## **Tufts Health Unify** | 2016 *List of Covered Drugs* (Formulary)

This is a list of drugs that members can get in *Tufts Health Unify*.

- *Tufts Health Unify* is a health plan that contracts with both Medicare and MassHealth to provide benefits of both programs to enrollees.
- The *List of Covered Drugs* and/or pharmacy and provider networks may change throughout the year. We will send you a notice before we make a change that affects you.
- Benefits may change on January 1 of each year.
- You can always check *Tufts Health Unify's* up-to-date *List of Covered Drugs* online at TuftsHealthUnify.org or by calling **855-393-3154** (TTY: 888-391-5535).
- Limitations and restrictions may apply. For more information, call *Tufts Health Unify* member services or read the *Tufts Health Unify Member Handbook*.
- You can get this information for free in other formats, such as large print, braille, or audio. Call **855-393-3154**. The call is free.
- You can get this information in Spanish, or speak with someone about this information in other languages, for free. Call **855-393-3154**. The call is free. *Usted puede obtener este documento en español, o hablar con alguien acerca de esta información en otros idiomas, de forma gratuita. Llame al 855-393-3154. La llamada es gratuita.*

**If you have questions**, please call *Tufts Health Unify* at **855-393-3154**, seven days a week, from 8 a.m. to 8 p.m. The call is free. **For more information**, visit TuftsHealthUnify.org.

## Frequently Asked Questions (FAQ)

Find answers here to questions you have about this *List of Covered Drugs*. You can read all of the FAQ to learn more, or look for a question and answer.

---

### 1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “*Drug List*” for short.)

The drugs on the *List of Covered Drugs* that starts on page 3 are the drugs covered by *Tufts Health Unify*. The drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

*Tufts Health Unify* will cover all drugs on the *Drug List* if:

- Your doctor or other prescriber says you need them to get better or stay healthy,
- *Tufts Health Unify* agrees that the drug is medically necessary for you, **and**
- You fill the prescription at a *Tufts Health Unify* network pharmacy.

In some cases, you have to do something before you can get a drug (see question #6 below).

You can also see an up-to-date list of drugs that we cover on our website at [TuftsHealthUnify.org](http://TuftsHealthUnify.org) or call member services at **855-393-3154**.

---

### 2. Does the *Drug List* ever change?

Yes. *Tufts Health Unify* may add or remove drugs on the *Drug List* during the year. Generally, the *Drug List* will only change if:

- A new drug comes along that works as well as a drug on the *Drug List* now, **or**
- We learn that a drug is not safe.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior approval for a drug. (*Prior approval* is permission from *Tufts Health Unify* before you can get a drug.)
- Add or change the amount of a drug you can get (called “quantity limits”).
- Add or change step therapy restrictions on a drug. (*Step therapy* means you must try one drug before we will cover another drug.)

(For more information on these drug rules, see page iv.)

---

We will tell you when a drug you are taking is removed from the *Drug List*. We will also tell you when we change our rules for covering a drug. Questions 3, 4, and 8 below have more information on what happens when the *Drug List* changes.

- You can always check *Tufts Health Unify's* up-to-date *Drug List* online at [TuftsHealthUnify.org](https://TuftsHealthUnify.org).
- You can also call member services to check the current *Drug List* at **855-393-3154**.

---

### 3. What happens when a drug is removed from the *Drug List* or we change our rules for getting a drug?

If a cheaper drug becomes available that works as well as a drug on the *Drug List* now, the drug you receive may change because:

- **Your pharmacist may give you the cheaper drug the next time you fill your prescription.** If you and your doctor decide that the cheaper drug is not right for you, your doctor can tell the pharmacist to give you the drug you take now.
- ***Tufts Health Unify* may decide to take the older drug off of the *Drug List*.** If you are taking a drug that we decide to remove from the *Drug List* because a cheaper drug that works just as well comes along, we will tell you. We will tell you at least 60 days before we remove it from the *Drug List* **or** when you ask for a refill. Then you can get a 60-day supply of the drug before the change to the *Drug List* is made. We will notify you in writing.

We will tell you if you are taking a drug and we change our rules for covering it. For example, if you are taking a drug, and we add prior authorization (approval), quantity limits, and/or step therapy, we will tell you. We must tell you of this change at least 60 days before it becomes effective, or when you request a refill of the drug. If we tell you when you refill your drug, you will receive a 60-day supply of the drug. This means that if your prescription is for a 30-day supply, you will get two 30-day refills. If your prescription is for a 60-day or 90-day supply, you will get one 60-day refill.

For more information on these drug rules, see page iv.

---

### 4. What happens if we find out a drug is not safe?

If the Food and Drug Administration (FDA) says a drug you are taking is not safe, we will take it off the *Drug List* right away. We will also send you a letter and call you to tell you that the drug is not safe and that we have taken it off the drug list. Call your doctor or other prescriber to discuss alternative drugs and request a new prescription.

