

Keystone 65 Rx HMO, Personal Choice 65SM Rx PPO, and Select Option[®] PDP 2027 Formulary or “Drug List”

(List of Covered Drugs)

PLEASE READ:

**THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER
IN THIS PLAN**

FID 00027278

This formulary was updated on **9/1/2026**. For more recent information or other questions, please contact Keystone 65 Rx at **1-844-352-1699**, Personal Choice 65 Rx at **1-888-879-4293**, or Select Option Rx at **1-888-678-7009** (TTY /TDD users should call **711**), seven days a week, 8 a.m. to 8 p.m. Please note that on weekends and holidays from April 1 through September 30, your call may be sent to voicemail. Or visit **ibxmedicare.com/formulary**.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this Drug List (formulary) refers to “we,” “us,” or “our,” it means Independence Blue Cross. When it refers to “plan” or “our plan,” it means Keystone 65 Rx HMO, Personal Choice 65 Rx PPO, and Select Option PDP.

This document includes a Drug List (formulary) for our plan which is current as of **9/1/2026**. For an updated Drug List (formulary), please contact us. Our contact information, along with the date we last updated the Drug List (formulary), appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2028, and from time to time during the year.

What is the Keystone 65 Rx/Personal Choice 65 Rx/Select Option Rx formulary?

In this document, we use the terms Drug List and formulary to mean the same thing.

A formulary is a list of covered drugs selected by Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx in consultation with a team of health care providers which represents the prescription therapies believed to be a necessary part of a quality treatment program. Our plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your *Evidence of Coverage*.

For a complete listing of all prescription drugs covered by Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx, please visit our website or call us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

Can the formulary change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes. Updates to the formulary are posted monthly to our website here: [**ibxmedicare.com/formulary**](https://ibxmedicare.com/formulary).

Changes that can affect you this year:

In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand-name drugs and original biological products.** We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand-name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

We can make these immediate changes only if we are adding a new generic version of a brand-name drug, or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you are currently taking the brand-name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. For more information, see the section below titled “How do I request an exception to the Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx formulary?”.

Some of these drug types may be new to you. For more information, see the section below titled “What are original biological products and how are they related to biosimilars?”.

- **Drugs removed from the market.** If a drug is withdrawn from sale by the manufacturer, or the Food and Drug Administration (FDA) determines that it should be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may remove a brand-name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand-name drug or original biological product, or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective. Alternatively, when a member requests a refill of the drug, they may receive a 60-day supply of the drug and notice of the change.

If we make these other changes, you or your prescriber can ask us to make an exception for you and continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx formulary?”.

Changes that will not affect you if you are currently taking the drug.

Generally, if you are taking a drug on our 2027 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2027 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary each new benefit year for any changes to drug coverage.

The enclosed formulary is current as of **9/1/2026**. To get updated information about the drugs covered by Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx, please contact us. Our contact information appears on the front and back cover pages. In the event of a midyear non-maintenance formulary change, all affected members will receive a notification of changes to the formulary.

How do I use the formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 7. The drugs in this formulary are grouped into categories depending on the types of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Agents.” If you know what your drug is used for, look for the category name in the list that begins on page 7. Then, look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 126. The Index provides an alphabetical list of all the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to that page and find the name of your drug in the first column of the list.

What are generic drugs?

Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx cover both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs work just as well as and usually cost less than brand-name drugs. There are generic drug substitutes available for many brand-name drugs. Generic drugs usually can be substituted for the brand-name drug at the pharmacy without needing a new prescription, depending on state laws.

What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand-name drugs.

For discussion of drug types, Keystone 65 Rx and Personal Choice 65 Rx members should see the Part D Prescription Drug Rider, Chapter 3, Section 3.1, "The 'Drug List' tells which Part D drugs are covered." Select Option Rx should see the Evidence of Coverage, Chapter 3, Section 3.1, "The 'Drug List' tells which Part D drugs are covered."

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx require you or your prescriber to get prior authorization for certain drugs. This means that you will need to get approval from Keystone 65 Rx, Personal Choice 65 Rx, or Select Option Rx based on specific criteria before you fill your prescriptions. If you don't get approval, Keystone 65 Rx, Personal Choice 65 Rx, or Select Option Rx may not cover the drug.
- **Quantity Limits:** For certain drugs, Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx limit the amount of the drug that Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx will cover. For example, Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx provide 60 units per prescription for Glipizide ER 10 mg. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx require you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx may not cover Drug B unless you try

Drug A first. If Drug A does not work for you, Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 7. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Keystone 65 Rx, Personal Choice 65 Rx, or Select Option Rx to make an exception to these restrictions or limits or for a list of other similar drugs that may treat your health condition. See the section, “How do I request an exception to the Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx’s formulary?” on page 4 for more information about how to request an exception.

