# Armodafinil

## Products Affected

- *armodafinil oral tablet 50 mg*

PA Criteria	Criteria Details
<b>Covered Uses</b>	excessive daytime sleepiness, Shift Work Sleep Disorder
<b>Exclusion Criteria</b>	Nuvigil is not indicated to treat side effects caused by other medications.
<b>Required Medical Information</b>	<p>FOR THE TREATMENT OF EXCESSIVE DAYTIME SLEEPINESS ASSOCIATED WITH NARCOLEPSY: Documentation of diagnostic testing and clinical notations supporting diagnosis of Narcolepsy, such as MSLT, clinical progress notes, etc. (Failure to adequately support the diagnosis of narcolepsy may result in denial of coverage), and the patient has failed an adequate trial of at least TWO of the following immediate release stimulants (all available generically): Dexedrine, Ritalin, or Adderall, and the patient has stepped through an adequate trial of modafinil (modafinil requires prior authorization). FOR THE TREATMENT OF EXCESSIVE DAYTIME SLEEPINESS ASSOCIATED WITH OBSTRUCTIVE SLEEP APNEA/HYPOPNEA SYNDROME: The prescribing physician is a sleep specialist, ear, nose and throat, neurologist or pulmonologist or has obtained a consult from a sleep specialist, and a standard diagnostic nocturnal polysomnography (NPSG) has confirmed the diagnosis of OSAHS, and the patient has received nasal continuous positive airway pressure (CPAP) or bilevel positive airway pressure (BIPAP) for at least 1 month, and CPAP or BIPAP therapy must be continued on a routine basis in combination with armodafinil therapy, and the daytime fatigue is significantly impacting, impairing, or compromising the patients ability to function normally, and the prescribing physician has established a patient care plan to treat the cause of OSAHS in conjunction with treating the daily fatigue, and the patient must be compliant with recommendations for OSAHS treatment, and the patient has stepped through an adequate trial of modafinil (modafinil requires prior authorization).</p>
<b>Age Restrictions</b>	
<b>Prescriber Restrictions</b>	
<b>Coverage Duration</b>	3 years
<b>Other Criteria</b>	Note: The plan also requires an unresponsive 2-week trial of 150mg per day dose before a 250mg per day dose is authorized. (Doses up to 250 mg/day can be used but there is no solid evidence that it provides additional benefit beyond 150 mg/day.)

# Budesonide

## Products Affected

- *budesonide inhalation*

PA Criteria	Criteria Details
<b>Covered Uses</b>	Asthma
<b>Exclusion Criteria</b>	Budesonide inhalation solution is NOT covered for members greater than 8 years of age, for children 5-8 years of age who are able to use metered-dose inhalers, for use in primary treatment of status asthmaticus or other acute episodes of asthma where intensive measures are required, and for use in acute bronchospasms.
<b>Required Medical Information</b>	Covered for the maintenance treatment of asthma and as prophylactic therapy in children 1-4 years of age, or in children 5-8 years of age if unable to use metered dose inhalers.
<b>Age Restrictions</b>	Less than 8 years of age
<b>Prescriber Restrictions</b>	
<b>Coverage Duration</b>	1 Year, up to the age of 8 years of age
<b>Other Criteria</b>	Medical Exception: Covered for topical steroid treatment of eosinophilic esophagitis for which other treatments have been unsatisfactory
<b>Notes/References</b>	
<b>Revision Date</b>	Prior Authorization: November 24, 2015 Step Therapy: August 25, 2015 Quantity Limits: August 25, 2015

# Bunavail

## Products Affected

- BUNAVAIL

PA Criteria	Criteria Details
<b>Covered Uses</b>	Opioid Dependence. NOTE: Prior Authorization does not apply to members residing in Massachusetts.
<b>Exclusion Criteria</b>	Medical literature does not support the concurrent use of opioids/Tramadol as part of opioid drug dependence treatment. Abstinence of opioids/Tramadol is required both during and following therapy with Suboxone/Subutex/Zubsolv/Bunavail/buprenorphine, and will only be covered when determined to be medically necessary (defined as short-term use during and following opioid dependence treatment for the treatment of acute pain related to surgery, dental procedure, or an emergency situation or for long-term use following opioid dependence treatment for the treatment of chronic pain. For long term use, the member must be treated by a single provider of their choice, opioids will only be covered when prescribed by this single provider, and this single provider is aware of past buprenorphine use for opioid dependence treatment in which an opioid dependence diagnosis). Physicians can contact (855) 746-0013 with any information related to the medical necessity for opioid/Tramadol therapy.
<b>Required Medical Information</b>	Prescriber provides verbal verification of patient's current and ongoing enrollment in an outpatient drug addiction treatment program/ counseling. If the member is currently enrolled, the approval will be 6 months. If the member is NOT enrolled (answer=no) and prescriber provides verbal verification of patient's agreed commitment to become enrolled in an acceptable drug addiction treatment program counseling, the approval will be for 2 months (Note: 1 time approval ONLY). If after 2 months member does not enroll in a program, then all future requests will be denied until member enrolls in a program.
<b>Age Restrictions</b>	
<b>Prescriber Restrictions</b>	
<b>Coverage Duration</b>	6 months = current enrollment

