

An Introduction to Independent Health's 2023 FEHB Drug Formulary

The following information applies to plans offered through Federal Employees Health Benefits (FEHB). Check your summary of benefits to ensure this formulary is associated with your plan before using your prescription drug benefit.

Note: If you are reading a printed version of this drug formulary, it may be outdated. Please visit [independenthealth.com](https://www.independenthealth.com) to view your current drug formulary.

The drugs on this list are chosen for their effectiveness and safety. This formulary provides our members with options for their care at different costs. This allows members to work with their doctor to choose the medication that is best for them.

Understanding this 5-Tier Formulary

Independent Health's 5-tiered formulary offers preferred generic, preferred brand-name, non-preferred brand/generic and preferred and non-preferred specialty medicines with three different member cost-sharing levels:

- Tier 1 drugs have the lowest cost-share. Tier 1 includes preferred generic medications, certain over-the-counter (OTC) medications and select brand-name medications.
- Tier 2 and tier 4 drugs have a higher member cost-sharing. These tiers include preferred brand-name medications and preferred specialty medications.
- Tier 3 and tier 5 drugs have the highest member cost-sharing. These tiers include non-preferred generic medications, non-preferred brand-name medications, and non-preferred specialty medications.

What are generic drugs, biological products and biosimilars?

- Generic drugs have the same active ingredient as the brand name drug.
- Biological products are made in a more complex way than conventional drugs.
- Since biological products are more complex, instead of having a generic form, they have alternatives called biosimilars.

Generics, biological products and biosimilars must all be approved by the FDA. Generally, generics and biosimilars work just as well as the brand name drug or biological product and usually cost less. Choosing a generic drug may help keep your prescription drug costs down. Generic drugs are listed on the formulary in lower case (i.e., fluticasone-salmeterol), while brand name drugs are capitalized (i.e., ADVAIR HFA).

What if a medicine I take is not on the formulary?

If your doctor feels a non-formulary drug is medically necessary, they can request a medical exception from Independent Health's Medical Director. Your doctor must complete a medical exception form and fax it to Independent Health's Prior Authorization Department, who will review the details of the case. If the request is approved, that drug will be covered at your Tier 3 or Tier 5 member cost-sharing.

What if I have questions about my prescription drug benefit?

Please call our Member Services Department at (716) 631-8701 or 1-800-501-3439, Monday through Friday from 8 a.m. to 8 p.m. TTY users call 711.

Prior-Authorization

Independent Health requires you to get prior authorization for certain medications. To obtain coverage for a medication requiring prior authorization, a prior authorization request for medical exception must be submitted by your health care provider and approved by Independent Health. Medications that require prior authorization are listed with a "PA" in the formulary.

Step Therapy

In some cases, Independent Health requires you to first try certain medications to treat your medical condition before we cover another medication for that condition. Step therapy is a way to help you get the best quality and value from your prescription medication benefit. This usually means that an equally effective generic medication is prescribed before a more expensive brand-name medication. Step therapy may also ensure that two medications

are used together if they are more effective. Medications that require step therapy are listed with a “ST” in the formulary.

Quantity Limitations

Quantity limitations may apply to certain medications. Some medications are covered up to a specific quantity per 30 or 90 days. Some examples of medications with a quantity limitation are: sumatriptan (generic Imitrex®) and aprepitant (generic Emend®). Medications with quantity limitations are listed with a “QL” in the formulary.

For some items that come pre-packaged (for example: tube/container, inhaler device, single dose units, or liquid container), one package size is allowed per fill of these items. If a quantity limit is designated on the formulary, this restriction will take precedence over the pre-packaged limitations, when applicable.

Specialty Medications

To add value and accessibility in your pharmacy benefits, we offer a specialized prescription medication program for certain specialty medications through Reliance Rx® Specialty Pharmacy. Specialty medications include those that are either self-injectable, require special distribution, handling and/or are at limited supply and certain oral oncology medications. You may fill these medications at designated pharmacies such as Reliance Rx. Reliance Rx specializes in providing high-quality service for complex chronic conditions such as hepatitis, multiple sclerosis, cancer and rheumatoid arthritis.

Along with providing these specialized medications, Reliance Rx also provides a convenient way for you to receive the medication, by arranging delivery at no charge directly to your home. They can also provide you with education on the medication you’re taking, refill reminders and even the necessary supplies, if applicable. Specialty medications are listed with a “SP” on the formulary. Reliance Rx can be reached at 1-800-809-4763.

