

Select Drug List

Summary of Formulary Benefits

The information in this document is designed to help you understand the prescription drug benefits offered under this plan and to compare these benefits to those offered by other plans. Information contained in this summary is designed to help you compare both the value and scope of formulary benefits.

How to Find Information on the Cost of Prescription Drugs

Your prescription benefit plan comes with a formulary, which is also called a drug list. This list is made up of BRAND-name and generic prescription drugs approved by the U.S. Food & Drug Administration (FDA) that your plan covers. BRAND-name drugs are usually available from only one manufacturer. They may be protected by a patent, which means they can only be made or sold by the company that has that patent. Generic drugs have the same active ingredients as BRAND-name drugs but are typically available only after the patent on the equivalent BRAND-name drug ends. Generic drugs may look different, but they work the same as their BRAND-name equivalents. You may be required to use generic medications when available.

The drug list is set up in tiers, or levels. We place drugs on different tiers based on how well they work to improve health, whether there are over-the-counter (OTC) options, and their costs compared to other drugs used for the same type of treatment. Your share of a drug's cost will depend on that drug's tier — the lower the tier, the lower your share of the cost.

Please refer to the Select Drug List below to locate the Tier (1, 2, 3 or 4) of your prescription drug.

Drugs are listed in alphabetical order based on the name of their drug class, also known as their therapeutic class. You can search the PDF drug list by:

- Drug name, using Ctrl + F on your keyboard for Windows, and Cmd + F on a Mac, and then typing the name of the drug you're looking for.
- Drug class, using the alphabetically listed categories.

Your share of the cost for a prescription drug can be found in the SBC; see the drug coverage section for coverage tiers. Cost sharing for prescription drugs includes copayments or coinsurance, and a deductible may apply for some prescription drug tiers. A deductible is a specified dollar amount you pay out of pocket for covered services, including prescription drugs, before Wellpoint starts to pay. A copayment is the fixed dollar amount you pay for prescription drugs covered under the plan at a retail or home delivery pharmacy. Coinsurance is the percentage of the prescription drug cost that you pay. The cost of the prescription drug, excluding the deductible, is calculated using an estimate of the full price of the drug and is based on the plan's median or the actual cost allowed amount at a given point in time. The out-of-pocket maximum for covered services is the sum of the deductible, copayment and coinsurance paid in a benefit period. Once you meet your out-of-pocket maximum, Wellpoint will cover 100% of the maximum allowed amount for covered services, including prescription drugs, for the rest of that benefit period.

The drug list is a complete list of covered drugs, but it is possible that certain drugs on this list may not be covered by your specific plan. Your coverage has limitations and exclusions, which means that certain conditions determine what is and is not covered by your plan. To find out more, read your Evidence of Coverage which you received when you signed up for your plan.

To find out if your drug is covered, and how much it will cost at a pharmacy near you, you may also log into [wellpoint.com](https://www.wellpoint.com) or use the SydneySM Health app to use the [price a medication](#) tool and refer to your plan documents. You can also obtain this information, including whether a specific drug is on your drug list, by calling the number on the back of your member ID card.

This booklet is updated on a quarterly basis. To view the most up-to-date list of drugs for your plan — including drugs that

have been added, generic drugs and more — log in at wellpoint.com/pharmacyinformation.

Formulary by Health Benefit Plan

Use this table to find the Drug List for your Specific Plan. You can find the name of your plan in your plan documents.

| Plan (Select plan names) | SBC Document (Summary of Benefits & Coverage) |

Drugs by Cost-Sharing Tier

The table below shows what percentage of total covered drugs are in each Drug Tier.

Tiers are the different cost levels you pay for a medication.

| Drug Tier | % of drugs |
|----------------------------|------------|
| \$0 Cost Share Preventive* | 8.9% |
| Tier 1 | 28.2% |
| Tier 2 | 12.6% |
| Tier 3 | 45.4% |
| Tier 4 | 4.8% |

*All Plans cover applicable preventive care drugs with \$0 cost share when required by the Affordable Care Act or state law.

How Prescription Drugs are Covered under the Plan

A. Formulary Composition

The drugs on the drug list are reviewed and chosen through our Pharmacy and Therapeutics (P&T) process. In this process, a group of independent doctors, pharmacists, and other healthcare professionals decides which drugs to include on our drug list. This group meets regularly to look at new and existing drugs, and recommends drugs based on their safety, how well they work to improve health, and the value they offer our members.

