Lista de medicamentos preferidos de Molina Healthcare of Nueva York (Formulario)

(04/01/2024)

INTRODUCCIÓN

Nos complace brindar la *Lista de medicamentos preferidos (formulario) de Molina Healthcare of New York* de 2024 como una herramienta útil de referencia e información. Este documento puede ayudarles a los proveedores médicos a seleccionar los productos clínicamente adecuados y rentables para sus pacientes.

Los medicamentos representados fueron revisados por un Comité de Farmacia y Terapia (P&T) y fueron aprobados para su inclusión. El documento refleja la práctica médica actual desde la fecha de revisión.

La información contenida en este documento y sus apéndices se proporciona únicamente para la conveniencia de los proveedores médicos. No garantizamos ni aseguramos la exactitud de dicha información, ni tampoco es de carácter abarcativo. Toda la información que se incluye en el documento se proporciona como una referencia para la selección de terapia con medicamentos.

El documento está sujeto a normas y reglas específicas estatales, incluidas, entre otras, las relativas a la sustitución por genéricos, los cronogramas de sustancias controladas, la preferencia por las marcas y los genéricos obligatorios siempre que corresponda.

No asumimos ninguna responsabilidad por las acciones u omisiones de cualquier proveedor médico sobre la base de la confianza, total o parcial, en esta información. El proveedor médico debe consultar la bibliografía de productos del fabricante de medicamentos o las referencias estándar para obtener información más detallada.

PREFACIO

El documento está organizado por secciones. Cada sección se divide por clase de fármacos terapéuticos definida principalmente por el mecanismo de acción.

COMITÉ DE FARMACIA Y TERAPIA (P&T)

Los servicios de un Comité de Farmacia y Terapia ("Comité F&T") se utilizan para aprobar terapias farmacológicas seguras y clínicamente eficaces. El Comité F&T es un órgano consultivo de profesionales clínicos. Los miembros votantes del Comité F&T incluyen médicos y farmacéuticos, todos ellos con una amplia experiencia clínica y académica en materia de medicamentos recetados. Los miembros del Comité F&T deben revelar toda relación financiera o conflicto de interés con cualquier fabricante de productos farmacéuticos.

DESCRIPCIONES DE PRODUCTOS DE LA LISTA DE MEDICAMENTOS

Para ayudarle a entender qué concentraciones y formas de dosificación específicas en el documento están cubiertas, se indican los principios generales a continuación:

- La primera columna del gráfico indica el nombre del medicamento. Los medicamentos de marca aparecen en mayúsculas (p. ej., LIPITOR). Los medicamentos genéricos figuran en cursiva y minúsculas (p. ej., *atorvastatin*).
- La segunda columna (Requisitos/Límites) contiene todos los requisitos especiales para la cobertura de su medicamento.
- Si las versiones del producto de venta libre (OTC) y con Receta están cubiertas, ambas aparecen en la lista.
- Los productos de liberación extendida y de liberación prolongada requieren su propia entrada.
- Los formularios de dosificación en el documento serán coherentes con la categoría y uso donde se enumeran.

SUSTITUCIÓN POR GENÉRICOS

La sustitución por genéricos es una acción en una farmacia mediante la cual se dispensa una versión genérica en lugar de un producto de marca recetado. En este documento, la fuente *en cursiva y minúsculas* indica la disponibilidad de genéricos. En la mayoría de los casos, un medicamento de marca para el cual se pone a disposición un producto genérico pasa a ser un medicamento que no está incluido en el formulario y el producto genérico queda cubierto en su lugar tras su comercialización. Sin embargo, el documento está sujeto a normas y reglas estatales específicas relativas a la sustitución por genéricos y a las normas obligatorias relativas a los genéricos, cuando corresponda.

Los medicamentos genéricos suelen tener un precio menor que sus equivalentes de marca. Los medicamentos genéricos recetados cumplen con lo siguiente:

- Aprobados por la Administración de Alimentos y Medicamentos de los EE. UU. para su seguridad y eficacia, y fabricados según las mismas normas estrictas que se aplican a los medicamentos de marca.

- Probado en humanos para garantizar que el genérico se absorba en el torrente sanguíneo a un ritmo similar y con una extensión similar en comparación con el medicamento de marca (bioequivalencia). Los genéricos pueden ser diferentes de los medicamentos de marca en tamaño, color e ingredientes inactivos, pero esto no modifica su eficacia o capacidad de absorberse al igual que el medicamento de marca.
- Fabricados con la misma concentración y forma de dosificación que los medicamentos de marca.

Cuando se sustituye un medicamento de marca por uno genérico, se puede esperar que el medicamento genérico produzca el mismo efecto clínico con el mismo perfil de seguridad que el medicamento de marca (equivalencia terapéutica).

DISEÑO DE PLAN

El documento representa el diseño de un plan de formulario cerrado. Los medicamentos que figuran en el documento están cubiertos por el plan como se presentan. Ciertos medicamentos de la lista están cubiertos si se cumplen los criterios de administración de la utilización (es decir, terapia escalonada, autorización previa, límites de cantidad, etc.); se revisarán las solicitudes de uso de estos medicamentos fuera de los criterios indicados según la necesidad médica. Si un medicamento no está incluido en el documento, es posible que se solicite una excepción al formulario para la cobertura. Las solicitudes de excepción del formulario o necesidad médica se revisarán en función de los criterios de autorización previa específica para cada medicamento o los criterios estándar para solicitar una receta que no se encuentra en el formulario. Inicie sesión en www.molinahealthcare.com para verificar la cobertura.

CLASES DE CONSIDERACIÓN

ANALGÉSICOS OPIOIDES

Todos los analgésicos opioides están sujetos a una dosis equivalente de morfina de 90 mg por día. Se excluye el uso simultáneo de opioides con benzodiazepinas o relajantes musculares.

MEDICAMENTOS SIN COBERTURA

Tenga en cuenta que determinados medicamentos no están cubiertos. Esto incluye, entre otros:

- Los productos farmacéuticos determinados por la Administración de Alimentos y Medicamentos (FDA) como medicamentos menos eficaces, y medicamentos idénticos, relacionados o similares (con frecuencia denominados medicamentos "DESI 5 y 6").

PROCEDIMIENTO DE SOLICITUD DE AUTORIZACIÓN PREVIA

Las recetas para medicamentos que requieren aprobación previa o para medicamentos que no están incluidos en el Formulario de medicamentos de Molina pueden aprobarse cuando son médicamente necesarios y cuando se probó que las opciones del Formulario son ineficaces. Cuando surgen estas situaciones excepcionales, el médico puede enviar por fax un formulario de autorización previa de medicamento completado a Molina al (844) 823-5479. Los formularios pueden obtenerse en el sitio web www.molinahealthcare.com. Los ensayos con muestras farmacéuticas no se considerarán como justificación para aprobar una solicitud de autorización previa.

SUGERENCIAS ÚTILES PARA LA AUTORIZACIÓN PREVIA

Para asegurar la respuesta más rápida posible del Departamento de Farmacia, proporcione información relevante con la solicitud de autorización previa. Estos son algunos ejemplos:

Clase de medicamento/diagnóstico

Reducción de colesterol
Diabetes
Medicamento no preferidos/fuera del formulario

Información clínica solicitada

Perfil lipídico, factores de riesgo cardiovasculares
Informe de A1c
Informe del medicamento y/o notas sobre el progreso que documentan el uso previo de medicamentos del formulario.