Limited Distribution Drugs

Some specialty medications can only be obtained through designated specialty pharmacies due to limited distribution placed on the medication by the

manufacturer. These medications are listed with a “LDD” on the formulary.

Affordable Care Act (ACA) Preventive Services

Medications covered under the Affordable Care Act as preventive services are listed with an “ACA” on the formulary. Certain restrictions may apply. As medications are added or removed from the United States Preventive Services Task Force recommendations list, these medications may not be available to you through the ACA until you renew your plan. There is no member cost-sharing for these medications.

Preventive

Some medications are considered preventive care for those with qualifying chronic conditions. There is no member cost-sharing for these medications. These medications are listed with a “PV” on the formulary. This benefit does not apply to standard plans. Please refer to your member contract to see if this applies.

Age Restriction

Prescription medications restricted by age due to safety reasons are listed with an “AL” on the formulary. Age restrictions based on Food and Drug Administration (FDA) recommended labeling may not be listed on the formulary but still apply.

Maintenance Medications

Independent Health allows up to a 90-day supply of certain medications to be filled. Medications eligible to be filled for a 90-day maintenance supply are indicated on the formulary with an “MM.”

The first fill of new maintenance medications will require a 30-day initial fill to ensure you do not have any side effects. After the initial 30-day supply has shown you can tolerate the medication, you can receive future refills for up to a 90-day supply as prescribed.

Insulin

Insulin is an injectable drug that helps people control their diabetes. It has a maximum cost-share per 30-day supply. Refer to your member contract for more information.

Over-the-Counter (OTC) Medications

Certain medications listed on the formulary are available over the counter. A prescription is required

for coverage of the OTC products. OTC products that we cover are listed with an “OTC” on the formulary.

Dental Formulary

Medications covered on our Dental Formulary are available when prescribed by a dental provider. Medications included in our Dental Formulary are listed with a “DF” on the formulary. Medications without a “DF” will not be covered when written by a dental provider.

Key

ACA – Affordable Care Act

AL – Age Limit

DF – Dental Formulary

I – Insulin

LDD – Limited Distribution Drugs

MM – 90-day supply

OTC – Over-the-Counter

PV – Preventive

PA – Prior Authorization Required

QL – Quantity Limits Apply

SP – Specialty Pharmacy

ST – Step Therapy

Compounded Prescription Medications

Compounded prescriptions (medications that are not commercially manufactured) must be prepared by a participating pharmacy and contain at least one prescription component. The dispensing pharmacy is required to submit for prior approval and when covered the compounded prescription will be available at a Tier 2 member cost-sharing. Compounds which cost under \$200 do not require prior authorization if all other requirements are met. Compounds which cost more than \$200 will require prior authorization.

Coverage is provided in accordance with our Compounding Medication Products Policy. Bulk products and powders are excluded from coverage.

Cost-share for diabetic medications

Member cost-sharing for insulin and oral anti-diabetic medications will depend on where you obtain these medications.

- If you obtain your medication at the pharmacy, you will pay the lesser of your diabetic or pharmacy cost-share.
- If you obtain your medication at a medical supply provider, you will pay your diabetic cost-share.

Diabetic Supplies

Products listed in this section are a covered benefit based on your plan. Products not listed require prior authorization. Member cost-sharing varies by plan.

BD needles and syringes are our preferred needle/syringe products. Sizes typically used for insulin are covered. Other sizes will require prior authorization.

Alcohol swabs to prep for using diabetic medicines are covered.

OneTouch glucose meters, lancets, test strips, and supplies are our preferred diabetic supplies and do not require prior authorization.

Diabetic test strips are limited to a maximum of 100 per 30 days for non-insulin dependent diabetics. Diabetic test strips are limited to a maximum of 300 per 30 days for insulin dependent diabetics.

OneTouch will provide a glucose meter to you with no member cost-sharing. Quantities are limited to one meter per member. You can obtain a voucher for a meter by calling LifeScan, Inc. at 1-888-377-5227, offer code 289IHA001. Please have your ID number available when you call.

FreeStyle Libre, FreeStyle Libre 2, FreeStyle Libre 3, Dexcom G6 and G7 continuous glucose monitors and sensors are available at retail pharmacies without prior authorization for members using insulin (short or rapid-acting) multiple times a day to control their diabetes.

