2014 Aetna Preferred Drug (formulary) Guide

Four Tier/Essential Drug List Individual: PA

www.aetna.com

Do you have questions?

Call the toll-free number on your member ID card. Or visit www.aetna.com/individuals-families/health-insurance-exchange.html for the most up-to-date information.

Dear Member:

To help you know how drugs are covered by your plan, we are pleased to provide you with a copy of our 2014 Aetna Preferred Drug (formulary) Guide.

This guide provides helpful information about your pharmacy benefits plan. You may want to take this guide with you when you see your doctor to talk about what is covered under your plan and what you can expect to pay for your medicine.

Many commonly prescribed drugs are listed in this guide. Please remember this is not a complete list of drugs covered under your plan. Because thousands of drugs are included in your pharmacy benefits plan, we only list the most commonly prescribed ones.

Want to learn more about the drug coverage for your plan? It's easy to find out. Just visit www.aetna.com and log in to Aetna Navigator®, your secure member website. Then take these steps:

1. Select "Aetna Pharmacy" from the top of the page.
2. In the "Coverage & Benefits" section, select "Pharmacy". Then, "View your pharmacy plan details."

What pharmacy benefits plan do I have?

You are enrolled in a Four Tier, Essential Drug List formulary plan.

Here's what that means to you:

Think of **tier** as a level. **Four tier** means you could pay four different amounts, depending on the drug you take.

A **formulary** is a list of generic and brand-name drugs that your health plan covers. Your **Essential Drug List formulary plan** covers many drugs – but it does not cover drugs on the **Formulary Exclusions List**. This is a list of drugs your plan does not cover because there are just-as-effective and less expensive alternatives available.

What can I expect to pay?

With this health benefits and health insurance plan, the amount you pay depends on the drug your doctor prescribes. It's either a flat fee or a percent of the prescription's price. Or, you will pay the **full cost** of any drugs on the **Formulary Exclusions List**.

What you pay falls into one of these tiers or levels:

Tier One: Preferred Generics – You pay **the lowest cost** for drugs in this level.

Tier Two: Preferred Brands – You pay a **slightly higher cost** for drugs in this level.

Tier Three: Non-Preferred Drugs – You pay **the highest cost** for drugs in this level.

Tier Four: Preferred Specialty Drugs – You pay a **specific amount** for specialty drugs in this level. Specialty drugs may be injected, infused or taken by mouth.

Formulary Exclusions List – You will pay the **full cost** of any drugs on this list.

To find your exact costs

Check your Plan Design and Benefits summary. This should be in your enrollment kit.

Your pharmacy benefits plan may include a program that encourages you to choose a generic drug over a brand-name drug, in order to help reduce what you pay. This means that if you fill a brand-name drug when a generic is available, that in addition to your standard copay or coinsurance, you must also pay the difference in cost between the brand-name and generic drug.

For a summary of your pharmacy benefits plan, including out-of-pocket costs, visit www.aetna.com and log in to Aetna Navigator. Or call the toll-free number on your member ID card.

Where can I find more formulary information?

You and your doctor can search for a drug, find out if it's covered and see what tier it falls under. You can also see if there are alternatives that cost less. **Make sure your doctor knows that you pay more for tier four drugs.** He or she can consider this before writing a prescription.

Take these steps:

1. Visit www.aetna.com/individuals-families/health-insurance-exchange.html. You arrive at a page that says "Medication Search."
2. Enter your plan type – **Four Tier, Essential Drug List formulary plan**. Then scroll down a bit and enter the name of a drug that you want to learn more about. Click "Continue."
3. You will come to a page where you can learn more about the types of drug coverage reviews your drug requires; things like precertification, step therapy or quantity limits. On this page, you can also choose to click the link on the top left side of the page that says "Other pharmacy benefit Information." You will arrive at a menu page where you can view various drug lists, including your Preferred Drug (formulary) Guide and more.

How is the formulary developed?

Aetna's Pharmacy and Therapeutics (P&T) Committee meets regularly to review new drugs and new information about drugs that are already on the market. It reviews available information concerning safety, effectiveness and current use in therapy. The P&T Committee reviews scientific evidence, including relevant findings of federal government agencies, pharmaceutical manufacturers, medical professional associations, national commissions and peer-reviewed journals.

Our P&T Committee includes licensed pharmacists and doctors, including those who are currently in practice and others who are Aetna employees. All committee members must tell us if they are in a situation that can create a conflict of interest or if they have a financial stake that might affect their decisions.

