

Blue Shield 65 Plus (HMO)

2018 Formulary

(List of Covered Drugs)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION
ABOUT THE DRUGS WE COVER IN THIS PLAN**

Formulary ID 00018324, Version 19

This formulary was updated on **10/23/2018**. For more recent information or other questions, please contact Blue Shield 65 Plus Member Services, at (800) 776-4466 or, for TTY users, 711, 8 a.m. to 8 p.m., seven days a week, from October 1st through February 14th, and 8 a.m. to 8 p.m., weekdays (8 a.m. to 5 p.m. Saturday and Sunday) from February 15th through September 30th, or visit blueshieldca.com/med_formulary.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us”, or “our,” it means Blue Shield of California. When it refers to “plan” or “our plan,” it means Blue Shield 65 Plus.

This document includes a list of the drugs (formulary) for our plan which is current as of **10/23/2018**. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2019 and from time to time during the year.

What is the Blue Shield 65 Plus Formulary?

A formulary is a list of covered drugs selected by Blue Shield 65 Plus in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Blue Shield 65 Plus will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Blue Shield 65 Plus network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the Formulary (drug list) change?

Generally, if you are taking a drug on our 2018 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2018 coverage year except when a new, less expensive generic drug becomes available or when new adverse information about the safety or effectiveness of a drug is released. Other types of formulary changes, such as removing a drug from our formulary, will not affect members who are currently taking the drug. It will remain available at the same cost-sharing for those members taking it for the remainder of the coverage year. We feel it is important that you have continued access for the remainder of the coverage year to the formulary drugs that were available when you chose our plan, except for cases in which you can save additional money or we can ensure your safety.

If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 60 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 60-day supply of the drug. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug. The enclosed formulary is current as of **10/23/2018**. To get updated information about the drugs covered by Blue Shield 65 Plus, please contact us. Our contact information appears on the front and back cover pages. If we make any other negative formulary changes during the year, you will receive 60 days notice via mail and the changes will be posted on our website at blueshieldca.com/med_formulary.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular Agents". If you know what your drug is used for, look for the category name in the list that begins on page number 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on **page 87**. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Blue Shield 65 Plus covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Blue Shield 65 Plus requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Blue Shield 65 Plus before you fill your prescriptions. If you don't get approval, Blue Shield 65 Plus may not cover the drug.
- **Quantity Limits:** For certain drugs, Blue Shield 65 Plus limits the amount of the drug that Blue Shield 65 Plus will cover. For example, Blue Shield 65 Plus provides 18 tablets per 30-day prescription for *sumatriptan* (generic for IMITREX). This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, Blue Shield 65 Plus requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Blue Shield 65 Plus may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Blue Shield 65 Plus will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. We have posted on line documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Blue Shield 65 Plus to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the Blue Shield 65 Plus' formulary?" on page iii for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that Blue Shield 65 Plus does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by Blue Shield 65 Plus. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Blue Shield 65 Plus.
- You can ask Blue Shield 65 Plus to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Blue Shield 65 Plus' Formulary?

You can ask Blue Shield 65 Plus to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Blue Shield 65 Plus limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, Blue Shield 65 Plus will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tiering or utilization restriction exception. **When you request a formulary, tiering or utilization restriction exception you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply (unless you have a prescription written for fewer days) when you go to a network pharmacy. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with up to a 98-day transition supply, consistent with dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan. If you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug (unless you have a prescription for fewer days) while you pursue a formulary exception.

Our transition policy applies to members who are stabilized on:

- Part D drugs not on the Blue Shield 65 Plus formulary, or
- Part D drugs previously covered by exception upon expiration of the exception, or
- Part D drugs on the Blue Shield 65 Plus formulary with a prior authorization, step therapy or a quantity limit requirement, or
- Part D drugs as listed above, where a distinction cannot be made at point of service whether it is a new or ongoing prescription drug

And are members in any of the following scenarios:

- new members following the annual coordinated election period,
- newly eligible members transitioning from other coverage at the beginning of a plan year,
- transitioning individuals who switch from one Blue Shield plan to another after the beginning of a plan year,
- members residing in long-term care (LTC) facilities, or
- in some cases, current members affected by formulary changes from one plan year to the next.

Members continuing coverage into a new plan year and experiencing negative formulary changes will have coverage continued for selected drugs in the new plan year, as determined by Blue Shield 65 Plus and in accordance with the Centers for Medicare and Medicaid Services (CMS) guidance for Part D drugs. Plan members on drugs that were not selected for automatic continued coverage; will be provided a transition process consistent with the transition process required for new members beginning in the new contract year. The transition policy will be extended across contract years if a member enrolls in a plan with an effective enrollment date of either November 1 or December 1 and needs access to a transition supply.

During the transitional stage, members may talk to their prescribers to decide whether they should switch to a different drug that we cover or request a formulary exception in order to get coverage for the drug, if it is not on our formulary or has restrictions such as step therapy or prior authorization. Members may contact Blue Shield 65 Plus Member Services for assistance in initiating a prior authorization or exception request. Prior authorization or exception request forms are available on our website at blueshieldca.com/med_formulary (select “prior authorization forms”), and are also provided upon request to members and prescribers, via mail, email or fax.