- *lidocaine external ointment*

PA Criteria	Criteria Details
<b>Covered Uses</b>	***AUTHORIZATION IS NOT REQUIRED FOR LESS THAN 50 GRAMS OF LIDOCAINE EVERY 30 DAYS*** For quantities over 50 grams every 30 days, there must be a documented temporary need for anesthesia for any of the following: Accessible mucous membranes of the oropharynx, skin and mucous membranes or stomatitis, or pain associated with a minor burns, including sunburn, abrasions of the skin, and insect bites.
<b>Exclusion Criteria</b>	Documentation of any of the following: Planned area of application includes non-intact skin, sensitivity to amide-type local anesthetics or any other component of the product, planned use on large surface area of the body as this can lead to increased toxicity, planned area of application includes severely traumatized skin (e.g., mucosal or skin abrasion, eczema, burns), the medication is being used in conjunction with a cosmetic procedure (i.e. hair removal), or if the product will be compounded with other products that would alter the total dose/dosage form being administered
<b>Required Medical Information</b>	A documented need for temporary anesthesia for any of the following: Accessible mucous membranes of the oropharynx, skin and mucous membranes or stomatitis, or pain associated with a minor burns, including sunburn, abrasions of the skin, and insect bites.
<b>Age Restrictions</b>	
<b>Prescriber Restrictions</b>	
<b>Coverage Duration</b>	3 months

2016 Aetna Pharmacy Drug Guide - Individual  
 Last Update 12/2016  
 Next Update 01/2017

PA Criteria	Criteria Details
<b>Other Criteria</b>	<p>*Topical lidocaine ointment is used for temporary anesthesia. Prescription renewals for longer than 3 months require clinical documentation of medical necessity. Due to Safety Concerns higher quantities and prolonged use are not recommended. Renewal Duration: 3 months *Approval can made up to an additional 50gms per 30 days. Higher additional quantities are not approvable</p> <p>*FOR ADULTS: A single application should not exceed 5 g of Lidocaine Ointment 5%, containing 250 mg of lidocaine base (equivalent chemically to approximately 300 mg of lidocaine hydrochloride). This is roughly equivalent to squeezing a six (6) inch length of ointment from the tube. In a 70 kg adult this dose equals 3.6 mg/kg (1.6 mg/lb) lidocaine base. No more than one-half tube, approximately 17-20 g of ointment or 850-1000 mg lidocaine base, should be administered in any one day. FOR CHILDREN: For children less than ten years who have a normal lean body mass and a normal lean body development, the maximum dose may be determined by the application of one of the standard pediatric drug formulas (e.g., Clark's rule). For example a child of five years weighing 50 lbs., the dose of lidocaine should not exceed 75-100 mg when calculated according to Clark's rule. In any case, the maximum amount of lidocaine administered should not exceed 4.5 mg/kg (2.0 mg/lb) of body weight</p> <p>***Lidocaine toxicity resulting from transcutaneous absorption is theoretically possible. Signs and symptoms of systemic lidocaine toxicity include CNS excitation and/or depression, nervousness, confusion, dizziness, tinnitus, blurred or double vision, vomiting, twitching, tremors, seizures, unconsciousness, respiratory depression, bradycardia, hypotension, and cardiopulmonary arrest. If there is suspicion of lidocaine-related systemic toxicity, check lidocaine blood concentrations</p>
<b>QL Criteria</b>	50 grams Per 30 Days
<b>Notes/References</b>	
<b>Revision Date</b>	Prior Authorization: October 03, 2016 Step Therapy: August 25, 2015 Quantity Limits: August 25, 2015

