

Tufts Health Plan Senior Care Options 2017 Formulary (List of Covered Drugs)

PLEASE READ: This document contains information about the drugs we cover in this plan

This formulary was updated on November 1, 2017. For more recent information or other questions, please contact us at 1-855-670-5934 or, for TTY users, 1-855-670-5936, Monday - Friday 8:00 a.m. - 8:00 p.m. (from Oct. 1 - Feb. 14 representatives are available 7 days a week, 8:00 a.m. - 8:00 p.m.). After hours and on holidays, please leave a message and a representative will return your call on the next business day. Or visit thpmp.org/sco.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

TUFTS HEALTH PLAN SENIOR CARE OPTIONS

—

2017 Formulary (List of Covered Drugs)

When this drug list (formulary) refers to “we,” “us,” or “our,” it means Tufts Health Plan. When it refers to “plan” or “our plan,” it means Tufts Health Plan Senior Care Options.

This document includes a list of the drugs (formulary) for our plan which is current as of January 1, 2017. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2018, and from time to time during the year.

What is the Tufts Health Plan Senior Care Options Formulary?

A formulary is a list of covered drugs selected by Tufts Health Plan Senior Care Options in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Tufts Health Plan Senior Care Options will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Tufts Health Plan Senior Care Options network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary (drug list) change?

Generally, if you are taking a drug on our 2017 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2017 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of January 1, 2017. To get updated information about the drugs covered by Tufts Health Plan Senior Care Options, please contact us. Our contact information appears on the front and back cover pages. In the event of a mid-year non-maintenance formulary change, you will be notified via an errata sheet.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 3. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Agents”. If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 67. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Tufts Health Plan Senior Care Options covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Tufts Health Plan Senior Care Options requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Tufts Health Plan Senior Care Options before you fill your prescriptions. If you don't get approval, Tufts Health Plan Senior Care Options may not cover the drug.
- **Quantity Limits:** For certain drugs, Tufts Health Plan Senior Care Options limits the amount of the drug that Tufts Health Plan Senior Care Options will cover. For example, Tufts Health Plan Senior Care Options provides 30 tablets per prescription for *ROZEREM*. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, Tufts Health Plan Senior Care Options requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Tufts Health Plan Senior Care Options may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Tufts Health Plan Senior Care Options will then cover Drug B.
- **Non-extended Day Supply Drug:** For certain drugs, Tufts Health Plan Senior Care Options limits quantities up to a 30-day supply per fill.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 3. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. We have posted on line a document that explains our prior authorization restriction and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Tufts Health Plan Senior Care Options to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the Tufts Health Plan Senior Care Options formulary?” on page III for information about how to request an exception.

What are over-the counter (OTC) drugs?

OTC drugs are non-prescription drugs that are not normally covered by a Medicare Prescription Drug Plan.

Tufts Health Plan Senior Care Options pays for certain OTC drugs:

- Ascorbic acid (Vitamin C)*
- Chondroitin/MSM
- Cyanocobalamin (Vitamin B12)*
- Ergocalciferol (Vitamin D2)*
- Fluoritab*
- Folic Acid*
- Foltrate*
- Glucosamine/Chondroitin/MSM
- Glucosamine/MSM
- Mephyton*
- Methylsulfonylmethane (MSM)
- Nascobal*
- Omega 3/Fish Oil
- Phytonadione (Vitamin K)*

Tufts Health Plan Senior Care Options will provide these OTC drugs at no cost to you. The cost to Tufts Health Plan Senior Care Options of these OTC drugs will not count toward your total Part D drug costs (that is, the amount you pay does not count for the coverage gap).

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Relations and ask if your drug is covered.

If you learn that Tufts Health Plan Senior Care Options does not cover your drug, you have two options:

- You can ask Customer Relations for a list of similar drugs that are covered by Tufts Health Plan Senior Care Options. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Tufts Health Plan Senior Care Options.
- You can ask Tufts Health Plan Senior Care Options to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Tufts Health Plan Senior Care Options Formulary?

You can ask Tufts Health Plan Senior Care Options to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Tufts Health Plan Senior Care Options limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

*Some strengths of these drugs may require a prescription

Generally, Tufts Health Plan Senior Care Options will only approve your request for an exception if the alternative drugs included on the plan's formulary or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary or utilization restriction exception. **When you request a formulary or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request. Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement.** You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with up to a 98-day transition supply, consistent with dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

As a current member, if you are admitted to or discharged from a long term facility and experience an unplanned drug change, you can request that we approve a one-time, temporary fill of the non-covered medication to allow you time to discuss a transition plan with your physician. Your physician can also request an exception to coverage for the non-covered drug based on review for medical necessity following the standard exception process outlined previously. The temporary "first fill" will generally be up to a 31-day supply, but may be extended to allow you and your physician time to manage the complexities of multiple medications or when special circumstances warrant. You can request a temporary prescription fill by calling the Tufts Health Plan Senior Care Options Customer Relations department.

