HPMS Approved Formulary File Submission ID 00021281, Version Number 29.

This formulary was updated on December 1, 2021. For more recent information or other questions, please contact Pharmacy Benefit Dimensions Member Services at (716) 504-4444 or 1-800-667-5936 or, for TTY users 711, October 1st – March 31st: Monday through Sunday from 8 a.m. to 8 p.m., April 1st – September 30th: Monday through Friday 8 a.m. to 8 p.m., or visit www.pbdrx.com/Medicare.

Pharmacy Benefit Dimensions is a subsidiary of Independent Health. Independent Health is a PDP with a Medicare contract. Enrollment in Pharmacy Benefit Dimensions PDP depends on contract renewal between Independent Health and CMS.

The formulary may change at any time. You will receive notice when necessary.

THIS PAGE INTENTIONALLY LEFT BLANK

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us”, or “our,” it means Pharmacy Benefit Dimensions. When it refers to “plan” or “our plan,” it means Pharmacy Benefit Dimensions Prescription Drug Plan PDP.

This document includes the list of the drugs (formulary) for our plan which is current as of December 1, 2021. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2021, and from time to time during the year.

What is the Pharmacy Benefit Dimensions Prescription Drug Plan PDP Formulary?

A formulary is a list of covered drugs selected by Pharmacy Benefit Dimensions Prescription Drug Plan PDP in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Pharmacy Benefit Dimensions will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Pharmacy Benefit Dimensions Prescription Drug Plan PDP network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

This document is a partial formulary and includes only some of the drugs covered by Pharmacy Benefit Dimensions Prescription Drug Plan PDP. For a complete listing of all prescription drugs covered by Pharmacy Benefit Dimensions Prescription Drug Plan PDP, please visit our website or call us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

Can the Formulary (drug list) change?

Most changes in drug coverage happen on January 1, but Pharmacy Benefit Dimensions Prescription Drug Plan PDP may add or remove drugs on the Drug List during the year, move them to different cost-sharing tiers, or add new restrictions. Pharmacy Benefit Dimensions Prescription Drug Plan PDP must follow Medicare rules in making these changes.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **New generic drugs.** We may immediately remove a brand name drug on our Drug List if we are replacing it with a new generic drug that will appear on the same or lower cost sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand name drug on our Drug List, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.
 - If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the

section below entitled “How do I request an exception to the Pharmacy Benefit Dimensions Prescription Drug Plan PDP formulary?”

- **Drugs removed from the market.** If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may add a generic drug that is not new to market to replace a brand name drug currently on the formulary; or add new restrictions to the brand name drug or move it to a different cost sharing tier or both. Or we may make changes based on new clinical guidelines. If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 30-day supply of the drug.
 - If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the Pharmacy Benefit Dimensions Prescription Drug Plan PDP formulary?”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2020 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2021 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

The enclosed formulary is current as of December 1, 2021. To get updated information about the drugs covered by Pharmacy Benefit Dimensions Prescription Drug Plan PDP, please contact us. Our contact information appears on the front and back cover pages. In the event that a non-maintenance change to the formulary occurs prior to the monthly publication update, such change will be communicated via an ERRATA sheet, which will be available on our website at www.pbdrx.com/MedicareFormularies and in printed form.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 13. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Agents”. If you know what your drug is used

for, look for the category name in the list that begins on page 10. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on Index Page 1. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Pharmacy Benefit Dimensions Prescription Drug Plan PDP covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Pharmacy Benefit Dimensions Prescription Drug Plan PDP requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Pharmacy Benefit Dimensions Prescription Drug Plan PDP before you fill your prescriptions. If you don't get approval, Pharmacy Benefit Dimensions Prescription Drug Plan PDP may not cover the drug.
- **Quantity Limits:** For certain drugs, Pharmacy Benefit Dimensions Prescription Drug Plan PDP limits the amount of the drug that Pharmacy Benefit Dimensions Prescription Drug Plan PDP will cover. For example, Pharmacy Benefit Dimensions Prescription Drug Plan PDP provides 30 tablets per prescription for LATUDA 20 MG. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, Pharmacy Benefit Dimensions Prescription Drug Plan PDP requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Pharmacy Benefit Dimensions Prescription Drug Plan PDP may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Pharmacy Benefit Dimensions Prescription Drug Plan PDP will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 13. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. We have posted online documents that explain our prior authorization, quantity limit and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Pharmacy Benefit Dimensions Prescription Drug Plan PDP to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the Pharmacy Benefit Dimensions Prescription Drug Plan PDP formulary?” on page V for information about how to request an exception.

What are over-the-counter (OTC) drugs?

OTC drugs are non-prescription drugs that are not normally covered by a Medicare Prescription Drug Plan. Pharmacy Benefit Dimensions Prescription Drug Plan PDP offered by Niagara County pays for certain OTC drugs. These drugs include ZADITOR OTC and:

AFFORDABLE CARE ACT PREVENTATIVE SERVICES	
Prescription and OTC versions (where applicable) will be covered only with a prescription written by a licensed healthcare provider.	
Aspirin for Cardiovascular Disease Prevention	The USPSTF recommends initiating low-dose aspirin use for the primary prevention of cardiovascular disease and colorectal cancer in adults aged 50 to 59 years who have a 10% or greater 10-year cardiovascular risk, are not at increased risk for bleeding, have a life expectancy of at least 10 years, and are willing to take a low-dose aspirin for at least 10 years.
Contraceptive Coverage	All formulary generic and preferred brand name drugs (without a generic equivalent) will have a zero dollar (\$0) co-payment. Cervical caps, diaphragms, female condoms, and spermicides will have a zero dollar (\$0) co-payment.
Folic Acid Supplements	Supplements containing 0.4mg and 0.8mg of folic acid will be covered for women who are planning or are capable of pregnancy.
Iron Supplementation for Children	Iron supplements will be covered for children aged six (6) months to twelve (12) months who are at high risk for iron deficiency anemia.
Tobacco Cessation Products (FDA Approved)	Covered for adults eighteen (18) years of age and older and for pregnant women with no age limit. The following products are covered: <i>bupropion sr</i> (generic ZYBAN), CHANTIX, gums, inhalers, lozenges, nasal sprays, and patches.
Vitamin D	Covered for adults aged sixty-five (65) and older who are at an increased risk for falls.

