2016 Aetna Pharmacy Drug Guide

Five-Tier Open Aetna Value Plus Small Group Plan: DE

Do you have questions?

Call the toll-free number on your member ID card. Or visit www.aetna.com/formulary for the most up-to-date information.

Dear Member:

We are pleased to provide you with a copy of our 2016 Aetna Pharmacy drug guide that includes information about your pharmacy benefits plan. Take this guide with you when you see your doctor if you want to talk about what medicines are covered under your plan and what they may cost.

Many commonly prescribed drugs are listed in this guide.

Note: this is not a complete list of drugs covered under your plan. We list only the most commonly prescribed medicines as thousands of drugs are covered by your plan.

Want to learn more your plan's drug coverage? Just visit www.aetna.com and log in to Aetna Navigator®, your secure member website. Then take these simple steps:

1. Select "Aetna Pharmacy" at the top of the page.
2. In the "Coverage & Benefits" section, select "Pharmacy". Then, "View your pharmacy plan details."

What pharmacy benefits plan do I have?

You are enrolled in a Five Tier, Open Formulary plan.

Here's what that means to you:

Think of **tier** as a level. **Five tier** means you could pay five different amounts, depending on the drug you take.

A **formulary** is a list of generic and brand-name drugs that your plan covers. An **open formulary** means your plan covers most prescription drugs. But it may not cover some others.

What can I expect to pay?

With this health benefits and health insurance plan, the amount you pay depends on the drug your doctor prescribes. It's either a flat fee or a percent of the prescription's price. Each drug your plan covers falls under a different level or tier. The lower the tier, the lower the price. The higher the tier, the higher the price.

What you pay falls into one of these tiers or levels:

Tier One: You pay **the lowest cost** for drugs in this level.

Tier Two: You pay **a slightly higher cost** for drugs in this level.

Tier Three: You pay **the highest cost** for drugs in this level.

Specialty drugs are on tier four and tier five. Specialty drugs may be injected, infused or taken by mouth.

Tier Four: You pay **a higher cost** for specialty drugs in this level.

Tier Five: You pay **the highest cost** for non-Preferred Specialty drugs in this level.

To find your exact costs

Check your Plan Design and Benefits summary in your enrollment kit.

Your pharmacy benefits plan may include a program that encourages you to choose a generic drug over a brand-name drug to help reduce what you pay. This means that if you fill a brand-name drug when a generic is available, that in addition to your standard copay or coinsurance, you must also pay the difference in cost between the brand-name and generic drug.

For a summary of your pharmacy benefits plan, including out-of-pocket costs, visit www.aetna.com and log in to Aetna Navigator. Or call the toll-free number on your member ID card.

Where can I find more formulary information?

You and your doctor can search for a drug, find out if it's covered and see what tier it's in. You can also see if there are alternatives that cost less. **Tell your doctor that you pay more for tier five drugs** so he or she can consider this when writing a prescription.

Visit www.aetna.com/formulary. You arrive at a page that says "Find a Medication." This is where you can learn more about the types of drug coverage reviews required for your medicine(s); things like precertification, step therapy or quantity limits. You will arrive at a menu page where you can view various drug lists, including your Aetna Pharmacy drug guide and more.

How is the formulary developed?

Aetna's Pharmacy and Therapeutics (P&T) Committee meets regularly to review new drugs and new information about drugs that are already on the market. It reviews available information concerning safety, effectiveness and current use in therapy. The P&T Committee reviews scientific evidence, including relevant findings of federal government agencies, pharmaceutical manufacturers, medical professional associations, national commissions and peer-reviewed journals.

Our P&T Committee includes licensed pharmacists and doctors, including those who are currently in practice and others who are Aetna employees. All committee members must tell us if they are in a situation that can create a conflict of interest or if they have a financial stake that might affect their decisions.

Once the P&T Committee completes its clinical review, we also consider overall value (including cost and manufacturer rebate arrangements) and other factors before adding or removing a drug from the formulary. The Aetna Pharmacy drug guide shows you recent changes to the guide. For example, it could show what drugs started requiring coverage reviews like precertification, step therapy or quantity limits. Or which drugs no longer do. The P&T Committee can make recommendations to change the tier level of a drug or to place it on our Formulary Exclusions List, designating it as a drug that is no longer covered.

Why is the formulary subject to change?

We may add or remove drugs for certain reasons. We might also move a drug from one coverage tier to another.

Here are some reasons why:

- As brand-name drugs lose their patents and generic versions become available, the brand-name may be covered at a higher out-of-pocket cost while the generic may be covered at a lower out-of-pocket cost.
- The U.S. Food and Drug Administration (FDA) approves many new drugs throughout the year.
- Drugs can be withdrawn from the market or may become available without a prescription. Over-the-counter (OTC) drugs are not generally covered under a prescription plan, unless required by law.

Our website, www.aetna.com/formulary, reflects the most up-to-date formulary information – so please visit it often.

Why do some drugs require prior authorization or precertification?

