Individual & Family Plans

Preferred Drug List

HEALTH PLANS
UNIVERSITY OF UTAH

How to use the Preferred Drug List

The Preferred Drug List (PDL) is a summary of prescription drugs covered under your plan. This contains the most commonly prescribed drugs with their dosing and forms. This list is not a complete list and additional drugs may be covered. *Please note that the Preferred Drug List is subject to change as new drugs become available and therapeutic categories are reviewed and updated to provide the most effective and greatest value therapies available for our members.*

Your pharmacy benefit has four tiers and the tier is identified in the second column on the Preferred Drug List below. These tiers determine your out of pocket responsibility and will coincide with the copays and/or coinsurance shown on your benefit summary. In most cases, the drugs on the lower tiers will cost less.

- Tier 0: Preventive Drugs required by the Affordable Care Act (ACA)
- Tier 1: Preferred Generics
- Tier 2: Non-Preferred Generics / Preferred Brands
- Tier 3: Non-Preferred Brands
- Tier 4: Specialty (Most specialty drugs require PA and must be filled at the Plan's designated Specialty Pharmacy)

If you have any questions about the Preferred Drug List or your pharmacy benefits please contact Pharmacy Customer Service at the number listed on the back of your ID Card. Pharmacy Customer Service is available 24 hours / 7 days a week / 365 days a year. You can also view additional information by logging into the pharmacy member portal. If you need assistance in registering for the portal, please contact Pharmacy Customer Service. The pharmacy member portal provides information such as how to find a pharmacy; look up drug information like benefit tier, limits, and drug interactions; shop for best price of a medication at different pharmacies; check the status of a prescription; print your drug filled history; and how to set up mail order.

HOW DRUGS ARE CHOSEN FOR THE PDL

Drugs approved by the U.S. Food and Drug Administration (FDA) are reviewed and considered for the PDL by the Pharmaceutical & Therapeutics (P&T) Committee utilizing the following criteria:

- a) The drug is efficacious and medically necessary for the treatment, maintenance, and/or prevention of a specific medical condition
- b) The PDL does not have other alternatives or similar drugs that could be used in its place
- c) The drug demonstrates a strong therapeutic outcome
- d) The drug demonstrates safety for medical use

As new drugs are approved by the FDA, they are reviewed within 180 days against similar drugs available on PDL before being considered for inclusion. New drugs with an FDA designation of 1P (FDA priority review – potential therapeutic gain) will automatically be reviewed for consideration for the Preferred Drug List. New drugs with an FDA designation of 1S (FDA standard review – no therapeutic gain) will not be reviewed for consideration until a provider/member requests or the next therapeutic class review is done.

In addition, therapeutic classes are reviewed on a regular basis to ensure the Preferred Drug List includes the most clinically and cost-effective medications.

Members will receive notices related to drug modifications at the point of sale when they present a prescription that is impacted by modifications to the PDL. Network pharmacies are required to communicate these messages regarding updates or changes to the program which may impact a member. In addition, members whose drugs have been removed from the PDL will receive written communication of change.

PREVENTIVE DRUGS

Certain medications are considered preventive under the Affordable Care Act (ACA). ACA preventive drugs are covered at 100 percent (no patient responsibility), although limits may apply. For more information about your preventive drug benefits, please contact Pharmacy Customer Service at the number listed on the back of your ID Card.

PRIOR AUTHORIZATION (PA)

To ensure appropriate utilization, some generic and brand medications and all specialty drugs require Prior Authorization to be eligible for coverage under the member's prescription drug benefit. The P&T Committee establishes the Prior Authorization criteria. In order for a member to receive coverage for a medication requiring Prior Authorization, the

member or member's provider should contact Pharmacy Customer Service at the number listed on the back of your ID Card. Your provider will be required to complete a prior authorization form and provide clinical documentation to show why this medication is needed for treatment of your disease state or medical condition. A letter of medical necessity is also recommended. Your provider should also include in his/her letter your diagnosis and previous therapies that have failed. If Prior Authorization is not received or medication is filled prior to approval, the cost of the medication will be full member responsibility. In addition, Prior Authorizations are not able to be back-dated.

QUANTITY LIMIT (QL)

Quantity Limit is a program that ensures members do not receive a prescription for a quantity that exceeds recommended Plan or safety limits. Limits are set because some medications have the potential to be abused, misused, shared, or have a manufacturer's limit on the recommended maximum dose. Quantity limits are based on FDA approved dosing schedules, current medical practices, evidence based clinical guidelines, and peer-reviewed medical literature related to a particular drug. Prior Authorization is required for any quantity limits that exceed Plan limits.

