

Blue Shield
Standard Drug Formulary
December 2018

Introduction to the formulary drug list

The *Blue Shield Standard Drug Formulary* is a list of medications that are approved by the Food and Drug Administration (FDA) and are eligible for coverage under the Blue Shield outpatient prescription drug benefit.

How is the formulary drug list developed?

The formulary is developed, maintained and regularly updated by the Blue Shield Pharmacy and Therapeutics (P&T) Committee. Voting members of the P&T Committee are independent physicians and pharmacists in our network. They are expert consultants not employed by Blue Shield, and include specialists in various fields.

The placement of drugs on tiers is based on recommendations made by the P&T Committee after a review of the medical evidence and nationally recognized clinical guidelines for drug safety and effectiveness. Drug price is also considered by the P&T Committee when safety and effectiveness are similar for drugs in the same class.

What are drug tiers?

Drugs are placed into drug tiers based on defined categories. The amount you pay for drugs in different tiers will vary. You can find information about what you pay by drug tier in the Summary of Benefits of your Blue Shield *Evidence of Coverage* (EOC) or *Certificate of Insurance* (COI).

The column titled "Tier" identifies the cost level you pay for a drug.

Tier	Description
1	Most generic drugs and low-cost, preferred brand drugs
2	Non-preferred generic drugs, preferred brand drugs and any other drugs recommended by the P&T Committee based on drug safety, efficacy and cost
3	Non-preferred brand drugs, drugs recommended by the P&T Committee based on safety, efficacy and cost, or drugs that generally have a preferred and often less costly therapeutic alternative at a lower tier
4	Drugs that are biologics, drugs that the FDA or drug manufacturer requires to be distributed by specialty pharmacies, drugs that require training or clinical monitoring for self-administration, or drugs with a plan cost (net of rebates) greater than \$600 for a one-month supply

Note about multi-source brand (MSB) drugs: If you or your doctor choose a brand drug when a generic drug equivalent is available, you will pay the difference in cost, plus the Tier 1 copayment or coinsurance. You or your doctor can ask for an exception to the difference in cost through the Blue Shield prior authorization process. Please see the "What is the prior authorization/exception request process?" section for more information.

For additional information about specific plans, call the customer service number on your Blue Shield member ID card.

Note: Blue Shield drug formularies apply to outpatient prescription drug benefits available through plans underwritten by Blue Shield of California and Blue Shield of California Life & Health Insurance Company (individually and collectively referred to as Blue Shield throughout this document).

How to read the formulary drug list

Drugs are listed by drug class. A Table of Contents and an Index of Drugs are provided for quick and easy reference.

- Generic drugs are listed in lowercase letters.
- Brand drugs are listed in UPPERCASE letters.
- The column titled “Limits/Notes” identifies coverage restrictions or limits for drugs when applicable.

Limits/ Notes	Description	
AL	Age limit	Prior authorization may be required if your age does not fall within the FDA, manufacturer or treatment guideline recommendations.
GL	Gender limit	Prior authorization may be required if the FDA, manufacturer or treatment guidelines do not recommend the drug for a gender.
PA	Prior authorization	Prior authorization is required to determine coverage.
PH	Preventive drugs	Affordable Care Act (ACA) preventive health drugs, including contraceptive drugs and devices. These drugs are covered at \$0 when specific criteria are met.*
QL	Quantity limit	The prescription quantity covered is limited. Prior authorization is required for amounts greater than the limit.
RP	Retail pharmacy access	Available at a retail pharmacy.
ST	Step therapy	Coverage is based on use of other first-line therapies/drugs.

The formulary is current as of the date listed on the back cover. This formulary is subject to change on a monthly basis. For the most current information about the *Blue Shield Standard Drug Formulary*, visit blueshieldca.com/pharmacy.

What if a drug is not listed on the formulary?

Drugs that are not listed are non-formulary drugs. The non-formulary drugs that meet the Tier 4 description require a formulary exception based on medical necessity to be covered at the Tier 4 benefit level. All other drugs not listed require a formulary exception based on medical necessity for coverage at Tier 3.

To request coverage for a non-formulary drug, you, your representative or your doctor may submit an exception request to Blue Shield. Once we have all the needed supporting information, we will approve or deny the exception request, based upon medical necessity, within 72 hours or 24 hours in extreme circumstances.

You can find more information about specific prescription drug benefits and drug benefit exclusions in the Summary of Benefits of your Blue Shield EOC.

What is a brand drug?

A brand drug is a medication that the FDA has approved for sale and marketing in the United States. When a brand drug loses its patent protection, other manufacturers can make generic versions of that drug.

What is a generic drug?

A generic drug has the same active ingredient and dosage form (e.g., tablet or capsule) and works in exactly the same way as its brand counterpart. The FDA approves generic drugs when manufacturers have proven that the generic version is equally as safe and effective as the brand counterpart.

What are preventive health drugs?

Preventive health drugs are select drugs required by the Affordable Care Act to be covered at no charge to members.* Preventive health drugs are determined based on evidence-based recommendations by the United States Preventive Services Task Force. For more details about preventive health drugs, visit blueshieldca.com/pharmacy.

* Does not apply to grandfathered plans.

