Definitions

Allowed amount is the maximum amount on which the health insurance issuer bases its payment for a covered health care service. This may be called “eligible expense”, “payment allowance”, or “negotiated rate”. If your health care provider charges more than the allowed amount and is not part of the provider network, you may have to pay the difference.

Brand name drug means a drug that is marketed under a proprietary, trademark-protected name. A brand name drug is listed in this formulary in all CAPITAL letters.

Coinsurance means a percentage of the cost of a covered health care service, which you are responsible to pay. The cost of the covered health care service is generally deemed to be the allowed amount, which may differ from the retail price that you would pay for the same service without using insurance. Typically, a coinsurance does not apply until after you have met the deductible, unless the health insurance issuer has waived or lowered the deductible for the health care service in question.

Copayment means a fixed dollar amount that you pay for a covered health care benefit after you have paid the deductible, if a deductible applies to the health care benefit, unless the health insurance issuer has waived or lowered the deductible for the health care service in question.

Covered individual is an individual enrolled in, subscribed to, or insured under a health product, whether directly or as a dependent or beneficiary.

Deductible means the amount you pay for covered health care benefits before your health insurer begins to pay for all or part of the cost of the health care benefits under the terms of coverage. If your health product has a deductible, it may have either one deductible or separate deductibles for medical benefits and drug benefits. For some health care services, such as preventive services, your health insurance company might waive or lower the deductible to pay for costs of the health care service from the first dollar of coverage, but this tends not to happen for most other covered services.

Drug Tier means a group of prescription drugs that correspond to a specified cost sharing tier in your health insurance policy. The drug tier in which a prescription drug is placed determines your portion of the cost for the drug.

Enrollee is a person enrolled in a health plan who is entitled to receive services from the plan.

Exception request means a request for coverage of i) a nonformulary drug, ii) a drug being removed from the formulary, iii) a quantity of a drug above a quantity limit, or iv) a drug that is subject to a step therapy requirement. If you, your designee, or your attending or prescribing provider submits an exception request for coverage of a drug, the health insurance issuer must cover the drug when the drug is determined to be medically necessary to treat your condition.

Exigent circumstances means when you are suffering from a medical condition that may seriously jeopardize your life, health, or ability to regain maximum function, or when you are undergoing a current course of treatment using a non-formulary drug.

Formulary or **prescription drug list** means the complete list of drugs preferred for use and eligible for coverage under a health product, and includes all drugs covered under the outpatient or pharmacy drug benefit of the health product. Formulary is also known as a drug list or prescription drug list.

Generic drug means a drug that is the same as its brand name drug equivalent in dosage, strength, effect, how it is taken, quality, safety, and intended use. A generic drug is listed in this formulary in italicized lowercase letters.

Medically Necessary means health care benefits needed to diagnose, treat, or prevent a medical condition or its symptoms and that meet accepted standards of medicine. Health insurance usually does not cover health care benefits that are not medically necessary.

Non-formulary drug means a prescription drug that is not listed on this formulary, but may become eligible for coverage under an “exception request.

Oral Anti-Cancer drugs are prescribed, orally administered medications used to kill or slow the growth of cancerous cells. They are no more restrictive than those applied to intravenously injected or administered cancer medications covered by the health product. There are no separate cost-sharing requirements or treatment limitations for prescribed, orally-administered cancer medications.

Out-of-pocket costs means your expenses for health care benefits that aren't reimbursed by your health insurance. Out-of-pocket costs include deductibles, copayments, and coinsurance for covered health care benefits, plus all costs for health care benefits that are not covered.

Prescribing provider means a health care provider authorized to write a prescription to treat your health condition.

Prescription means an oral, written, or electronic order from a prescribing provider for you that contains the name of the drug, the quantity of the drug, the date of issue, the name and contact information of the prescribing provider, the signature of the prescribing provider if the prescription is in writing, and if requested by you, the health condition or purpose for which the drug is being prescribed.

Prescription drug means a drug that is prescribed by your prescribing provider and requires a prescription under applicable law.

Prior Authorization means a health product's requirement that you or your prescribing provider obtain the health insurance issuer's authorization for a drug before the health product will cover the drug. The health insurance issuer must grant a prior authorization when it is medically necessary for you to obtain the drug.

Step therapy means a specific sequence in which prescription drugs for a particular medical condition must be tried. If a drug is subject to step therapy in this formulary, you may have to try one or more other drugs before your health insurance policy will cover that drug for your medical condition. If your prescribing provider submits a request for an exception to the step therapy requirement, your health insurer must grant the request when it is medically necessary for you to take the drug.

Subscriber means the person who is responsible for payment to a plan or whose employment or other status, except for family dependency, is the basis for eligibility for membership in the plan.