This drug list is a closed drug list. A closed drug list means some drugs are excluded and not covered.

Drugs on our list are reviewed on a quarterly basis. During those reviews, drugs may be added, removed, or moved to different tiers consistent with applicable law. We'll let you know if a drug you take is taken off the list or moved to a higher tier.

You can always check the drug list to make sure your medicines are still on it. You'll find the most up-to-date drug list when you log in at wellpoint.com.

Here are some options if you take a drug that isn't on the list.

- If you want to take a drug that's not on the drug list, you may have to pay full cost for that drug.
- You can speak with your prescriber or pharmacist to see if other drugs covered by your plan will work just as well, or if generic or OTC drugs are an option. Only you and your prescriber can decide what drugs are right for you.
- You can search for generic drugs at wellpoint.com. OTC drugs aren't shown on the drug list.
- If you are taking a non-covered drug, your prescriber can ask us to review the coverage. This process is called preapproval or prior authorization. Your prescriber can start the process by calling the Member Services number on the back of your member ID card, or by downloading a prior authorization form from our website and submitting it. If your request is approved, the amount you pay for the drug will depend on your plan's benefit.
- If you are taking a contraceptive that is medically necessary but not in the drug list, your prescriber can contact us, and we will waive your cost share.

B. Right to Appeal

If a drug is not covered under the drug list, but your physician has determined that the drug is medically necessary, you or your authorized representative have the right to appeal. Should an appeal of drug coverage be approved, your cost share will follow your benefit plan's cost share. To find the drug cost at a pharmacy near you, log into wellpoint.com or use the WellpointSM Health app to use the [price a medication](#) tool and refer to your plan documents.

C. Continuation of Coverage

If a drug you are taking is removed from the drug list or moved to a higher tier, your cost share will remain the same until the beginning of your next plan year, the plan's renewal date.

D. Off-Label Drug Use

Your plan pays for drugs that are included in the drug list, when prescribed by your provider for an approved use, subject to any amounts you may owe (see Cost Sharing section below). Sometimes, a prescriber might prescribe a drug that appears on the drug list, but for a different use than what the FDA has approved.

Off-label drug use is when an FDA approved drug is prescribed for a reason that has not been approved by the FDA. Off-label drug use may be covered in the following situation:

- a. Drug is approved by the FDA for at least one indication, and
- b. Drug is recognized for the unlabeled indication for which the drug is prescribed in:
 - i. The substantially accepted peer reviewed medical literature, and
 - ii. The condition being treated is covered under your plan's benefits.
- c. The use of the drug is considered medical necessary for your condition.
- d. The drug is being used to treat chronic, disabling, or life-threatening illnesses.

B. Cost Sharing

Cost Sharing refers to your out-of-pocket expense for the drugs you take. There are different types of cost sharing depending on your plan, including copayments and/or coinsurance, each subject to a deductible. Your cost share details are listed on your Summary of Benefits and Coverage for each of the tiers within your plan's drug list. A deductible is the amount of money that you and anyone covered by your plan must pay out-of-pocket each plan year for covered drugs before your plan starts to pay for them. Your cost share may be a copayment (an amount you pay out-of-pocket for your prescription medicines after you've met any deductible) or coinsurance (a percentage of the total cost that you pay for your medicines, after you've met any deductible). Your cost share counts toward your deductible; each time you make a copayment or pay a coinsurance amount, this reduces the amount of your outstanding deductible. A certain set of drugs may be covered without cost-sharing, even before meeting the deductible. The out-of-pocket cost share for your covered prescriptions applies to your deductible until your deductible is met.

Several factors affect the amounts of cost-sharing, including drug tiers, network status, preferred/nonpreferred drugs, and whether you shop at a retail pharmacy or use the mail-order pharmacy option.

The drug list has multiple tiers, and each tier has different cost-sharing levels. Your cost share for a medicine is based on the tier in which the medicine is assigned within the drug list. Below is information about how drugs are categorized in each of the different tiers in the drug list. In addition, network discounts are applied to medicines dispensed at a network pharmacy but are not available for medicines dispensed at a non-network pharmacy. You also may be able to save time and money using the home delivery pharmacy option if you take maintenance medicine for a condition like high blood pressure, asthma or diabetes, and take your drugs for long periods of time. With home delivery pharmacy, you may get up to a three-month supply of medicines delivered to your home and, in some cases, you may pay a lower cost share.