If you have questions, please call *Tufts Health Unify* at **855-393-3154**, seven days a week, from 8 a.m. to 8 p.m. The call is free. **For more information**, visit [TuftsHealthUnify.org](https://TuftsHealthUnify.org).

---

## 5. What is your copay?

You will not be charged a copay for drugs on the *Drug List*.

Drugs are listed by tiers:

- Tier 1 is all covered prescription generic drugs.
- Tier 2 is all covered prescription brand-name drugs.
- Tier 3 is all covered over-the-counter (OTC) drugs.

If you have questions, call member services at **855-393-3154**, seven days a week, from 8 a.m. to 8 p.m.

---

## 6. Are there any restrictions or limits on drug coverage? Or are there any required actions to take in order to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior approval (or prior authorization):** For some drugs, you or your doctor or other prescriber must get approval from *Tufts Health Unify* before you fill your prescription. If you don't get approval, *Tufts Health Unify* may not cover the drug.
- **Quantity limits:** Sometimes *Tufts Health Unify* limits the amount of a drug you can get.
- **Step therapy:** Sometimes *Tufts Health Unify* requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables beginning on page 3. You can also get more information by visiting our web site at [TuftsHealthUnify.org](http://TuftsHealthUnify.org). You may also ask us to send you a copy.

You can ask for an "exception" from these limits. Please see question 12 for more information on exceptions.

If you are in a nursing home or other long-term care facility and need a drug that is not on the *Drug List*, or if you cannot easily get the drug you need, we can help. We will cover a 31-day emergency supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new *Tufts Health Unify* member. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the *Drug List* you can take instead or whether to request an exception. Please see question 12 for more information about exceptions.

---

## 7. How will you know if the drug you want has limitations or if there are required actions to take to get the drug?

The *List of Covered Drugs* on page 3 has a column labeled “Necessary actions, restrictions, or limits on use.”

---

## 8. What happens if we change our rules on how we cover some of the drugs? For example, if we add prior authorization (approval), quantity limits, and/or step therapy restrictions on a drug.

We will tell you if we add prior approval, quantity limits, and/or step therapy restrictions on a drug. We will tell you at least 60 days before the restriction is added or when you next ask your pharmacy for a refill. Then, you can get a 60-day supply of the drug before the change to the *Drug List* is made. This gives you time to talk to your doctor or other prescriber about what to do next.

---

## 9. How can you find a drug on the *Drug List*?

There are two ways to find a drug:

- You can search alphabetically (if you know how to spell the drug), **or**
- You can search by medical condition.

To search **alphabetically**, you should look for your drug in the Index that begins on page 63. You can find it on the page number listed in the Index.

To search **by medical condition**, find the section labeled “List of drugs by medical condition” on page 3. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category “Cardiovascular Agents – Drugs to Treat High Blood Pressure, High Cholesterol, and other Heart Conditions.” That is where you will find drugs that treat heart conditions.

---

## 10. What if the drug you want to take is not on the *Drug List*?

If you don’t see your drug on the *Drug List*, call member services at **855-393-3154** and ask about it. If you learn that *Tufts Health Unify* will not cover the drug, you can do one of these things:

- Ask member services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. He or she can prescribe a drug on the *Drug List* that is like the one you want to take. **Or**

If you have questions, please call *Tufts Health Unify* at **855-393-3154**, seven days a week, from 8 a.m. to 8 p.m. The call is free. **For more information**, visit [TuftsHealthUnify.org](https://www.tuftshealthunify.org).

- You can ask the health plan to make an exception to cover your drug. Please see question 12 for more information about exceptions.

---

## **11. What if you are a new *Tufts Health Unify* member and can't find your drug on the *Drug List* or have a problem getting your drug?**

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of *Tufts Health Unify*. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the *Drug List* you can take instead or whether to request an exception.

We will cover a 30-day supply of your drug if:

- You are taking a drug that is not on our *Drug List*, **or**
- Health plan rules do not let you get the amount ordered by your prescriber, **or**
- The drug requires prior approval by *Tufts Health Unify*, **or**
- You are taking a drug that is part of a step therapy restriction.

If you live in a nursing home or other long-term care facility, you may refill your prescription for as long as 91 days. You may refill the drug multiple times during your first 91 days in the plan. This gives your prescriber time to change your drugs to ones on the *Drug List* or ask for an exception.

If you enter a long-term care facility after the first 90 days you are a member of *Tufts Health Unify*, we may cover up to a 31-day supply of your drug. We may also cover up to a 31-day supply of your drug if your level of care changes.

---

## **12. Can you ask for an exception to cover your drug?**

Yes. You can ask *Tufts Health Unify* to make an exception to cover a drug that is not on the *Drug List*.

You can also ask us to change the rules on your drug.

- For example, *Tufts Health Unify* may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior approval requirements.