How to use this guide

Your guide includes a list of commonly used drugs covered on your pharmacy plan. The amount you pay depends on the drug your doctor prescribes. It's either a flat fee or a percentage of the prescription's price after you meet your deductible, if applicable. Preferred generic drugs cost less. Preferred brand drugs will have a higher cost.

Your plan includes

- Brand and generic drugs that are hand-picked for their quality and effectiveness
- A specialty pharmacy that fills specialty prescriptions (ones that are injected, infused or taken by mouth) — and provides services that include personal support, helpful resources and training, and free secure home delivery
- A home delivery pharmacy that delivers maintenance drugs to your home or wherever you choose (for drugs that are taken regularly to treat conditions like diabetes or asthma)

What you can expect to pay

With your pharmacy plan, the amount you pay depends on the drug your doctor prescribes. It's either a flat fee or a percentage of the drug's/medicine's price. If a pharmacy's retail price for a prescription drug is less than your total cost share amount, you will not be required to pay more than the retail drug price.

Each drug is grouped as a generic, a brand or a specialty drug. The preferred drugs within these groups will generally save you money compared to a non-preferred drug. Typically, generic drugs are less expensive than brands.

Specialty prescription drugs typically include higher-cost drugs that may require special handling, storage, or administration. Specialty prescription drugs may also require monitoring from healthcare providers.

You're covered for all types of medicine — some more expensive, and some less.

- **Generic:** the lowest cost
- **Preferred brand:** a slightly higher cost
- **Non-preferred brand:** a higher cost
- **Preferred Specialty:** lower cost for specialty drugs
- **Non-preferred Specialty:** higher cost for non-preferred specialty drugs

Your pharmacy plan may not have all the coverage levels listed above so check your plan documents to see how much you will pay. Drug coverage may vary by plan. Check your plan documents for coverage information.

For your exact coverage and cost, and to learn more about your plan

Visit the website that's on your member ID card. Then log in to your account, where you can:

- Find out the coverage* and estimate of cost for specific drugs
- View your deductibles and plan limits
- Order medications
- Check your pharmacy order status
- Get a member ID card
- View your claims, Explanation of Benefits and more.

* Check your plan documents for coverage information. Your plan may not cover certain drugs to treat conditions such as infertility, erectile dysfunction and weight loss.

Have more questions about your pharmacy benefits?

We're here to help. There are several ways you can learn more about your benefits:

- Check your Plan Design and Benefits Summary in your enrollment kit.
- Call the toll-free number on your member ID card.
- Review our pharmacy frequently asked questions (FAQs) and answers. Just visit the website that's on your member ID card to search for the "Pharmacy FAQ."
- Visit your secure member website and sign in to your account to view your plan information.

Specialty Pharmacy Network

An in-network specialty pharmacy can fill your prescriptions for specialty drugs. These are the types of drugs that may be injected, infused or taken by mouth. They often need special storage and handling. And they need to be delivered quickly. A nurse or pharmacist may monitor you during your treatment, if needed. With this type of pharmacy, you can get this medicine sent right to your home.

How to get started with a specialty pharmacy

Ordering your prescriptions through our specialty pharmacy is easy. And we typically offer a 30-day medicine supply.

- **To transfer your prescription**, just call us toll-free at **1-866-353-1892 (TTY: 711)**.
- **For a new prescription**, your doctor can send it to us in one of four ways:
  1. **Electronically:** Through e-prescribe
  2. **Fax: 1-800-323-2445**
  3. **Phone: 1-800-237-2767 (TTY: 711)**

If you mail in your own prescription, please send it with a completed Patient Profile Form. To find this form, just visit the website that's on your member ID card, to search for the "Patient Profile Form."

CVS Caremark Mail Service Pharmacy™

You can have maintenance drugs sent right to your home or anywhere else you choose by CVS Caremark Mail Service Pharmacy. These are drugs that are taken regularly for chronic conditions like diabetes or asthma. Depending on your plan, you can get up to a 90-day supply of medicine for less cost. It's fast and convenient, and standard shipping is always free.

Get started right away

You can submit your order using one of these options:

1. **Online** — Visit your secure member website and sign in to your account. There you can add or remove your prescriptions.
2. **Phone** — Call us toll-free, 24/7 at **1-888-792-3862 (TTY: 711)**. If you need the help of a telephone device for the hard of hearing, call **1-877-833-2779 (TTY: 711)**.
3. **Mail** — Get a new prescription from your doctor. Then mail it to us with a completed order form. You can find the form on your secure member website. The mailing address is on the form.

Your doctor can submit your order using one of these options:

1. **Online** — They can submit your prescriptions using the e-prescribe services on our provider website.
2. **Fax** — They can fax your prescription to **1-877-270-3317**. Make sure they include your member ID number, date of birth and mailing address on the fax cover sheet. Only a doctor may fax a prescription.

