

2022 Formulary List of Covered Drugs

Samaritan Choice Plans

Note to existing members: This formulary may have changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us,” or “our,” it means Samaritan Choice. When it refers to “plan” or “our plan,” it means Samaritan Choice. You must generally use network pharmacies to use your prescription drug benefit.

If you have any questions, please call Customer Service at **541-768-4550**, toll free **800-832-4580** (TTY 800-735-2900), Monday through Friday, from 8 a.m. to 8 p.m.

This document includes a list of the drugs (formulary) for our plan which is current as of 12/1/2022.

Important information about your plan

This document provides highlights of your pharmacy benefits.

To find out how a drug is covered under your plan, you can view the entire formulary and pharmacy information available online at **choice.samhealthplans.org** or call our Customer Service Department.

A list of participating network pharmacies is also online at **choice.samhealthplans.org**.

Using your prescription drug benefit

Your prescription drug benefit requires that you fill your prescription at a network or participating pharmacy. Always present your current member identification card at a network or participating pharmacy. You may purchase up to a 90-day supply of certain maintenance drugs at either a retail pharmacy or a mail order pharmacy.

Using your prescription drug formulary

The formulary or drug list is a list of brand and generic prescription medications approved by the Food and Drug Administration (FDA). The drug list is developed by physicians and pharmacists through a Pharmacy and Therapeutics Committee. It is designed to offer drug treatment options for covered medical conditions.

The formulary can help you and your provider find covered options that are safe and effective and less costly to help minimize your out of pocket expense.

Some prescription drugs require a prior authorization or approval to determine the medical necessity of that specific drug and to determine whether the drugs we have on formulary will work just as well as the medication you and your provider are requesting.

Prescriptions by mail

You are able to order your maintenance medications using a participating or network mail order pharmacy. Our online pharmacy directory can help you find a mail order pharmacy in our network. A list of participating network pharmacies is online at **choice.samhealthplans.org**. If you have any questions, please call Customer Service at the number on the cover page of the document.

This document includes a list of the drugs (formulary) for our plan which is current as of 12/1/2022.

Out of network or non-participating pharmacies

Sometimes due to certain emergencies or reasons, you may need to use a pharmacy that is not in our network. If this happens, you will need to pay the full price of the medication at the time of purchase.

You can apply for reimbursement using our reimbursement forms available on our website **choice.samhealthplans.org**. Approval of reimbursement requests is always subject to your plan's limitations and exclusions. Members will be reimbursed based on the plan's in-network contracted rate for prescription drugs minus member co-pay or co-insurance.

What is a formulary (drug list)?

A formulary is a list of covered drugs selected by our plan, in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Our plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your member materials.

Can the formulary (drug list) change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the drug list during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the plan rules in making these changes.

- **New generic drugs.** We may immediately remove a brand name drug on our drug list if we are replacing it with a new generic drug that will appear on the same or lower cost sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand name drug on our drug list, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand name drug, we may not notify you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.
 - If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. You can find information in the section below entitled “How do I request an exception to the formulary?”

How do I use the formulary (drug list)?

There are two ways to find your drug within the formulary:

Medical condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. If you know what your

drug is used for, look for the category name in the list that begins on page 1. Then, look under the category name for your drug.

Alphabetical listing

If you are not sure what category to look under, you should look for your drug in the index at the end of the formulary. The index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the index. Look in the index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the index and find the name of your drug in the first column of the list.

What are brand-name drugs?

Brand-name drugs are medications approved by the FDA and protected by a drug patent, which prevents other manufactures from making that specific medication for a number of years. It is only the pharmaceutical company that holds that patent that has the exclusive rights to make and sell that drug.

What are generic drugs?

A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. It is tested by the FDA to be as safe and effective as brand-name drugs. Generally, generic drugs cost less than brand name drugs.

What are maintenance drugs?

Maintenance drugs are drugs that are usually prescribed to treat conditions that are considered long-term or chronic. Examples of such conditions are diabetes and high blood pressure.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior authorization:** Our plan requires you (or your provider) to get prior authorization for certain drugs. This means that you will need to get approval from our plan before you fill your prescriptions. If you don't get approval, we may not cover the drug.
- **Quantity limits:** For certain drugs, our plan limits the amount of the drug that we will cover during a specific time-frame such as daily or monthly.
- **Step therapy:** In some cases, our plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if drug A and drug B both treat your medical condition, we may not cover drug B unless you try drug A first. If drug A does not work for you, we will then cover drug B.

- **Morphine milligram equivalent (MME):** This shows the amount of morphine in milligrams that is equivalent to the strength of the specific opioid medicine your provider has prescribed.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front cover page.

Your prescriber can ask us to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the formulary?” for information about how to request an exception.

What if my drug is not on the formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Service and ask if your drug is covered.

If our plan does not cover your drug, you have two options:

- Your prescriber can ask Customer Service for a list of similar drugs that are covered by our plan. When you receive the list, show it to your provider and ask him or her to prescribe a similar drug that is covered by our plan.
- Your prescriber can ask us to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the formulary?

Your prescriber can ask us to make an exception to our coverage rules by faxing a request to **844-611-3831**. There are several types of exceptions that they can ask us to make.

- They can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- They can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved, this would lower the amount you must pay for your drug.
- They can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, our plan limits the amount of the drug that we will cover. If your drug has a quantity limit, they can ask us to waive the limit and cover a greater amount.

Generally, we will only approve the request for an exception if the alternative drugs included on the plan’s formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

Samaritan Choice 2022 Formulary

We will make a coverage determination within 72 hours of receipt for standard requests and within 24 hours of receipt for expedited requests. Your provider can request an expedited (fast) exception if you or your provider believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If requested, we must give you a decision no later than 24 hours after receipt of request.

For more information

For more detailed information about your prescription drug coverage, please review your member materials.

If you have questions about our plan, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front cover page.

Formulary

The formulary below provides coverage information about the drugs covered by our plan. If you have trouble finding your drug in the list, turn to the index.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., AMOXIL) and generic drugs are lower-case (e.g. amoxicillin).

The information in the “Notes” column tells you if our plan has any special requirements for coverage of your drug.

List of abbreviations

EA: Each.

PA: Prior authorization. Our plan requires you (or your provider) to get prior authorization for certain drugs. This means that you will need to get approval from our plan before you fill your prescriptions. If you don't get approval, we may not cover the drug.

QL: Quantity limit. For certain drugs, our plan limits the amount of the drug that we will cover. This may be in addition to a standard one-month or three-month supply.

ST: Step therapy. In some cases, our plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if drug A and drug B both treat your medical condition, we may not cover drug B unless you try drug A first. If drug A does not work for you, we will then cover drug B.

Opioid limits:

All opioid: Maximum of two fills in a 60-day period.

Opioid anti-tussive limits:

- Liquids:
 - Maximum of 240ML per fill.
- Tablets/capsules:
 - Maximum seven-day supply per fill.

Short-acting opioid limits:

- New to therapy:
 - Maximum of 49 MED.
 - Maximum seven-day supply per fill.
- Experience with therapy:
 - Maximum of 90 MED.

Long-acting opioid limits:

- PA required.
- Maximum of 90 MED.