Once the P&T Committee completes its clinical review, we also consider overall value (including cost and manufacturer rebate arrangements) and other factors before adding or removing a drug from the formulary. The Aetna Preferred Drug (formulary) List shows you recent changes to the guide. For example, it could show what drugs started requiring coverage reviews like precertification, step therapy or quantity limits. Or which drugs no longer do. The P&T Committee can make recommendations to change the tier level of a drug or to place it on our Formulary Exclusions List, designating it as a drug that is no longer covered.

Why is the formulary subject to change?

We may add or remove drugs for certain reasons. We might also move a drug from one coverage tier to another.

Here are some reasons why:

- As brand-name drugs lose their patents and generic versions become available, the brand-name may be covered at a higher out-of-pocket cost while the generic may be covered at a lower out-of-pocket cost.
- The Food and Drug Administration (FDA) approves many new drugs throughout the year.
- Drugs can be withdrawn from the market or may become available without a prescription. Over-the-counter (OTC) drugs are not generally covered under a prescription plan, unless required by law.

Our website, www.aetna.com/individuals-families/health-insurance-exchange.html, reflects the most up-to-date formulary information – so please visit it often.

Why do some drugs require prior authorization or precertification?

This drug coverage review encourages appropriate and cost-effective use of prescription drugs by allowing coverage only when certain conditions are met.

Reasons for precertification include:

- Compliance with dosing guidelines
- Avoiding duplicate therapies
- Helping health care providers check that a drug is being used based on generally accepted medical criteria

The precertification program is based upon current medical findings, FDA-approved manufacturer labeling information, and cost and manufacturer rebate arrangements.

If your plan requires precertification, you will find a list of drugs that are subject to precertification with this guide. Please keep the following in mind:

- Your doctor must contact Aetna to request approval of coverage for these drugs.
- If we approve the request, we will notify your doctor. The drug will then be covered at the applicable out-of-pocket cost under your plan. You will also be notified of approvals where the state requires notification to members.

If the request is denied, you and your doctor will be notified. You can still purchase the drug, but for the full price.

Why do some drugs have quantity limits?

This drug coverage review limits coverage of quantities for certain drugs. These limits help your doctor and pharmacist check that your prescribed drug is used correctly and safely.

We use medical guidelines and FDA-approved recommendations from drug makers to set these coverage limits. The quantity limit program includes:

- **Dose Efficiency Edits** – Limit coverage of prescriptions to one dose per day for drugs that are approved for once-daily dosing.
- **Maximum Daily Dose** – A message is sent to the pharmacy if a prescription is less than the minimum or higher than the maximum allowed dose.
- **Quantity Limits Over Time** – Limit coverage of prescriptions to a specific number of units in a defined amount of time.

What is step therapy?

This drug coverage review promotes the appropriate use of equally effective but lower-cost drugs first. Prerequisite drugs are FDA-approved and treat the same condition as the corresponding step therapy drugs.

What is therapeutic duplication?

Therapeutic duplication means that two or more drugs of the same type are prescribed at the same time. This can occur when two doctors prescribe similar drugs or when your doctor switches from one drug to another drug in the same class without cancelling the first prescription.

It is rare that you should ever need two drugs from the same class to treat a medical condition. Since serious side effects may occur, we help bring such duplications to your pharmacist's and doctor's attention.

Learn more about drug coverage reviews

If you have a medical need for a drug that requires precertification, quantity limits or step therapy, your doctor can ask for a medical exception. The list of drugs requiring precertification, quantity limits or step therapy is subject to change. Find the most up-to-date information at www.aetna.com/individuals-families/health-insurance-exchange.html.

You may be able to save with generic drugs

Generic drugs are approved by the U.S. Food and Drug Administration (FDA) and proven to be just as safe and effective as brand-name drugs. They contain the same active ingredients in the same amounts as the brand-name products. The difference is that generics may be a different color, shape or size.

When appropriate, your doctor may decide to prescribe, or allow substitution with, a generic drug. Please talk to your doctor to find out if a generic is right for you.

Saving on prescriptions

Here are some other tips to pay less out of pocket for your prescription drugs:

- Ask your doctor to consider prescribing drugs that are on the Preferred Drug (formulary) List.
- Ask your doctor to consider prescribing generic drugs instead of brand-name drugs.
- Check to see if your plan includes our mail-order pharmacy service. Depending upon your plan, mail order may save you money. See Aetna Rx Home Delivery in this guide for details.
- Remind your doctor to check your plan to make sure you get maximum coverage.