What if my drug is not on the formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact our Member Help Team and ask if your drug is covered.

If you learn that the plan does not cover your drug, you have two options:

- You can ask our Member Help Team for a list of similar drugs that are covered by the plan. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by Keystone 65 Rx, Personal Choice 65 Rx, or Select Option Rx.
- You can ask Keystone 65 Rx, Personal Choice 65 Rx, or Select Option Rx to make an exception and cover your drug. See below for more information about how to request an exception.

How do I request an exception to the Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx formulary?

You can ask Keystone 65 Rx, Personal Choice 65 Rx, or Select Option Rx to make the following types of exceptions to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive a coverage restriction including prior authorization, step therapy, or a quantity limit on your drug. For example, for certain drugs, Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx limit the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.
- You can ask us to cover a formulary drug at a lower cost-sharing level, unless the drug is on the specialty tier. If approved, this would lower the amount you must pay for your drug.

Generally, Keystone 65 Rx, Personal Choice 65 Rx, or Select Option Rx will only approve your request for an exception if the alternative drugs included on the plan’s formulary, the lower cost-sharing drug, or applying the restriction would not be as effective for you and/or would cause you to have adverse effects.

You or your prescriber should contact us to ask for a tiering or formulary exception, including an exception to a coverage restriction. ***When you request an exception, your prescriber will need to explain the medical reasons why you need the exception.*** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can ask for an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber's supporting statement.

What can I do if my drug is not on the formulary or has a restriction?

As a new or continuing member in our plan, you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but has a coverage restriction, such as a prior authorization. You should talk to your prescriber about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a formulary exception so that we will cover the drug you take. While you and your doctor determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary, or has a coverage restriction, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. If coverage is not approved, after your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan for less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

If a transition occurs due to a change in setting, such as moving from a home residence to a long-term care facility and then back again, our plan has a method in place to ensure that you have access to your medication. If your change of setting cannot be identified by the automated system, the pharmacy can notify our plan of the setting change and provide you with your prescribed medications. You will receive notice that you must either switch to a therapeutically appropriate drug on the plan's formulary or request an exception to continue taking the requested drug.

For more information

For more detailed information about your Keystone 65 Rx, Personal Choice 65 Rx, or Select Option Rx prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about Keystone 65 Rx, Personal Choice 65 Rx, or Select Option Rx, please contact us. Our contact information, along with the date we last updated this formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at **1-800-MEDICARE (1-800-633-4227)** 24 hours a day/7 days a week. TTY users should call **1-877-486-2048**. Or, visit **medicare.gov**.

Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx formulary

The formulary provides information about the drugs covered by Keystone 65 Rx, Personal Choice 65 Rx, and Select Option Rx. If you have trouble finding your drug in the list, turn to the Index that begins on page 126.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., LIPITOR®) and generic drugs are listed in lower-case italics (e.g., *atorvastatin*).

The information in the Requirements/Limits column tells you if Keystone 65 Rx, Personal Choice 65 Rx, or Select Option Rx have any special requirements for coverage of your drug.

- **Prior Authorization (PA):** Our plan requires you or your prescriber to get prior authorization for certain drugs. This means that you will need to get approval from us before you fill your prescriptions. If you don't get approval, we may not cover the drug.
- **Quantity Limits (QL):** For certain drugs, the plan limits the amount of the drug that we will cover. For example, our plan covers 60 units per prescription for Glipizide ER 10 mg. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy (ST):** In some cases, the plan requires you to try certain drugs to treat your medical condition first before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.
- **Non-Extended Day Supply (NDS):** All prescription fills for opioid medications will be limited to a 30-day supply for retail and mail order. Long-term care is 31 days. OptumRx® Home Delivery requires you to use 90 percent of your opioid medication before it may be refilled. Please note that other pharmacies may have additional limitations on opioid medications.
- **Non-Formulary (NF):** If your drug has a "Non-Formulary" status, this means that your drug is not covered under your plan. In this case, you may request a Formulary Exception.

The Drug Tier column of the chart lists the drug tier. The drug tier is the level of formulary cost-sharing for which you are responsible. See your Evidence of Coverage for more information about cost-sharing amounts.