---

### **13. How long does it take to get an exception?**

First, we must receive a statement from your prescriber supporting your request for an exception. After we receive the statement, we will give you a decision on your exception request within 72 hours.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of receiving your prescriber's supporting statement.

---

### **14. How can you ask for an exception?**

To ask for an exception, call member services. A member services representative will work with you and your provider to help you ask for an exception.

---

### **15. What are generic drugs?**

*Generic drugs* are made up of the same ingredients as brand-name drugs. They usually cost less than the brand-name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA).

*Tufts Health Unify* covers both brand-name drugs and generic drugs.

---

### **16. What are OTC drugs?**

OTC stands for "over-the-counter." *Tufts Health Unify* covers some OTC drugs when they are written as prescriptions by your provider.

You can read the *Tufts Health Unify Drug List* to see what OTC drugs are covered.

---

### **17. Does *Tufts Health Unify* cover OTC nondrug products?**

*Tufts Health Unify* covers some OTC nondrug products when they are written as prescriptions by your provider.

You can read the *Tufts Health Unify Drug List* to see what OTC nondrug products are covered.

**If you have questions**, please call *Tufts Health Unify* at **855-393-3154**, seven days a week, from 8 a.m. to 8 p.m. The call is free. **For more information**, visit [TuftsHealthUnify.org](https://TuftsHealthUnify.org).

---

## 18. Does *Tufts Health Unify* cover long-term supplies of prescriptions?

- **Mail-Order Programs.** We offer a mail-order program that allows you to get up to a 90-day supply of your prescription drugs sent directly to your home. A 90-day supply has the same copay as a one-month supply.
- **90-Day Retail Pharmacy Programs.** Some retail pharmacies may also offer up to a 90-day supply of covered prescription drugs. A 90-day supply has the same copay as a one-month supply.

---

## 19. Can I get prescriptions delivered to my home from my local pharmacy?

Your local pharmacy may be able to deliver your prescription to your home. You can call your pharmacy to find out if they offer home delivery.

---

## List of Covered Drugs

The *List of Covered Drugs* that begins on the next page gives you information about the drugs covered by *Tufts Health Unify*. If you have trouble finding your drug in the list, turn to the Index that begins on page 63.

The first column of the chart lists the name of the drug. Brand-name drugs are capitalized (e.g., PROAIR HFA) and generic drugs are listed in lower-case italics (e.g., *lisinopril*).

The information in the “Necessary actions, restrictions, or limits on use” column tells you if *Tufts Health Unify* has any rules for covering your drug.

**Note:** The (\*) next to a drug means the drug is not a “Part D drug.” These drugs have different rules for appeals. An *appeal* is a formal way of asking us to review a decision we made about your coverage and to change it if you think we made a mistake. For example, we might decide that a drug that you want is not covered or is no longer covered by Medicare or MassHealth. If you or your doctor disagrees with our decision, you can appeal. If you ever have a question, call member services at **855-393-3154**. You can also read the *Member Handbook* to learn how to appeal a decision.

Here are the meanings of the codes used in the “Necessary actions, restrictions, or limits on use” column:

\* = Not a Part D drug: This drug is covered by MassHealth.

LA = Limited access drugs: This prescription drug may be available only at certain pharmacies. For more information, you can call member services.

PA = Prior authorization (approval) required: You must have approval from *Tufts Health Unify* before you can get this drug.

QL = Quantity limit applies: There is a limit on the amount of drug you can get.

ST = Step therapy required: You must try another drug before you can get this one.

## List of Drugs by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category “Cardiovascular Agents – Drugs to Treat High Blood Pressure, High Cholesterol, and other Heart Conditions.” That is where you will find drugs that treat heart conditions.

If you have questions, please call *Tufts Health Unify* at **855-393-3154**, seven days a week, from 8 a.m. to 8 p.m. The call is free. For more information, visit [TuftsHealthUnify.org](https://www.TuftsHealthUnify.org).

# DISCRIMINATION IS AGAINST THE LAW

**Tufts Health Plan complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Tufts Health Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.**

## Tufts Health Plan:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
  - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages

If you need these services, contact Tufts Health Plan Member Services at 855.393.3154.

If you believe that Tufts Health Plan has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with:

### Tufts Health Plan

Attention: Civil Rights Coordinator, Legal Dept.  
705 Mount Auburn St.  
Watertown, MA 02472  
Phone: 888.880.8699 ext. 48000, [TTY number— 711 or 800.439.2370]  
Fax: 617.972.9048  
Email: [OCRCoordinator@tufts-health.com](mailto:OCRCoordinator@tufts-health.com)

You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, the Tufts Health Plan Civil Rights Coordinator is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

### U.S. Department of Health and Human Services

200 Independence Avenue, SW  
Room 509F, HHH Building  
Washington, D.C. 20201  
Phone: 800.368.1019, 800.537.7697 (TDD)

Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>.
