## Blue Cross Blue Shield of Arizona’s Prescription Medication Formulary for Portfolio and SimpleHealth Plans

Effective 1/1/14

Your prescription medications fall into one of four categories or “tiers.” Each tier has a different out of pocket cost or coinsurance. Medications are categorized by tier based on their quality, value and effectiveness—not by their generic, brand-name or specialty drug label. So, for this benefit each tier may contain a combination of generic, brand-name and specialty drugs.

Co-Insurance Drug Benefit	Description
<b>Tier 1</b>	<b>Retail and Mail Order</b>
<b>Tier 2</b>	<b>Specialty</b>
<b>Tier 3</b>	<b>Certain generic preventive drugs will have a very low or no cost share</b>
<b>Tier 4</b>	<b>Check Medical Benefits*When covered these medications would apply under medical benefit</b>

Additional information about your pharmacy benefits can be found under Forms and Resources. This includes:

- Precertification Guidelines and Forms
- Step Therapy
- Mail Order Enrollment Forms
- Claim Forms

The prescription drug benefit information provided through the use of this Web document is subject to all terms, conditions, limitations and exclusions of your benefit plan, including, but not limited to non-covered services. Please consult your Summary of Benefits for a complete description of your prescription drug benefit and a listing of exclusions and limitations. In the event of a discrepancy between information provided on this Web document and your benefit plan booklet, the terms of the benefit plan booklet will take precedence.
