

STEP THERAPY CRITERIA

This list is current as of 10/1/2024 and pertains to the following formularies:

2025 Independent Health's Medicare Advantage C-SNP Part D Formulary

In some cases, we require that you first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B. This document contains the Step Therapy protocols that are associated with our Medicare Advantage Part D Formularies.

If you have any questions, please contact our Medicare Member Services Department at 1-800-665-1502 or, for TTY users 711, October 1st – March 31st: Monday through Sunday from 8 a.m. to 8 p.m., April 1st – September 30th: Monday through Friday from 8 a.m. to 8 p.m.

The formulary may change at any time. You will receive notice when necessary.