What is Aetna Rx Home Delivery?

Check your plan documents to see if your plan includes our Aetna Rx Home Delivery mail-order pharmacy. It fills prescriptions for maintenance medicine. This type of medicine is used regularly, to treat conditions like arthritis, asthma, diabetes or high cholesterol. If you need this type of drug, you can get up to a 90-day supply, or the maximum supply allowed by your plan, and free delivery right to your mailbox.

You also get:

- Quick, confidential service
- Free standard shipping
- Pharmacists who check all prescriptions for accuracy and can answer questions any time

It's easy and fast to order – choose one of these ways:

- 1. Mail** – Get a new prescription from your doctor. Mail your new prescription to Aetna Rx Home Delivery with a completed order form. You can access the form online. Visit www.aetna.com and log in to Aetna Navigator, your secure member website. Or you can go right to www.aetnanavigator.com. Once logged in, click the link to "Aetna Pharmacy".
- 2. Fax** – Give your doctor the Aetna Rx Home Delivery fax number: 1-877-270-3317. Your doctor can fax in the prescription. Make sure your doctor includes your member ID number, your date of birth and your mailing address on the fax cover sheet. Only a doctor may fax a prescription.
- 3. Phone** – To help make it easy to get started, you can also choose to use our Aetna Rx Courtesy StartSM program. Call the toll-free number on your member ID card. Ask us to reach out to your doctor. We can request a new 90-day prescription on your behalf. Your doctor may need you to schedule a visit before he or she will write you a new prescription. After we reach out to your doctor, please allow time (up to 7 days) for us to receive a reply. To help this process move quickly, please alert your doctor to expect our call.

If your prescription is for a controlled medicine, a written prescription from your doctor may be needed.

Generally, if your order is complete, you will receive your medicine within 10-14 days from when Aetna Rx Home Delivery receives your order. You can request expedited delivery for an additional charge.

What is Aetna Specialty Pharmacy?

Aetna Specialty Pharmacy is Aetna's in-house specialty pharmacy. It can fill your prescription specialty medicine. These types of drugs may be injected, infused or taken by mouth. Specialty medicine often needs special storage and handling. It must be delivered quickly. And a nurse or pharmacist should monitor you during your treatment. Use Aetna Specialty Pharmacy to get this medicine sent right to your mailbox. You also get:

- Free delivery that is reliable, secure and sent anywhere you choose
- Extra help when you need it – like injection training and side effect monitoring
- Proactive outreach to confirm your refills
- Free standard supplies
- Nurses and pharmacists who can help you 24 hours a day, every day

It's easy and fast to order – choose one of these ways:

- **Fax** – Your doctor may fax your prescription to **1-866-FAX-ASRX (1-866-329-2779)**.
- **Mail** – You or your doctor may mail your prescription order to: Aetna Specialty Pharmacy, 503 Sunport Lane, Orlando, FL 32809. If you mail in your own prescription, please send it along with a completed Patient Profile Form. To access this form, visit **www.AetnaSpecialtyRx.com** and click “Specialty pharmacy: How to enroll.”
- **Phone** – Your doctor may also call and speak to one of our registered pharmacists at **1-866-782-ASRX (1-866-782-2779)** during normal business hours of 8 a.m. until 7 p.m. ET.

To transfer an existing prescription order to be filled by Aetna Specialty Pharmacy, call toll-free at **1-866-353-1892**.

The Essential Drug List is a new label to describe what we previously referred to as a closed formulary.

Please note that if your prescription drug benefits plan changes, the information herein may no longer apply.

A copayment is a flat fee. Coinsurance is a percentage of the rate that Aetna negotiates with the plan sponsor for covered prescriptions except as required by law to be otherwise. Some drugs on our formulary are subject to manufacturer rebates. Coinsurance is calculated before any rebates are subtracted. That means it may be possible for your cost of a preferred drug to be higher than your cost of a non-preferred drug.

Please be aware of how current health care reform guidelines may impact you. Certain religious organizations or religious employers may be exempt from offering contraceptive services, or otherwise qualify for an accommodation from offering such services. Nongrandfathered plans that became effective or renewed after August 1, 2012 and subject to the Affordable Care Act, also known as the health care reform law, must comply with requirements for Women's Preventive Health Services. To learn whether or not these requirements apply to your plan, consult your plan documents for more information.