- **\$0 Cost Share Preventive** drugs are covered in compliance with the Affordable Care Act (ACA). For some members, certain prescribed drugs may be covered at 100% with \$0 cost share if specified criteria are met. These drugs are indicated with a \$0 icon in the notes section.
- **Tier 1** drugs have the lowest cost share. These are usually generic drugs that offer the best value compared to other drugs that treat the same conditions.
- **Tier 2** drugs have a higher cost share than Tier 1. They may be preferred BRAND drugs, based on how well they work, and their cost compared to other drugs used for the same type of treatment. Some are generic drugs that may cost more because they're newer to the market.
- **Tier 3** drugs have a higher cost share. They often include non-preferred BRAND and generic drugs that may cost more than lower-tier drugs used to treat the same condition. Tier 3 may also include drugs that were recently approved by the FDA, or specialty drugs that are used to treat serious, long-term health conditions and may need special handling.
- **Tier 4** drugs have a higher cost share and usually include specialty BRAND and generic drugs. They may cost more than lower-tier drugs used to treat the same condition. Tier 4 may also include drugs recently approved by the FDA, or specialty drugs that may need special handling.

C. Medical Management Requirements

Certain drugs on your drug list have additional requirements before they can be covered. Examples include prior authorization, step therapy, and quantity limits. The purpose of these requirements is to ensure that the drugs you are taking are safe, effective, and will improve your health. Check your plan documents for more information.

- **Prior authorization-** The process of getting benefits approved before certain Prescriptions can be filled. Your provider must obtain prior authorization for certain drugs in order for your drug to be covered. For example, this may include age limits when a drug does not meet manufacturer, FDA, or clinical recommendations.
- **Quantity Limits-** This means there are limits on the amount of medicine covered within a certain amount of time. These limits are based on Food and Drug Administration (FDA) recommendations to ensure drugs are being used safely and to avoid misuse. Dose Optimization (DO) is a type of quantity limit which promotes taking the higher strength of a drug fewer times per day.
- **Step therapy-** requires one or more drugs to be used prior to use of another drug when clinically similar results may be anticipated for your safety and to keep drugs affordable.
- **Specialty:** Specialty drugs are used to treat difficult, long-term conditions. We may require you or your doctor to order certain Specialty Drugs from a designated specialty pharmacy.

Please refer to the key terms section of this document to identify which drugs are subject to these requirements.

Key terms

Here are some terms and notes you'll find on the drug list:

BRAND-name drugs are in UPPER CASE. Generic drugs are in lower-case, plain type.

\$0 = preventive drugs. For some members, certain prescribed drugs may be covered at 100% with \$0 cost share if specified criteria are met.

AL = age limits. Some drugs require a prior authorization if your age does not meet drug manufacturer, FDA, or clinical recommendations.

BE = benefit exclusion. This drug may not be covered, depending on your plan's design. To find out if your drug is covered, log into your member portal or use the SydneySM Health app to use the [Price a Medication](#) tool and refer to your plan documents.

DO = dose optimization. This normally means you may have to switch from taking a drug twice a day to taking it once a day at a higher strength.

LD = limited distribution. These drugs are available only through certain pharmacies or wholesalers, as chosen by the manufacturer.

PA = prior authorization. You may need to get benefits approved before certain prescriptions can be filled.

QL = quantity limits. This means there are limits on the amount of drugs covered within a certain amount of time.

SP = specialty drugs. Specialty drugs are used to treat difficult, long-term conditions. You may need to get these drugs through a specialty pharmacy.

ST = step therapy. You may need to try a recommended drug before a specific prescribed drug is covered.

Four Tier

CURRENT AS OF 3/1/2025

| Drug Name | Tier | Notes |
|---|--------|--------|
| *ADHD/ANTI-NARCOLEPSY/ANTI-OBESITY/ANOREXIANTS* | | |
| *ADHD AGENT - SELECTIVE ALPHA ADRENERGIC AGONISTS*** | | |
| clonidine hcl er oral tablet extended release 12 hour | Tier 1 | PA |
| guanfacine hcl er oral tablet extended release 24 hour | Tier 1 | PA |
| *ADHD AGENT - SELECTIVE NOREPINEPHRINE REUPTAKE INHIBITOR*** | | |
| atomoxetine hcl oral capsule | Tier 2 | PA |
| *AMPHETAMINE MIXTURES*** | | |
| amphetamine-dextroamphet er oral capsule extended release 24 hour 10 mg, 15 mg, 5 mg | Tier 1 | PA; DO |
| amphetamine-dextroamphet er oral capsule extended release 24 hour 20 mg, 25 mg, 30 mg | Tier 1 | PA; QL |
| amphetamine-dextroamphetamine oral tablet 10 mg, 12.5 mg, 15 mg, 5 mg, 7.5 mg | Tier 1 | PA; DO |
| amphetamine-dextroamphetamine oral tablet 20 mg, 30 mg | Tier 1 | PA; QL |
| *AMPHETAMINES*** | | |
| amphetamine sulfate oral tablet 10 mg | Tier 2 | QL |

