Blue Cross Blue Shield of Arizona's Drug List for Aon Active Health

Exchange Effective 1/1/19

Your prescription medications fall into one of three categories or "tiers." Each tier has different copay or out of pocket expense. Medications are categorized by tier—not by their generic, brand-name or specialty drug label. So, for this benefit each tier may contain a combination of generic, brand-name and specialty drugs. Specialty drugs are limited to a 30 day supply at the In-Network Specialty Pharmacies. If you purchase a brand name medication when a generic equivalent is available, you will pay the assigned tier copay plus the difference between the allowed amount for the generic and the brand name medication, even if the prescribing provider indicates on the prescription that the brand name medication should be dispensed.

Three Tier Drug Benefit	Description
Tier 1	Low Cost Share
Tier 2	Moderate Cost Share
Tier 3	Highest Cost Share

Additional information about your pharmacy benefits can be found under Forms and Resources. This includes:
