## **Health First Health Plans 2020 Formulary (List of Covered Drugs)**

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION  
ABOUT THE DRUGS WE COVER IN THIS PLAN**

Formulary ID 20206, Version 32

This formulary was updated on 12/01/2020. For more recent information or other questions, please contact Health First Health Plans Customer Service at 1.800.716.7737 or for TTY users, 1.800.955.8771, weekdays from 8 a.m. to 8 p.m. and Saturdays from 8 a.m. to noon. From October 1 through March 31, we are available seven days a week from 8 a.m. to 8 p.m. or visit [myHFHP.org](http://myHFHP.org).

**Note to existing members:** This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us,” or “our,” it means Health First Health Plans. When it refers to “plan” or “our plan,” it means Classic Plan (HMO-POS), Value Plan (HMO), Rewards Plan (HMO), Employer Group Plus A Plan (HMO), Employer Group Plus B Plan (HMO), or Employer Group POS Plan (HMO-POS)..

This document includes a list of the drugs (formulary) for our plan which is current as of 12/01/2020. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2021, and from time to time during the year.

## What is the Health First Health Plans Formulary?

A formulary is a list of covered drugs selected by Health First Health Plans in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Health First Health Plans will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Health First Health Plans network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

## Can the Formulary (drug list) change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the Drug List during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow Medicare rules in making these changes.

**Changes that can affect you this year:** In the below cases, you will be affected by coverage changes during the year:

- **New generic drugs.** We may immediately remove a brand name drug on our Drug List if we are replacing it with a new generic drug that will appear on the same or lower cost sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand name drug on our Drug List, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.
  - If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the Health First Health Plans Formulary?”
- **Drugs removed from the market.** If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may add a generic drug that is not new to market to replace a brand name drug currently on the formulary or add new restrictions to the brand name drug or move it to a different cost-sharing tier. Or we may make changes based on new clinical guidelines. If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 30-day supply of the drug.
  - If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the Health First Health Plans Formulary?”

**Changes that will not affect you if you are currently taking the drug.** Generally, if you are taking a drug on our 2020 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2020 coverage year except as described above. This means these drugs will remain

available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year.

The enclosed formulary is current as of 12/01/2020. To get updated information about the drugs covered by Health First Health Plans, please contact us. Our contact information appears on the front and back cover pages. Printed formularies are updated via errata sheets in the event of mid-year non-maintenance formulary changes. Maintenance updates to the formulary are made monthly and any changes appear within both the searchable online version and printable pdf version of the formulary. The date of the updated formulary appears in the upper left corner of the printable pdf version, and in the bottom right hand corner of the initial page of the Online Formulary Search Tool.

## **How do I use the Formulary?**

There are two ways to find your drug within the formulary:

### **Medical Condition**

The formulary begins on page 10. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Cardiovascular Agents”. If you know what your drug is used for, look for the category name in the list that begins on page 10. Then look under the category name for your drug.

### **Alphabetical Listing**

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 82. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

## **What are generic drugs?**

Health First Health Plans covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

## **Are there any restrictions on my coverage?**

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Health First Health Plans requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Health First Health Plans before you fill your prescriptions. If you don’t get approval, Health First Health Plans may not cover the drug
- **Quantity Limits:** For certain drugs, Health First Health Plans limits the amount of the drug that Health First Health Plans will cover. For example, Health First Health Plans provides 30 tablets per prescription for TRADJENTA. This may be in addition to a standard one-month or three-month supply.

- **Step Therapy:** In some cases, Health First Health Plans requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Health First Health Plans may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Health First Health Plans will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 10. You can also get more information about the restrictions applied to specific covered drugs by visiting our Web site. We have posted on line documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Health First Health Plans to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the Health First Health Plans formulary?” on page 4 for information about how to request an exception.

### **What if my drug is not on the Formulary?**

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Service and ask if your drug is covered.

If you learn that Health First Health Plans does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by Health First Health Plans. When you receive the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Health First Health Plans.
- You can ask Health First Health Plans to make an exception and cover your drug. See below for information about how to request an exception.

### **How do I request an exception to the Health First Health Plans Formulary?**

You can ask Health First Health Plans to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing level if this drug is not on the specialty tier. If approved this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, Health First Health Plans limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, Health First Health Plans will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary or utilization restriction exception. **When you request a formulary or utilization restriction exception, you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

## **What do I do before I can talk to my doctor about changing my drugs or requesting an exception?**

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. After your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

If you are a resident of a long-term care facility, we will allow you to refill your prescription until we have provided you with 93-day transition supply, consistent with dispensing increment, (unless you have a prescription written for fewer days). We will cover more than one refill of these drugs for the first 90 days you are a member of our plan.

Additionally, we understand that if you have been enrolled in the plan for more than 90 days, there may be other situations in which you are prescribed non-formulary medications. These circumstances usually involve a change from one treatment setting to another, including but not limited to:

- Discharge from a hospital to home,
- Discharge from a skilled nursing facility to home,
- Ending a long-term care facility stay and returning to the community.