- Freestyle Libre, Freestyle Libre 2 & FreeStyle Libre 3: If covered, members may fill up to two sensors per 28-day supply, or six sensors per 84-day supply subject to the Independent Health formulary limits; one receiver per plan year.
- Dexcom G6 & Dexcom G7: If covered, members may fill up to three sensors per 30-day supply, or nine sensors per 90-day supply subject to the Independent Health formulary limits; one wireless transmitter every 90 days (Dexcom G7 sensors include a built-in transmitter); one receiver device per plan year.

Lost/Stolen/Damaged Medications

Replacement of any lost, stolen or damaged medications is the responsibility of the member.

Additional Formulary Information

- Medications used for cosmetic purposes are excluded from coverage.
- Medical devices: only previously listed diabetic supplies and spacers for inhalers (which may or may not require a prescription) are covered. All other devices are excluded from coverage.
- Medical foods other than those to treat inborn errors of metabolism, such as PKU, are excluded from coverage.
- Medications used for the treatment of sexual dysfunction (SD) may be subject to quantity limits. Duplicate therapy with other SD medications is not allowed.
- Prenatal vitamins classified as medical foods are not covered. Multivitamins are NOT included in the Formulary as various OTC products are available.
- Contraceptives (for members with contraceptive coverage): Formulary contraceptive medications are covered at a \$0 cost-share. Cervical caps, diaphragms, condoms, spermicides and any other FDA-approved contraceptive are covered at a \$0 cost-share. Both prescription and over-the-counter (OTC) products are covered only when prescribed by a licensed health care provider and require a valid prescription.
- Medications listed on the drug formulary as covered without restriction may require prior authorization or may not be covered if it is determined that they are being used for a non-FDA-approved indication or in conjunction with a procedure or treatment not covered under the member's Health Contract.
- Medications not recognized by the FDA without a National Drug Code (NDC) are excluded from coverage.
- Prescription medications not approved by the FDA are excluded from coverage.
- Drugs found to be less than effective by the FDA's drug efficacy study implementation (DESI) are not covered. These drugs were approved before the FDA required drugs to be effective as well as safe.
- Generic substitution is used only as required by state pharmacy laws. Therapeutic interchange is not utilized.
- Only OTC COVID tests approved by the FDA (including the EUA process) are covered. These tests are administered and read by the member without a doctor's order or clinical assessment and are not sent to a lab for processing. Each member may get up to eight (8) OTC tests in a 30-day period without a doctor's order. Since most test kits have two tests in them, a member would be able to get four (4) test kits per 30-days.

اگر آپ کسی کو مدد دے رہے ہیں اور آپ دونوں کو سوال ہے Independent Health کے بارے میں، تو آپ دونوں کو اپنی زبان میں مفت مدد اور معلومات حاصل کرنے کا حق ہے۔ ترجمان سے بات کرنے کے لیے، 1-800-501-3439 فون کریں۔

Kung ikaw, o ang iyong tinutulongan, ay may mga katanungan tungkol sa Independent Health, may karapatan ka na makakuha ng tulong at impormasyon sa iyong wika ng walang gastos. Upang makausap ang isang tagasalin, tumawag sa 1-800-501-3439.

Εάν εσείς ή κάποιος που βοηθάτε έχετε ερωτήσεις γύρω απο το Independent Health, έχετε το δικαίωμα να λάβετε βοήθεια και πληροφορίες στη γλώσσα σας χωρίς χρέωση. Για να μιλήσετε σε έναν διερμηνέα, καλέστε 1-800-501-3439.

Nëse ju, ose dikush që po ndihmoni, ka pyetje për Independent Health, keni të drejtë të merrni ndihmë dhe informacion falas në gjuhën tuaj. Për të folur me një përkthyes, telefononi numrin 1-800-501-3439.

Discrimination is Against the Law

Independent Health complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Independent Health does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

Independent Health:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
 - Qualified sign language interpreters
 - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
 - Qualified interpreters
 - Information written in other languages

If you need these services, contact Independent Health's Member Services Department.

If you believe that Independent Health has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with: Independent Health's Member Services Department, 511 Farber Lakes Drive, Buffalo, NY 14221, 1-800-501-3439, TTY users call 711, fax (716) 635-3504, memberservice@servicing.independenthealth.com. You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, Independent Health's Member Services Department is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

U.S. Department of Health and Human Services