# Lidocaine-Prilocaine

## Products Affected

- *lidocaine-prilocaine external cream*

PA Criteria	Criteria Details
<b>Covered Uses</b>	***AUTHORIZATION IS NOT REQUIRED FOR LESS THAN 50 GRAMS OF LIDOCAINE EVERY 30 DAYS*** For quantities over 50 grams every 30 days, there must be a documented temporary need for topical anesthetic in either of the following situations: Normal, intact skin for local analgesia, or Genital mucous membranes for superficial minor surgery and as pretreatment for infiltration anesthesia
<b>Exclusion Criteria</b>	Documentation of any of the following: Planned area of application includes non-intact skin, Sensitivity to amide-type local anesthetics or any other component of the product, Planned use on large surface area of the body or for a period of time over 3 hours as this can lead to increased toxicity, the medication is being used in conjunction with a cosmetic procedure (i.e. hair removal), Use in situations where the drug may migrate into the middle ear, beyond the tympanic membrane, History of methemoglobinemia, or if the product will be compounded with other products that would alter the total dose/dosage form being administered
<b>Required Medical Information</b>	A documented need for topical anesthetic in either of the following situations: Normal, intact skin for local analgesia, or Genital mucous membranes for superficial minor surgery and as pretreatment for infiltration anesthesia
<b>Age Restrictions</b>	
<b>Prescriber Restrictions</b>	
<b>Coverage Duration</b>	3 months
<b>Other Criteria</b>	*Topical lidocaine/prilocaine cream is used for temporary anesthesia. Prescription renewals for longer than 3 months require clinical documentation of medical necessity. Due to Safety Concerns higher quantities and prolonged use are not recommended. Renewal Duration: 3 months *Up to an additional 30 grams per 30 days. Higher additional quantities are not approvable.
<b>QL Criteria</b>	30 grams Per 30 Days

# Modafinil

## Products Affected

- *modafinil*

PA Criteria	Criteria Details
<b>Covered Uses</b>	Excessive daytime sleepiness associated with narcolepsy, Excessive daytime sleepiness associated with obstructive sleep apnea/hypopnea syndrome (OSAHS), shift work sleep disorder (SWSD)
<b>Exclusion Criteria</b>	Modafinil is not indicated to treat side effects caused by other medications.
<b>Required Medical Information</b>	FOR THE TREATMENT OF EXCESSIVE DAYTIME SLEEPINESS ASSOCIATED WITH NARCOLEPSY: Documentation of diagnostic testing and clinical notations supporting diagnosis of Narcolepsy, such as MSLT, clinical progress notes, etc. (Failure to adequately support the diagnosis of narcolepsy may result in denial of coverage), and the patient has failed an adequate trial of at least TWO of the following immediate release stimulants (all available generically): Dexedrine, Ritalin, or Adderall. FOR THE TREATMENT OF EXCESSIVE DAYTIME SLEEPINESS ASSOCIATED WITH OBSTRUCTIVE SLEEP APNEA: The prescribing physician is a sleep specialist, ear, nose and throat, neurologist or pulmonologist or has obtained a consult from a sleep specialist, and a Standard Diagnostic Nocturnal Polysomnography (NPSG) has confirmed the diagnosis of OSA, and the patient has received nasal continuous positive airway pressure (CPAP) or bilevel positive airway pressure (BIPAP) for at least 1 month, and CPAP or BIPAP therapy will be continued on a routine basis in combination with modafinil therapy, and the daytime fatigue is significantly impacting, impairing, or compromising the patient's ability to function normally, and the prescribing physician has established a patient care plan to treat the cause of OSA in conjunction with treating the daily fatigue
<b>Age Restrictions</b>	
<b>Prescriber Restrictions</b>	
<b>Coverage Duration</b>	3 years
<b>Other Criteria</b>	The plan also requires an unresponsive 2-week trial of 200mg per day dose before a 400mg per dose is authorized. (Doses up to 400mg/day given as a single dose have been well tolerated, but there is no consistent evidence that this dose confers additional benefit beyond that of the 200mg dose.)
<b>QL Criteria</b>	1 tablet Per 1 day

# SymLinPen 120

## Products Affected

- SYMLINPEN 120 SUBCUTANEOUS\*

PA Criteria	Criteria Details
<b>Covered Uses</b>	Type 1 and Type 2 diabetes
<b>Exclusion Criteria</b>	
<b>Required Medical Information</b>	FOR TYPE 1 DIABETES: Patient must be using both basal insulin and short-acting insulin, and require three or more insulin injections daily, or using an insulin pump. FOR TYPE 2 DIABETES: Patient is receiving maximum tolerated doses of metformin, unless the patient is not a candidate for metformin therapy, and is using both basal insulin and short-acting insulin, and requires three or more insulin injections daily or is using an insulin pump, and failure to achieve adequate glycemic control despite individualized insulin management, defined as an A1C level is greater than 7% and less than 9%, and marked day-to-day variability in glucose levels (based on review of self-monitoring blood glucose levels), and home blood glucose monitoring is carried out three or more times per day, and is currently receiving individualized medical nutrition therapy by a registered dietician (requiring total daily carbohydrate intake monitoring), and is currently receiving ongoing care under the guidance of a healthcare professional skilled in the use of insulin and supported by the services of diabetes educators.
<b>Age Restrictions</b>	
<b>Prescriber Restrictions</b>	
<b>Coverage Duration</b>	1 year
<b>Other Criteria</b>	Discontinuation Criteria includes recurrent unexplained hypoglycemia that requires medical assistance, persistent clinically significant nausea or associated abdominal pain, noncompliance with self-monitoring of blood glucose concentrations, noncompliance with insulin dose adjustments, or non compliance with scheduled health care professional contacts or recommended clinic visits
<b>QL Criteria</b>	4 pens Per 1 fill