Frequently asked questions

How can I save on prescriptions?

Here are some tips to pay less out of pocket for your prescription drugs:

- Ask your doctor to consider prescribing drugs that are on the Pharmacy Drug Guide (formulary).
- Ask your doctor to consider prescribing generic drugs instead of brand-name drugs.
- Our home delivery pharmacy may save you money. For more information, visit the website on your member ID card and log in to your account.

What are generic drugs?

Generic drugs are proven to be just as safe and effective as brand-name drugs. They contain the same active ingredients in the same amounts as the brand-name drugs and work the same way. So they have the same risks and benefits as brand-name drugs. However, they typically cost less.

When appropriate, your doctor may decide to prescribe a generic drug or allow the pharmacist to substitute a generic drug.

What is precertification/prior authorization (PA)?*

Prior authorization is one way that we can help you and your doctor find safe, appropriate drugs and keep costs down. Prior authorization means that you or your doctor need to get approval from the plan before certain drugs will be covered. Generally, Prior authorization applies to drugs that:

- Are often taken in the wrong way
- Should only be used for certain conditions
- Often cost more than other drugs that are proven to be just as effective

Keep in mind that your doctor must contact us to request approval of coverage for these drugs.

The length of approval for a prior authorization may be different depending on the type of drug, the way your provider prescribed your drug, or the time of year you get your coverage.

- Most prior authorization approvals will be valid for 6 months, the length of treatment as determined by your prescribing provider, or the renewal of your plan, whichever of these is the shortest amount of time
- For maintenance medications to treat a chronic condition or long-term condition, your prior authorization will be valid for either 12 months or the length of time determined by your prescribing provider
- Different prior authorization requirements might apply to benzodiazepines and Schedule II narcotic drugs. Please refer to the formulary or contact us with questions about these drugs.

What is step therapy (ST)?*

Some drugs require step therapy. This means that you must try one or more prerequisite drug(s) before a step therapy drug is covered.

The prerequisite drugs have U.S. Food and Drug Administration (FDA) approval and may cost less. They treat the same condition as the step therapy drug.

If you don't try the appropriate prerequisite drug first, you may need to pay full cost for the step-therapy drug.

What are quantity limits (QL)?

Quantity limits help your doctor and pharmacist make sure that you use your drug correctly and safely. We use medical guidelines and FDA-approved recommendations from drug makers to set these coverage limits. The quantity limit program includes:

- **Dose efficiency edits** — Limits prescription coverage to one dose per day for drugs that have approval for once-daily dosing
- **Maximum daily dose** — If a prescription is lower than the minimum or higher than the maximum allowed dose, a message is sent to the pharmacy
- **Quantity limits over time** — Limits prescription coverage to a specific number of units over a specific amount of time

* Check your plan documents for coverage information. Not all precertification (PA), step therapy (ST) programs may be listed. To check coverage and copay information for a specific medicine, log into your member website. For questions, please call the toll-free number on the back of your member ID card.

What if I need a drug that requires an exception to the precertification, step therapy or quantity limits requirements? Or what if I need a drug that's not covered under my plan?

In certain cases, you or your prescriber can request a medical exception to the precertification, step therapy or quantity limits requirements or for a drug that's not covered on your plan. You can ask for your request to be expedited. Expedited coverage decisions are made within 24 hours.

We'll then contact you or your prescriber with our decision. All medically necessary outpatient prescription drugs will be covered. If a medical exception is approved, you only need to pay the copay after the deductible. This amount is based on your pharmacy plan design.

How can your provider request a medical exception?

- Submit their request through **www.CoverMyMeds.com**.
- Call the Aetna Pharmacy Precertification Unit: NonSpecialty **1-800-294-5979 (TTY: 711)** or Specialty **1-866-814-5506 (TTY: 711)**.
- Fax the completed request form to: Non-Specialty **1-888-836-0730** or Specialty **1-866-249-6155**.
- Mail the completed request form to: Medical Exception to Pharmacy Prior Authorization Unit 1300 East Campbell Road Richardson, TX 75081

Pharmacy and Therapeutics (P&T) committee

The services of an independent National Pharmacy and Therapeutics Committee ("P&T Committee") are utilized to approve safe and clinically effective drug therapies. The P&T Committee is an external advisory body of clinical professionals from across the United States. The P&T Committee's voting members include physicians, pharmacists, a pharmacoeconomist and a medical ethicist, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Voting members of the P&T Committee are not employees of CVS Caremark and must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

Can the formulary change during the year?