This drug coverage review encourages appropriate and cost-effective use of prescription drugs by allowing coverage only when certain conditions are met.

Reasons for precertification include:

- Compliance with dosing guidelines
- Avoiding duplicate therapies
- Helping health care providers check that a drug is being used based on generally accepted medical criteria

The precertification program is based on current medical findings, FDA-approved manufacturer labeling information, and cost and manufacturer rebate arrangements.

If your plan requires precertification, you will find a list of drugs that are subject to precertification with this guide. Please keep in mind that:

- Your doctor must contact Aetna to request approval of coverage for these drugs.
- If we approve the request, we will notify your doctor. The drug will then be covered at the applicable out-of-pocket cost under your plan. You will also be notified of approvals where the state requires notification to members.

If the request is denied, you and your doctor will be notified. You can still purchase the drug, but for the full price.

Why do some drugs have quantity limits?

This drug coverage review limits coverage of quantities for certain drugs. These limits help your doctor and pharmacist check that your prescribed drug is used correctly and safely.

We use medical guidelines and FDA-approved recommendations from drug makers to set these coverage limits. The quantity limit program includes:

- **Dose Efficiency Edits** – Limit coverage of prescriptions to one dose per day for drugs that are approved for once-daily dosing.
- **Maximum Daily Dose** – A message is sent to the pharmacy if a prescription is less than the minimum or higher than the maximum allowed dose.
- **Quantity Limits Over Time** – Limit coverage of prescriptions to a specific number of units in a defined amount of time.

What is step therapy?

This drug coverage review promotes the appropriate use of equally effective but lower-cost drugs first. These lower-cost drugs are FDA-approved and treat the same condition as the corresponding step therapy drugs.

What is therapeutic duplication?

Therapeutic duplication means that two or more drugs of the same type are prescribed at the same time. This can occur when two doctors prescribe similar drugs or when your doctor switches from one drug to another drug in the same class without cancelling the first prescription.

It is rare that you should ever need two drugs from the same class to treat a medical condition. Since serious side effects may occur, we help bring such duplications to your pharmacist's and doctor's attention.

Learn more about drug coverage reviews

If you have a medical need for a drug that requires precertification, quantity limits or step therapy, your doctor can ask for a medical exception. The list of drugs requiring precertification, quantity limits or step therapy is subject to change. Find the most up-to-date information at www.aetna.com/formulary.

You may be able to save with generic drugs

Generic drugs are approved by FDA and proven to be just as safe and effective as brand-name drugs. They contain the same active ingredients in the same amounts as the brand-name drugs. The difference is that generics may be a different color, shape or size.

When appropriate, your doctor may decide to prescribe, or allow substitution with, a generic drug. Please talk to your doctor to find out if a generic is right for you.

Saving on prescriptions

Here are some other tips to pay less out of pocket for your prescription drugs:

- Ask your doctor to consider prescribing drugs that are on the Pharmacy Drug (formulary) Guide.
- Ask your doctor to consider prescribing generic drugs instead of brand-name drugs.
- Check to see if your plan includes our mail-order pharmacy service. Depending upon your plan, mail order may save you money. See Aetna Rx Home Delivery in this guide for details.
- Remind your doctor to check your plan to make sure you get maximum coverage.

What is Aetna Rx Home Delivery?

Check your plan documents to see if your plan includes our Aetna Rx Home Delivery mail order pharmacy. It fills prescriptions for maintenance medicine. This type of medicine is used regularly, to treat conditions like arthritis, asthma, diabetes or high cholesterol. If you need this type of drug, you can get up to a 90-day supply, or the maximum supply allowed by your plan, and free delivery right to your mailbox.

You also get:

- Quick, confidential service
- Free standard shipping
- Pharmacists who check all prescriptions for accuracy and can answer questions any time

It's easy and fast to order – choose one of these ways:

1. **CourtesyStartSM** – Fill your new mail order prescription online at www.aetna.com. Click “Order Medications Online” and “Request a New Prescription”. Or, call us toll-free at 1-888-RX AETNA (1-888-792-3862) or TDD: 1-800-823-6373. We will contact your doctor to try and get a new prescription for you. You may need to schedule a visit with your doctor before he or she will write a new prescription.
2. **Mail** – Get a new 90-day prescription from your doctor. Mail it to us with a completed order form. Access the order form online. Log in to www.aetna.com, then click “Aetna Pharmacy.”
3. **Fax** – Ask your doctor to fax your new prescription, with your completed order form to 1-877-270-3317. Make sure your doctor includes your member ID number, your date of birth and your mailing address on the fax cover sheet. Only a doctor may fax a prescription.

If your prescription is for a controlled medicine, a written prescription from your doctor may be needed.

Generally, if your order is complete, you will receive your medicine within 10-14 days from when Aetna Rx Home Delivery receives your order. You can request expedited delivery for an additional charge.

What is Aetna Specialty Pharmacy?