For more information

For more detailed information about your Tufts Health Plan Senior Care Options prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about Tufts Health Plan Senior Care Options, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

Tufts Health Plan Senior Care Options Formulary

The formulary that begins on page 3 provides coverage information about the drugs covered by Tufts Health Plan Senior Care Options. If you have trouble finding your drug in the list, turn to the Index that begins on page 67.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., PROAIR HFA) and generic drugs are listed in lower-case italics (e.g., *omeprazole*).

The information in the Requirements/Limits column tells you if Tufts Health Plan Senior Care Options has any special requirements for coverage of your drug.

B/D: Medicare Part B or D

These drugs require prior authorization to determine appropriate coverage under Medicare Part B or Part D.

QL: Quantity Limit Applies.

Because of potential safety and utilization concerns, Tufts Health Plan Senior Care Options has placed dispensing limitations on a small number of prescription drugs. This means that the pharmacy will only dispense a certain quantity of a drug within a given time period. These quantities are based on recognized standards of care, such as U.S. Food and Drug Administration recommendations for use. If your doctor believes you need a quantity greater than the program limitation, your doctor can submit a request for coverage under the Medical Review Process. The Medical Review Process allows you or your doctor to ask Tufts Health Plan Senior Care Options to make an exception to our coverage rules. See the section, “How do I request an exception to the Tufts Health Plan Senior Care Options formulary?” on page III for information about how to request an exception.

HI: Home Infusion Drug.

This prescription drug is covered under our medical benefit. For more information, call Customer Relations at 1-855-670-5934, Monday-Friday 8:00 a.m. – 8:00 p.m. (From Oct. 1 –Feb. 14 representatives are available 7 days a week, 8:00 a.m. - 8:00 p.m.). After hours and on holidays, please leave a message and a representative will return your call on the next business day. TTY users should call 1-855-670-5936.

LA: Limited Access Drug.

This prescription may be available only at certain pharmacies. For more information consult your Pharmacy Directory or call Customer Relations at 1-855-670-5934, Monday-Friday 8:00 a.m. – 8:00 p.m. (From Oct. 1 –Feb. 14 representatives are available 7 days a week, 8:00 a.m. - 8:00 p.m.). After hours and on holidays, please leave a message and a representative will return your call on the next business day. TTY users should call 1-855-670-5936.

PA: Prior Authorization Required.

The Prior Authorization process encourages rational prescribing of drug products with significant safety and/or financial concerns. A provider can submit a request for coverage based on a member's medical need for a particular drug. If approved, the member pays the designated tier co-payment. An appeal process exists for denied requests.

STPA: Step Therapy Prior Authorization Applies.

Step Therapy is an automated form of Prior Authorization, which uses claims history for approval of a drug at the point of sale. Step Therapy Programs help encourage the clinically proven use of first-line therapies and are designed to ensure the utilization of the most therapeutically appropriate and cost-effective agents first, before other treatments may be covered.

Members who are currently on drugs that meet the initial Step Therapy criteria will automatically be able to fill their prescriptions for a stepped medication. If the member does not meet the initial Step Therapy criteria, the prescription will deny at the point of sale with a message indicating that Prior Authorization (PA) is required. Physicians may submit Prior Authorization requests to Tufts Health Plan Senior Care Options for members who do not meet the Step Therapy criteria at the point of sale under the Medical Review process. The Medical Review Process allows you or your doctor to ask Tufts Health Plan Senior Care Options to make an exception to our coverage rules. See the section, "How do I request an exception to the Tufts Health Plan Senior Care Options formulary?" on page III for information about how to request an exception.

Transplant:

This drug is covered under Part B when used for a Medicare covered organ transplant.

Part B Drug:

No co-payment is required and the cost of the medication does not apply to your Part D benefit.

NDS: Non-extended Day Supply Drug

In an effort to contain drug costs, certain high-cost drugs will be limited up to a 30-day supply per fill.

SP: Available through a designated Special Pharmacy provider

You have the option to obtain this drug through a designated Specialty Pharmacy provider. These pharmacies specialize in supplying a select number of medications directly to our members. They also provide free delivery to your home, educational support 24/7 by phone, support of nurses and pharmacists, and will work closely with your doctor. Medications include, but are not limited to, drugs used in the treatment of multiple sclerosis, hepatitis C, rheumatoid arthritis, and cancers treated with oral medications.

Tufts Health Plan complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Tufts Health Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

Tufts Health Plan:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
 - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
 - Qualified interpreters
 - Information written in other languages

If you need these services, contact Tufts Health Plan at 1-855-670-5934 (TTY 1-855-670-5936).

If you believe that Tufts Health Plan has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with:

Tufts Health Plan, Attention:

Civil Rights Coordinator, Legal Dept.

705 Mount Auburn St. Watertown, MA 02472

Phone: 1-888-880-8699 ext. 48000, (TTY number—711 or 1-800-439-2370. Español: 866-930-9252)

Fax: 617-972-9048

Email: OCRCoordinator@tufts-health.com.

You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, the Tufts Health Plan Civil Rights Coordinator is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

U.S. Department of Health and Human Services

200 Independence Avenue, SW

Room 509F, HHH Building Washington, D.C. 20201

1-800-368-1019, 800-537-7697 (TDD)

Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>.