STEP THERAPY (ST)

Step Therapy is a program for prescription drugs that are taken on a regular basis to treat an ongoing medical condition. The program is developed around safety, cost, and a member's health. In Step Therapy, the covered drugs are arranged in a series of "steps". The program typically starts with generic drugs as the "first step." These generics are rigorously tested and approved by the FDA and allow you to have safe, effective treatment with medication that is more affordable. More expensive brand-name drugs are usually considered in the "second step" if your provider determines the "second step" products are medically necessary for your treatment. Step Therapy is developed under the guidance and direction of independent, licensed doctors, pharmacists, and other medical experts. They review the most current research on thousands of drugs tested and approved by the FDA for safety and efficacy. The first time you submit a prescription that is not for a first-step drug, your pharmacist will receive a message to tell you that the Plan requires Step Therapy. This means if you don't want to pay full price for your prescription drug, your doctor needs to write a new prescription for a "first-step" drug. With Step Therapy, if you've already tried and failed the "first-step" drug, can't take the "first-step" drug (because of an allergy, etc.), and/or your provider can show medical necessity for the second step products, your provider can submit a request for Prior Authorization review.

AGE

Some medications have a minimum or maximum age limit requirement under the Plan. Only members within those limits are able to fill those medications.

BRAND-GENERIC PENALTY (Ancillary Charge)

A Brand-Generic penalty is applied if you receive a brand name drug, regardless of reason or medical necessity, or if your provider prescribes a brand name drug when a generic is available. A Brand-Generic Penalty is the difference in cost from the generic to the brand name drug. This penalty is in addition to the regular cost sharing outlined in your benefits summary. The Brand-Generic penalty does not apply towards Deductibles or Out-of-Pocket Maximum.

GENERIC MANDATORY PLAN

The Plan mandates generic drugs wherever available. If a brand-name drug is requested when a generic is available, the generic will be available without a Prior Authorization. If brand is still desired, Prior Authorization will be required, even if not indicated on the PDL below. If brand is approved through the PA process, the Brand-Generic penalty will still be applied.

MAIL ORDER

A 90 day supply of generic and brand name drugs (Tier 0, 1, 2, and 3) that is mailed directly to you through a designated Mail Order Pharmacy. Not all medications are available through Mail Order. Contact Pharmacy Customer Service at the number listed on the back of your ID Card for more information or to get started on the Mail Order program.

SPECIALTY PHARMACY

The Plan requires that all medications noted as Specialty drugs (Tier 4) be filled through the Plan's designated Specialty Pharmacies. In cases where drugs are available only through a limited distribution channel from the manufacturer, these drugs may be filled at other designated specialty pharmacies as directed by the Plan.

OFF-LABEL USE OF MEDICATIONS

The FDA requires that drugs used in the U.S. be safe and efficacious. The label information or package insert of a medication outlines drug use only for "approved" doses and specific therapies for a particular condition or disease state. The use of a drug for a disease state or condition not listed on the label, or in a dose or therapy not listed on the label, is considered to be a "non-approved" or "off-label" use of the drug. Off-label use of a medication is not covered unless it meets the Plan's off-label use policy. A Prior Authorization is required when a medication is used outside of its FDA indication, dosage, or treatment. Coverage will be reviewed under the off-label use policy and subject to the same conditions and limitations as any other prescription drug.

NON-FORMULARY (not covered) OR EXCEPTION REQUESTS FOR MEDICATIONS

For drugs that are not covered by the Plan or exception requests, you or your provider can request an exception review. Your provider will be required to complete a request for formulary exception form and provide clinical documentation to show why this medication is needed for treatment of your disease state or medical condition. A letter of medical necessity is also recommended. Your provider should also include in his/her letter your diagnosis and previous therapies that have failed. If exception request approval is not received or medication is filled prior to approval, the cost of the medication will be full member responsibility. Contact Pharmacy Customer Service at the number listed on the back of your ID Card for more information.

PAPER CLAIMS FILING LIMITS

Point-of-sale claims are generally submitted electronically at the time of dispensing. However, there may be mitigating reasons that require a claim to be submitted via a paper claim after being dispensed. The timely filing limit for paper claims submission is 90 days from the date of service for all original claims. Paper claims will be reimbursed off of what the contractual discount would have been if claim had processed through the system, so member will be responsible for any difference in paid cost.

CURRENT AS OF 3/19/2020