The cost to Pharmacy Benefit Dimensions Prescription Drug Plan PDP offered by Niagara County of these OTC drugs will not count toward your total Part D drug costs (that is, the cost of the OTC drugs does not count for the coverage gap).

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that Pharmacy Benefit Dimensions Prescription Drug Plan PDP does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by Pharmacy Benefit Dimensions Prescription Drug Plan PDP. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Pharmacy Benefit Dimensions Prescription Drug Plan PDP.
- You can ask Pharmacy Benefit Dimensions Prescription Drug Plan PDP to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Pharmacy Benefit Dimensions Prescription Drug Plan PDP Formulary?

You can ask Pharmacy Benefit Dimensions Prescription Drug Plan PDP to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Pharmacy Benefit Dimensions Prescription Drug Plan PDP limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, Pharmacy Benefit Dimensions Prescription Drug Plan PDP will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, or utilization restriction exception. **When you request a formulary or utilization restriction exception, you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that

we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 34-day emergency supply of that drug while you pursue a formulary exception.

For enrollees admitted or discharged from a long-term care facility or have had any change in level of care, early refill edits will not be used to limit appropriate and necessary access to your Part D benefit and you are allowed to access a refill upon admission or discharge without restrictions. Long Term Care (LTC) pharmacies are permitted to use Emergency Boxes (E Box) when necessary. However, the E Box should be replenished from the patient's month prescription claim.

If you are a new or current Medicare Part D enrollee transitioning from one treatment setting to another or experience transitions due to level of care changes, Pharmacy Benefit Dimensions Prescription Drug Plan PDP will provide a supply of medication pursuant to CMS requirements in compliance with transition and continuity of care provisions as follows:

- At a retail pharmacy a one-time 30-day transition supply (unless the prescription is written for less than 30 days) will be authorized with refills to total 30 days of medication.
- If you are a resident of a long-term care facility, a 34-day supply (unless the prescription is written for less) will be authorized with refills if needed.

After authorizing the temporary fills referred to above, we will send you a letter via the U.S. mail within three (3) business days, detailing the temporary nature of the transition supply you have received, instructions for working with the plan and your doctor to identify appropriate therapeutic alternatives that are in the Pharmacy Benefit Dimensions Prescription Drug Plan PDP formulary, an explanation of your right to request a formulary exception and a description of the procedures for requesting a formulary exception. We will also send a copy of the letter to your doctor.

Pharmacy Benefit Dimensions Prescription Drug Plan PDP Formulary

The formulary that begins on page 13 provides coverage information about the drugs covered by Pharmacy Benefit Dimensions Prescription Drug Plan PDP. If you have trouble finding your drug in the list, turn to the Index that begins on Index Page 1.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., SYNTHROID®) and generic drugs are listed in lower-case italics (e.g., *omeprazole*).

The information in the Requirements/Limits column tells you if Pharmacy Benefit Dimensions Prescription Drug Plan PDP has any special requirements for coverage of your drug.

Drugs listed with an **“AL”** in the Requirements/Limits column have age limitations.

Drugs listed with a **“BD”** in the Requirements/Limits column may be covered under Medicare Part B or Part D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination. If it is determined that coverage for this drug falls under Medicare Part B, your cost will not be the tier co-payment in the drug list. Please refer to your Evidence of Coverage for the cost of Part B drugs or contact Pharmacy Benefit Dimensions Medicare Member Services Department. Our contact information appears on the front and back cover pages.

Drugs listed with an **“EDS”** in the Requirements/Limits column may be prescribed and dispensed at a participating network retail or mail order pharmacy for an extended 90-day supply.

Drugs listed with an **“EHS”** in the Requirements/Limits column are prescription drugs that are not normally covered under a Medicare Prescription Drug Plan. In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for this drug.

Drugs listed with a **“LA”** in the Requirements/Limits column may be available only at certain pharmacies. For more information please contact our Member Services Department. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

Drugs listed with a **“PA”** in the Requirements/Limits column require prior authorization (see “Are there any restrictions to my coverage on page III”).

Drugs listed with a **“QL”** in the Requirements/Limits column require prior authorization (see “Are there any restrictions to my coverage” on page III).

Drugs listed with a **“ST”** in the Requirements/Limits column are restricted to step therapy requirements (see “Are there any restrictions on my coverage” on page III).

Information for members with Diabetes

OneTouch blood glucose meters, lancets, test strips, and supplies are our preferred diabetic supplies and do not require Prior Authorization. Test strips are limited to 100 strips per 30 days, for up to a 90-day supply.

Freestyle Libre reader device and sensors are our preferred continuous glucose monitoring system supplies and do not require Prior Authorization. Freestyle Libre products are available at retail pharmacies.

Information on Vaccines

Covered vaccinations will be available to you with a \$0 co-payment. Please show your Nova medical card and your Pharmacy Benefit Dimensions Prescription Drug Plan PDP prescription card to your provider when you are receiving a vaccination.
