior authorization unit:
Non-Specialty **1-800-294-5979** or
Specialty **1-866-814-5506**.
- Fax the completed request form to:
Non-Specialty **1-888-836-0730** or
Specialty **1-866-249-6155**.
- Mail the completed request form to:
Aetna Pharmacy Management
1300 East Campbell Road
Richardson, TX 75081

Can the formulary change during the year?

The formulary can change throughout the year. Some reasons why they can change include:

- New drugs are approved.
- Existing drugs are removed from the market.
- Prescription drugs may become available over the counter (without a prescription). Over-the-counter drugs are not generally covered in a formulary.
- Brand-name drugs lose patent protection and generic versions become available. When this happens, the generic drug will be covered in place of the brand-name drug. The brand-name drug is likely to become non-formulary or covered at a higher cost. See the "what are generic drugs?" section above for more information.

Pharmacy and Therapeutics (P&T) Committee

The services of an independent National Pharmacy and Therapeutics Committee ("P&T Committee") are utilized to approve safe and clinically effective drug therapies. The P&T Committee is an external advisory body of clinical professionals from across the United States. The P&T Committee's voting members include physicians, pharmacists, a pharmacoeconomist and a medical ethicist, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Voting members of the P&T Committee are not employees of CVS Caremark and must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

How do you find a pharmacy?

You can find a pharmacy in two ways:

Please note that if your prescription drug benefits plan changes, the information here may no longer apply.

Medications on the Aetna Drug Guide, precertification, step-therapy and quantity limits lists are subject to change.

Not all health services are covered. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change.

The quantity limits and step therapy drug coverage review programs are not available in all service areas. However, these programs are available to self-funded plans.

In accordance with state law, commercial fully insured members in Louisiana and Texas (except Federal Employee Health Benefit Plan members) who are receiving coverage for medications that are added or removed from the Pharmacy Drug Guide (formulary), prior authorization, Quantity Limits or Step-Therapy Lists during the plan year will continue to have those medications covered at the same benefit level until their plan's renewal date. In Texas, prior authorization approval is known as "pre-service utilization review." It is not "verification" as defined by Texas law.

In accordance with state law, certain fully insured commercial California members (except Federal Employee Health Benefit Plan members) who obtained approval from an Aetna plan for coverage of drugs that are later added to the Preauthorization or Step Therapy Lists or removed from the Pharmacy Drug Guide will continue to have those drugs covered, for as long as the treating in-network provider continues prescribing them, provided that the drug is appropriately prescribed and is considered safe and effective for treating the enrollee's medical condition. Aetna reserves the right to periodically request clinical information from your provider to assess your medical condition and the appropriateness of your ongoing treatment. Failure to provide clinical information could result in subsequent denial of coverage for this medication.

In accordance with state law, fully insured Commercial Connecticut preferred provider organization (PPO) members (except Federal Employee Health Benefit Plan members) who are receiving coverage for drugs that are added to the prior authorization or Step-Therapy Lists will continue to have those drugs covered for as long as the prescriber prescribes them, provided the drug is medically necessary and more medically beneficial than other covered drugs. Nothing in this section shall preclude the prescriber from prescribing another drug covered by the plan that is medically appropriate for the enrollee, nor shall anything in this section be construed to prohibit generic drug substitutions.

In certain states, including Arkansas, Colorado, Connecticut, Delaware, Georgia, Illinois, Louisiana, Maryland, Minnesota, North Dakota, Pennsylvania and Texas, step therapy programs do not apply to fully insured members utilizing prescription drugs for the treatment of stage-four advanced, metastatic cancer.