Per our transition policy in conjunction with network pharmacies, a temporary supply of non-formulary Part D drugs, or formulary drugs with coverage restrictions, will be provided in order to prevent interruptions in continuing therapy. This temporary supply also provides sufficient time for members to work with their prescribers to switch to a therapeutically equivalent formulary medication, or to complete a formulary exception request based on medical necessity. Requests for prior authorization of formulary drugs are reviewed against the CMS-approved coverage criteria and formulary exception requests are reviewed for medical necessity by Blue Shield pharmacy technicians, pharmacists and/or physicians. If a formulary exception request is denied, we will provide the prescriber a list of appropriate therapeutic alternatives. A letter will also be sent to you providing instructions on how to appeal the decision.

The transitional supply is a one-time, 30-day temporary supply (unless the prescription is written for fewer days in which case we will cover multiple fills to provide up to a total of 30 days of medication) of the non- formulary drug at a retail pharmacy during the first 90 days of new membership beginning on your effective date of coverage in Blue Shield 65 Plus. Refills may be provided for transition prescriptions dispensed for less than the written amount, due to a plan quantity limit edit for safety or drug utilization edits that are based on approved product labeling, and for up to a total of a 30-day supply. If you are

affected by a negative formulary change from one year to the next, we will provide up to a 30-day temporary supply of the non-formulary drug, if you need a refill for the drug during the first 90 days of the new plan year.

Retail and LTC pharmacies have the ability to provide a point-of-sale override for coverage of a transition supply of a drug that is non-formulary, requires prior authorization or step therapy; except for the following situations where the drug is subject to review for Part B vs. Part D determination, limits to prevent coverage of non-Part D drugs or limits that promote safe utilization of a Part D drug. We will cover a 30-day supply (unless the prescription is written for fewer days in which case we will cover multiple fills to provide up to a total of 30 days of medication). The cost-sharing for low-income subsidy (LIS) eligible members for a temporary supply of drugs provided under the transition process will not exceed the statutory maximum co-payment amounts for LIS eligible members. For all other members (non-LIS members), we will apply the same cost-sharing for non-formulary Part D drugs provided during the transition that would apply for non-formulary drugs approved through a formulary exception and the same cost-sharing for formulary drugs subject to utilization management edits provided during the transition that would apply once the utilization management criteria are met. Members will not be required to pay additional cost-sharing associated with multiple fills of lesser quantities of Part D drugs based upon quantity limits for safety once the originally prescribed doses of Part D drugs have been determined to be medically necessary after an exception process has been completed.

After we cover the temporary 30-day supply, we generally will not pay for these drugs as part of our transition policy again. We will send you a written notice within 3 business days of the transitional fill after we cover the temporary supply. This notice will contain an explanation of the temporary nature of the transition supply received, instructions for working with us and the prescriber to identify appropriate therapeutic alternatives that are on our formulary, an explanation of your right to request a formulary exception, and a description of the procedures for requesting a formulary exception. If a transition supply has been provided once and you are currently in the process of receiving a coverage determination, the transition supply may be extended by one additional 30-day prescription fill beyond the initial 30-day supply, unless you present with a prescription written for less than 30 days. The extension of the transition period is on a case-by-case basis, to the extent that the member's exception request or appeal has not been processed by the end of the minimum day transition period and until such time as a transition has been made (either through a switch to an appropriate formulary drug or a decision on an exception request).

If you are a resident of a long-term-care facility (like a nursing home), we will cover supplies of Part D drugs in increments of 14 days or less for a temporary 31-day transition supply unless the prescription is written for fewer days, in which case we will cover multiple fills to provide a 91 - to - 98 day supply during the first 90 days you are enrolled in our Plan, beginning on the your effective date of coverage. Please note that our transition policy applies only to those drugs that are "Part D drugs" and bought at a network pharmacy. The transition policy can't be used to buy a non-Part D drug or a drug out of network, unless you qualify for out-of-network access.

Blue Shield 65 Plus' Formulary

The formulary that begins on page 1 provides coverage information about the drugs covered by Blue Shield 65 Plus. If you have trouble finding your drug in the list, turn to the Index that begins on page 87.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., AUGMENTIN) and generic drugs are listed in lower-case italics (e.g., *amoxicillin*).

The information in the Requirements/Limits column tells you if Blue Shield 65 Plus has any special requirements for coverage of your drug.

Requirements/Limit Codes

Code	Definition
AG	This prescription drug has coverage limits based on age groups. The limits may be based upon how the U.S. Food and Drug Administration (FDA) approved the drug for use or special cautions for use by people in certain age groups. For new prescriptions, discuss alternatives with your physician. Your pharmacy or physician may call Blue Shield for assistance with coverage for ongoing use.
B/D	This prescription drug requires prior authorization review to determine whether coverage is under Part B or Part D of the Medicare benefit, based on Medicare coverage rules. Call Blue Shield to provide the necessary information to determine coverage.
LA	This prescription may be available only at certain pharmacies. For more information, consult your Pharmacy Directory or call our Member Services number at (800) 776-4466 [TTY 711], 8 a.m. to 8 p.m., seven days a week, from October 1 through February 14, and 8 a.m. to 8 p.m., weekdays, from February 15 through September 30.
QL	This medication has a dosing or prescription quantity limit. Maximum daily dose limits are defined by the FDA and listed in the drug package insert. Other quantity limits encourage consolidated dosing when possible.
PA	Coverage for this prescription requires prior authorization from Blue Shield. Call Blue Shield to provide the necessary information to determine coverage.
ST	Coverage for this prescription is provided when other first-line or preferred drug therapies have been tried (step therapy).
†	Medication is NOT available for long-term supply.