| Drug Name | Tier | Notes |
|---|--------|--------|
| amphetamine sulfate oral tablet 5 mg | Tier 2 | DO |
| dextroamphetamine sulfate er oral capsule extended release 24 hour 10 mg, 15 mg | Tier 1 | PA; QL |
| dextroamphetamine sulfate er oral capsule extended release 24 hour 5 mg | Tier 1 | PA; DO |
| dextroamphetamine sulfate oral solution | Tier 2 | PA; QL |
| dextroamphetamine sulfate oral tablet 10 mg, 15 mg, 20 mg, 30 mg, 7.5 mg | Tier 1 | PA; QL |
| dextroamphetamine sulfate oral tablet 2.5 mg, 5 mg | Tier 1 | PA; DO |
| lisdexamfetamine dimesylate oral capsule 10 mg, 20 mg, 30 mg | Tier 2 | PA; DO |
| lisdexamfetamine dimesylate oral capsule 40 mg, 50 mg, 60 mg, 70 mg | Tier 2 | PA; QL |
| lisdexamfetamine dimesylate oral tablet chewable 10 mg, 20 mg, 30 mg | Tier 2 | PA; DO |
| lisdexamfetamine dimesylate oral tablet chewable 40 mg, 50 mg, 60 mg | Tier 2 | PA; QL |
| PROCENTRA ORAL SOLUTION | Tier 2 | PA; QL |
| VYVANSE ORAL CAPSULE 10 MG, 20 MG, 30 MG | Tier 3 | PA; DO |
| VYVANSE ORAL CAPSULE 40 MG, 50 MG, 60 MG, 70 MG | Tier 3 | PA; QL |
| VYVANSE ORAL TABLET CHEWABLE 10 MG, 20 MG, 30 MG | Tier 3 | PA; DO |

Tier 1=Drugs with the lowest cost share **Tier 2**=Drugs with a higher cost share than Tier 1 **Tier 3**=Drugs with a higher cost share than Tier 2 **Tier 4**=Drugs with the highest cost share and usually include specialty brand and generic drugs **DX**=Coverage varies by diagnosis **\$0**=Preventive Drug **BE**=Benefit Exclusion **DO**=Dose Optimization **LD**=Limited Distribution **PA**=Prior Authorization **QL**=Quantity Limit **SP**=Specialty Pharmacy **ST**=Step Therapy

Effective 03012025

| Drug Name | Tier | Notes |
|--|--------|--------|
| VYVANSE ORAL TABLET CHEWABLE 40 MG, 50 MG, 60 MG | Tier 3 | PA; QL |
| ZENZEDI ORAL TABLET 10 MG, 15 MG, 20 MG, 30 MG, 7.5 MG | Tier 1 | PA; QL |
| ZENZEDI ORAL TABLET 2.5 MG, 5 MG | Tier 1 | PA; DO |
| *DOPAMINE AND NOREPINEPHRINE REUPTAKE INHIBITORS (DNRIS)*** | | |

For information about your pharmacy benefit, log in at [wellpoint.com](https://www.wellpoint.com).

You'll find the most up-to-date drug list and details about your benefits. If you still have questions, we're here. Just call the Pharmacy Member Services number on your ID card.

Most plans include our home delivery pharmacy program at no extra cost to you. Find out more when you log on to [wellpoint.com](https://www.wellpoint.com) or calling **833-396-0309**.

A note about opioid analgesics: In response to the opioid epidemic, the U.S. Food and Drug Administration (FDA) encouraged the development of painkillers that prevent misuse. You may pay less for these types of opioids in certain states.

Drug(s) may be excluded from the drug list based on your plan's benefit design.

Coverage provided by: In Florida: Simply Healthcare Plans, Inc. doing business as Wellpoint Florida, Inc.; In Maryland: Wellpoint Maryland, Inc.; In Texas: Wellpoint Insurance Company.