What is a contraceptive drug or device?

Contraceptives are drugs or devices (e.g., diaphragms or cervical caps) that help you prevent pregnancy.

All generic drug contraceptives and most contraceptive devices are covered at no charge to members.* Most brand drug contraceptives require a copayment, which may be waived based on medical necessity. Physicians or members may provide medical necessity information using the prior authorization process, by calling or faxing a form to Blue Shield Pharmacy Services (see the “What is the prior authorization/exception request process” section below).

What are specialty drugs?

Specialty drugs are drugs that may require coordination of care, close monitoring or extensive patient training for self-administration. These requirements generally cannot be met by a retail pharmacy. Specialty drugs may also require special handling or manufacturing processes (such as biotechnology), restriction to certain physicians or pharmacies, or reporting of certain clinical events to the FDA. Specialty drugs are usually expensive.

Specialty drugs may require prior authorization for medical necessity by Blue Shield. They are available exclusively from a Network Specialty Pharmacy. A Network Specialty Pharmacy can provide specialty drugs by mail or, upon your request, can transfer the specialty drug to an associated retail store for pickup if coverage is approved. Call the customer service number on your Blue Shield member ID card if you have questions about specialty drugs.

What is the prior authorization/exception request process?

Drug prior authorization involves getting advance approval of coverage for a prescription medication. Most medications covered by Blue Shield don't require prior authorization. However, some drugs require the patient's prescription and medical history to determine coverage for medical necessity.

The exception process involves getting a waiver to the rules for drug coverage. Types of exceptions include:

- Formulary exceptions, which allow coverage of a non-formulary (non-listed) drug based on medical necessity and the use of formulary alternative drugs first, if appropriate
- Waivers of coverage restrictions or limits on your drug, which allow for a greater coverage limit or a larger quantity on the prescription quantity dispensed due to medical necessity

To request a prior authorization or an exception to a coverage rule, please call the customer service number on your Blue Shield member ID card. To request coverage for a non-formulary drug, you, your representative or your doctor may submit an exception request to Blue Shield.

Once we receive all the needed supporting information, we will approve or deny the exception request, based upon medical necessity, within 72 hours or 24 hours in extreme circumstances. If Blue Shield denies a request for prior authorization or an exception request, the member, representative or the provider can file a grievance with Blue Shield, as described in the “Grievance Process” section of the EOC.

What is step therapy?

Step therapy is the practice of beginning drug therapy for a medical condition with drugs considered first-line treatment or that are more cost-effective and then progressing to drugs that are the next line in treatment or that may be less cost-effective. Step therapy requirements are based on how the FDA recommends that a drug should be used, nationally recognized treatment guidelines, medical studies, information from the drug manufacturer, and the relative cost of treatment for a condition. Other common terms used for step therapy are: “prerequisite therapy,” “prior therapy” or “step therapy protocol.” If a prescription does not meet step therapy coverage requirements and your doctor feels that the medication is medically necessary for you, your doctor may request an exception to the coverage requirements by contacting Blue Shield Pharmacy Services.

Participating retail pharmacies

You can fill prescriptions at any participating (network) pharmacy, unless it is a prescription for a specialty drug. Depending on your prescription drug plan, you may be limited to no more than a 30-day supply of your medication from participating retail pharmacies. Blue Shield contracts with a wide network of retail pharmacies. To find a network pharmacy, visit our website at blueshieldca.com/pharmacy.

* Does not apply to grandfathered plans.

Mail service pharmacy

Blue Shield offers an easy-to-use mail service prescription drug program through our contracted mail service pharmacy. You can save time and money using the mail service drug program. And, depending on your plan, it can be a convenient way to fill maintenance medications for up to a 90-day supply. Maintenance medications are drugs that doctors prescribe on an ongoing, regular basis to maintain health. For more information on using the mail service prescription benefit, go to blueshieldca.com/pharmacy, and then visit *Mail Service Prescriptions*.

An independent member of the Blue Shield Association STANDARD (12/2018)

Notice Informing Individuals about Nondiscrimination and Accessibility Requirements

Discrimination is against the law

Blue Shield of California complies with applicable federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability or sex. Blue Shield of California does not exclude people or treat them differently because of race, color, national origin, age, disability or sex.

Blue Shield of California:

- Provides aids and services at no cost to people with disabilities to communicate effectively with us such as:
 - Qualified sign language interpreters
 - Written information in other formats (including large print, audio, accessible electronic formats and other formats)
- Provides language services at no cost to people whose primary language is not English such as:
 - Qualified interpreters
 - Information written in other languages

If you need these services, contact the Blue Shield of California Civil Rights Coordinator.

If you believe that Blue Shield of California has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability or sex, you can file a grievance with:

Blue Shield of California
Civil Rights Coordinator
P.O. Box 629007
El Dorado Hills, CA 95762-9007

Phone: (844) 831-4133 (TTY: 711)

Fax: (916) 350-7405

Email: BlueShieldCivilRightsCoordinator@blueshieldca.com

You can file a grievance in person or by mail, fax or email. If you need help filing a grievance, our Civil Rights Coordinator is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

U.S. Department of Health and Human Services