Health benefits and health insurance plans are offered, administered and/or underwritten by Aetna Health Inc., Aetna Health Insurance Company of New York, Aetna Health Insurance Company and/or Aetna Life Insurance Company (Aetna). In Florida, by Aetna Health Inc. and/or Aetna Life Insurance Company. In Maryland, by Aetna Health Inc., 151 Farmington Avenue, Hartford, CT 06156. Each insurer has sole financial responsibility for its own products. Aetna Pharmacy Management refers to an internal business unit of Aetna Health Management, LLC. Aetna Specialty Pharmacy refers to Aetna Specialty Pharmacy, LLC, a subsidiary of Aetna Inc., which is a licensed pharmacy that operates through specialty pharmacy prescription fulfillment.

Not all health services are covered. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change.

Aetna receives rebates from drug manufacturers that may be taken into account in determining Aetna's formulary. Rebates do not reduce the amount a member pays the pharmacy for covered prescriptions. Information is subject to change. For more information about Aetna plans, refer to www.aetna.com.

Please be aware that there are edits to ensure safety and to comply with exclusions of coverage that are required for all commercial books of business in all states. Safety edits are a type of drug coverage review that applies to a limited list of drugs with the highest potential for abuse and harm to the member. Safety edits make sure that the prescribed medicine will be used within the guidelines set by the Food and Drug Administration and current medical findings. They are part of a commitment to quality pharmaceutical care. Safety edits are required, even when the plan sponsor elects an option to waive precertification. To learn more, please refer to your plan documents or call the toll-free number on your member ID card.

Commercial fully-insured members in Louisiana and Texas (except Federal Employee Health Benefit Plan members) who have coverage for medications that are added to or removed from the Preferred Drug List, Formulary Exclusion List, Aetna Specialty CareRx List, Split Fill Dispensing Provision, National Precertification List, Precertification Safety Edit List, Precertification List, Step therapy List or Quantity Limit List, or have Quantity Limits modified, during the plan year will continue to have those medications covered at the same benefit level under their plan prior to the addition, removal or change, until their plan's renewal date.

The term precertification means the utilization review process to determine whether the requested service, procedure, prescription drug or medical device meets the company's clinical criteria for coverage. It does not mean precertification as defined by Texas law, as a reliable representation of payment of care or services to fully insured HMO and PPO members.

In accordance with state law, fully-insured Commercial California HMO members (except Federal Employee Health Benefit Plan members) who are receiving coverage for medications that are added to the Precertification or Step therapy Lists will continue to have those medications covered, for as long as the treating physician continues prescribing them, provided that the drug is appropriately prescribed and is considered safe and effective for treating the enrollee's medical condition. In accordance with state law, fully-insured Commercial Connecticut PPO members (except Federal Employee Health Benefit Plan members) who are receiving coverage for medications that are added to the Precertification or Step therapy Lists will continue to have those medications covered, for as long as the treating physician continues prescribing them, provided that the drug is appropriately prescribed and is considered safe and effective for treating the enrollee's medical condition. In accordance with state law, fully-insured Commercial Connecticut PPO members (except Federal Employee Health Benefit Plan members) who are receiving coverage for medications that are added to the Precertification or Step therapy Lists will continue to have those medications covered for as long as the treating physician prescribes them, provided the drug is medically necessary and more medically beneficial than other covered drugs. Nothing in this section shall preclude the prescribing provider from prescribing another drug covered by the plan that is medically appropriate for the enrollee, nor shall anything in this section be construed to prohibit generic drug substitutions.

Some programs, such as precertification, quantity limits and step therapy are not available in all service areas and are subject to change. For example, precertification and step therapy programs do not apply to fully-insured Commercial members in Indiana. Step therapy does not apply to fully-insured Commercial members in New Jersey. However, these programs are available to self-insured plans and Federal Employee Health Benefit Plans in accordance with plan documents. To learn more, your Aetna patients can refer to their plan documents or call the toll-free number on their member ID cards.

This material is for information only. It contains only a partial, general description of plan benefits or programs and does not constitute a contract. Your Aetna patients should see their plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change. Providers are independent contractors and are not agents of Aetna. Provider participation may change without notice. Aetna does not provide care or guarantee access to health services. Information is subject to change. For more information about Aetna plans, refer to www.aetna.com.