As a current member, if you have been prescribed non-formulary medications as a result of changing from one treatment setting to another, you may be eligible to receive a one-time temporary 30-day supply of your non-formulary drugs. During this transition period you can talk to your doctor to decide if you should switch to an appropriate drug that we cover, or request a formulary exception so we will cover the drug(s) you take. You can contact our Customer Service to ask for a temporary supply if the above circumstances apply to you. Our Customer Service contact information is listed on the front and back cover pages.

## **For more information**

For more detailed information about your Health First Health Plans prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about Health First Health Plans, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

## Your Cost

Coverage Phase	Initial Coverage Period	Coverage Gap					Catastrophic
	You pay these amounts beginning January 1, 2020, or when you first enroll. When the total cost for your covered drugs reaches \$4,020 (including what you pay and what we pay), the <b>Coverage Gap</b> stage begins.	You pay these amounts after the total cost for your covered drugs reaches \$4,020 (including what you pay and what we pay). When you have paid \$6,350 out-of-pocket for covered drugs, the <b>Catastrophic</b> stage begins.

## Health First Health Plans Formulary

The formulary that begins on the next page provides coverage information about the drugs covered by Health First Health Plans. If you have trouble finding your drug in the list, turn to the Index that begins on page 109.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., TRADJENTA) and generic drugs are listed in lower-case italics (e.g., lisinopril).

The information in the Requirements/Limits column tells you if Health First Health Plans has any special requirements for coverage of your drug.

**Part B versus Part D (B/D):** This prescription drug has a Part B versus Part D administrative prior authorization requirement. This drug may be covered under Medicare Part B or Part D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.

**Limited Availability (LA):** This prescription may be available only at certain pharmacies. For more information consult your Pharmacy Directory or contact Customer Service at 1.800.716.7737 or, for TTY users, 1.800.955.8771, weekdays from 8 a.m. to 8 p.m. and Saturdays from 8 a.m. to noon. From October 1 through March 31, we are available seven days a week from 8 a.m. to 8 p.m. or visit [myHFHP.org](http://myHFHP.org).

**Prior Authorization (PA):** Health First Health Plans requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from Health First Health Plans before you fill your prescriptions. If you do not get approval, Health First Health Plans may not cover the drug.

**Quantity Limit (QL):** Quantity Limits may also be listed. (For example, “30 EA per 30 days” would mean your coverage of this drug is limited to 30 pills every 30 days, or 1 pill per day.) Prescriptions written for more than the suggested Quantity Limits will only be honored up to the listed amount.

**Step Therapy (ST):** In some cases, Health First Health Plans requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug 1 and Drug 2 both treat your medical condition, Health First Health Plans may not cover Drug 2 unless you try Drug 1 first. If Drug 1 does not work for you, Health First Health Plans will then cover Drug 2.

**Select Care Drug (\$0):** These Tier 6 prescription drugs target specific conditions and are offered at a \$0 cost-share.

**Coverage Gap (\*\*):** We provide additional coverage of this prescription drug in the coverage gap. Please refer to our Evidence of Coverage for more information about this coverage.

This formulary was updated on 10/01/2020. For more recent information or other questions, please contact Health First Health Plans Customer Service at 1.800.716.7737 or, for TTY users, 1.800.955.8771, weekdays from 8 a.m. to 8 p.m. and Saturdays from 8 a.m. to noon. From October 1 through March 31, we are available seven days a week from 8 a.m. to 8 p.m. or visit [myHFHP.org](http://myHFHP.org).

Customer Service has language interpreter services available for non-English speakers at no cost.

This information is also available at no cost in other formats. By contacting Customer Service you may request your materials be read aloud, emailed, or mailed in large print.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, premium and/or copayments/coinsurance may change on January 1, 2021, and from time to time during the year.

Health First Health Plans is an HMO plan with a Medicare contract. Enrollment in Health First Health Plans depends on contract renewal.

The Formulary, pharmacy network, may change at any time. You will receive notice when necessary.

## Nondiscrimination Notice

Health First Health Plans complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability or sex. Health First Health Plans does not exclude people or treat them differently because of race, color, national origin, age, disability or sex.

Health First Health Plans:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
  - Qualified sign language interpreters
  - Written information in other formats (large print, accessible electronic formats)
- Provides free language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages

If you need these services, please contact Civil Rights Coordinator.

If you believe that Health First Health Plans has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with: Civil Rights Coordinator, 6450 US Highway 1, Rockledge, FL 32955, 321-434-4521, 1-800-955-8771 (TTY), Fax: 321-434-4362, [civilrightscoordinator@health-first.org](mailto:civilrightscoordinator@health-first.org). You can file a grievance in person or by mail, fax or email. If you need help filing a grievance our Civil Rights Coordinator, is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at: U.S. Department of Health and Human Services, 200 Independence Avenue SW., Room 509F, HHH Building, Washington, DC 20201, 1-800-368-1019, 800-537-7697 (TDD).

Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>.

Health First Health Plans is an HMO plan with a Medicare contract. Enrollment in Health First Health Plans depends on contract renewal.