The formulary can change throughout the year. Some reasons why it can change include:

- New drugs are approved.
- Existing drugs are removed from the market.
- Prescription drugs may become available over the counter (without a prescription). Over-the-counter drugs are not generally covered in a formulary.
- Brand-name drugs lose patent protection and generic versions become available. When this happens, the generic drug will be covered in place of the brandname drug. The brand-name drug is likely to become non-formulary or covered at a higher cost. See the "What are generic drugs?" section above for more information.
- Change in drug or dosage form.
- Changes in tier placement of a drug that results in an increase in cost sharing.
- Any changes of utilization review restrictions, including any additions of these restrictions.

Does Aetna provide notice of these changes?

Yes, Aetna provides member and provider notifications 60 days in advance.

What is a medical benefit drug versus a drug covered under the Outpatient Prescription Drug Benefit?

A medical benefit drug is a drug that is generally not self-administered and requires administration by health care provider. The Outpatient Prescription Drug Benefit includes FDA-approved drugs that are self-administered, commonly oral or self-injectable drugs, not otherwise excluded from coverage.

Refer to your Summary of Benefits for differences and information about the prescription drugs covered under your Outpatient prescription drugs and medical benefit in your plan.

For a more detailed summary of your coverage or benefits plan you can log in to your secure member site on **www.aetna.com** or call the toll-free number on your member ID card.

Please note that if your prescription drug benefits plan changes, the information here may no longer apply.

Medications on the Aetna Drug Guide, precertification, step-therapy and quantity limits lists are subject to change.

Coverage Requirements such as Prior Authorization or Step Therapy may vary by state.

Health benefits and health insurance plans are offered, administered and/or underwritten by Aetna Health Inc., Aetna Health Insurance Company of New York, Aetna Health Assurance Pennsylvania Inc., Aetna Health Insurance company and/or Aetna Life Insurance Company (Aetna). In Florida, by Aetna Health Inc. and/or Aetna Life Insurance Company. In Utah and Wyoming by Aetna Health of Utah Inc. and Aetna Life Insurance Company. In Maryland, by Aetna Health Inc., 151 Farmington Avenue, Hartford, CT 06156. Each insurer has sole financial responsibility for its own products. Pharmacy benefits are administered by an affiliated pharmacy benefit manager, CVS Caremark. Aetna® is part of the CVS Health® family of companies.

Your plan may not cover certain drugs to treat conditions such as infertility, erectile dysfunction and weight loss. Not all health services are covered. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. To check coverage and copay information for a specific medicine, log into your member website. For questions, please call the toll-free number on your member ID card.

The drugs on the Pharmacy Drug Guide (formulary), Formulary Exclusions, Precertification, and Quantity Limit Lists are subject to change. The quantity limits and step therapy drug coverage review programs are not available in all service areas. However, these programs are available to self-funded plans.

In accordance with state law or insurer policies, changes to drug coverage are not effective for commercial fully insured plans (including HMOs) in Arizona, Iowa, Louisiana, New York, Texas, and in most circumstances Connecticut and Vermont, and in some circumstances Washington and Tennessee, until the plans' renewal date.

In accordance with state law, certain fully insured commercial California members (except Federal Employee Health Benefit Plan members) who obtained approval from an Aetna plan for coverage of drugs that are later added to the Preauthorization or Step Therapy Lists or removed from the Pharmacy Drug Guide will continue to have those drugs covered, for as long as the treating in-network provider continues prescribing them, provided that the drug is appropriately prescribed and is considered safe and effective for treating the enrollee's medical condition. Aetna reserves the right to periodically request clinical information from your provider to assess your medical condition and the appropriateness of your ongoing treatment. Failure to provide clinical information could result in subsequent denial of coverage for this medication.

In accordance with state law, fully insured Commercial Connecticut preferred provider organization (PPO) members (except Federal Employee Health Benefit Plan members) who are receiving coverage for drugs that are added to the Precertification or Step-Therapy Lists will continue to have those drugs covered for as long as the prescriber prescribes them, provided the drug is medically necessary and more medically beneficial than other covered drugs. Nothing in this section shall preclude the prescribing provider from prescribing another drug covered by the plan that is medically appropriate for the enrollee, nor shall anything in this section be construed to prohibit generic drug substitutions.

For fully insured plans (including HMOs) in Maryland, changes in prior authorization requirements for previously authorized immune globulin (human) and drugs used in the treatment of a mental disorder may not apply on reauthorization under certain conditions.

In accordance with state law, commercial fully insured (including HMO) members in Connecticut, Louisiana, New Mexico and Texas (except Federal Employee Health Benefit Plan members) who are receiving coverage for drugs that are added or removed from the Pharmacy Drug Guide and Specialty Drug List will continue to have those drugs covered at the same benefit level until their plan's renewal date. In Texas, preauthorization approval is known as "preservice utilization review." It is not "verification" as defined by Texas law. Preauthorization means a determination that healthcare services proposed to be provided to a patient are medically necessary and appropriate.