Aetna Specialty Pharmacy is Aetna's in-house specialty pharmacy. It can fill your prescription specialty medicine. These types of drugs may be injected, infused or taken by mouth. Specialty medicine often needs special storage and handling. It must be delivered quickly. And a nurse or pharmacist should monitor you during your treatment. Use Aetna Specialty Pharmacy to get this medicine sent right to your mailbox. You also get:

- Free delivery that is reliable, secure and sent anywhere you choose
- Extra help when you need it – like injection training and side effect monitoring
- Refill reminders
- Proactive outreach to confirm your refills
- Free standard supplies
- Nurses and pharmacists to help 24 hours a day, every day

It's easy and fast to order – choose one of these ways:

- **Fax** – Your doctor can fax your prescription to **1-866-FAX-ASRX (1-866-329-2779)**.
- **Mail** – You or your doctor can mail your prescription order to: Aetna Specialty Pharmacy, 503 Sunport Lane, Orlando, FL 32809. If you mail in your own prescription, please send it along with a completed Patient Profile Form. Find the form at **www.AetnaSpecialtyRx.com** by clicking on “Specialty pharmacy: How to enroll.”
- **Phone** – Your doctor can also call and speak to one of our registered pharmacists at **1-866-782-ASRX (1-866-782-2779)** during normal business hours of 8 a.m. until 7 p.m. ET.

To transfer an existing prescription order and have it filled by Aetna Specialty Pharmacy, call toll-free at **1-866-353-1892**.

Please note that if your prescription drug benefits plan changes, the information herein may no longer apply.

A copayment is a flat fee. Coinsurance is a percentage of the rate that Aetna negotiates with the plan sponsor for covered prescriptions except as required by law to be otherwise. Some drugs on the Preferred Drug List are subject to manufacturer rebates. Coinsurance is calculated before any rebates are subtracted. That means it may be possible for your cost of a preferred drug to be higher than your cost of a non-preferred drug.

Health benefits and health insurance plans are offered, administered and/or underwritten by Aetna Health Inc., Aetna Health Insurance Company of New York, Aetna Health Insurance Company and/or Aetna Life Insurance Company (Aetna). In Florida, by Aetna Health Inc. and/or Aetna Life Insurance Company. In Maryland, by Aetna Health Inc., 151 Farmington Avenue, Hartford, CT 06156. Each insurer has sole financial responsibility for its own products. Aetna Pharmacy Management refers to an internal business unit of Aetna Health Management, LLC. Aetna Specialty Pharmacy refers to Aetna Specialty Pharmacy, LLC, a subsidiary of Aetna Inc., which is a licensed pharmacy that operates through specialty pharmacy prescription fulfillment.

Not all health services are covered. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change.

Aetna receives rebates from drug manufacturers that may be taken into account in determining Aetna's Pharmacy Drug (formulary) Guide. Rebates do not reduce the amount a member pays the pharmacy for covered prescriptions. Information is subject to change. For more information about Aetna plans, refer to www.aetna.com.

The drugs on the Pharmacy Drug (formulary) Guide, Formulary Exclusions, Precertification, Quantity Limit and Step Therapy Lists are subject to change. The quantity limits and step therapy drug coverage review programs are not available in all service areas. For example, step therapy programs do not apply to fully-insured members in Indiana. Step therapy does not apply to fully-insured members in New Jersey. However, these programs are available to self-funded plans.

In accordance with state law, commercial fully-insured members in Louisiana and Texas (except Federal Employee Health Benefit Plan members) who are receiving coverage for medications that are added or removed from the Pharmacy Drug (formulary) Guide, Precertification, Quantity Limits or Step-Therapy Lists during the plan year will continue to have those medications covered at the same benefit level until their plan's renewal date. In Texas, precertification approval is known as "pre-service utilization review." It is not "verification" as defined by Texas law.

In accordance with state law, fully-insured Commercial California HMO members (except Federal Employee Health Benefit Plan members) who are receiving coverage for medications that are added to the Precertification or Step-therapy Lists will continue to have those medications covered, for as long as the treating physician continues prescribing them, provided that the drug is appropriately prescribed and is considered safe and effective for treating the enrollee's medical condition. In accordance with state law, fully-insured Commercial Connecticut PPO members (except Federal Employee Health Benefit Plan members) who are receiving coverage for medications that are added to the Precertification or Step-therapy Lists will continue to have those medications covered for as long as the treating physician prescribes them, provided the drug is medically necessary and more medically beneficial than other covered drugs. Nothing in this section shall preclude the prescribing provider from prescribing another drug covered by the plan that is medically appropriate for the enrollee, nor shall anything in this section be construed to prohibit generic drug substitutions.

This material is for information only. It contains only a partial, general description of plan benefits or programs and does not constitute a contract. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change. Providers are independent contractors and are not agents of Aetna. Provider participation may change without notice. Aetna does not provide care or guarantee access to health services. Information is subject to change. For more information about Aetna plans, refer to www.aetna.com.
