## B. Frequently Asked Questions (FAQ)

Find answers here to questions you have about this *List of Covered Drugs (Drug List)*. You can read all of the FAQ to learn more, or look for a question and answer.

### **B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the *Drug List* for short.)**

The drugs on the *Drug List* that starts in **Section C1** are the drugs covered by our plan. The drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies”.

- Our plan will cover all medically necessary drugs on the *Drug List* if:
  - your doctor or other prescriber says you need them to get better or stay healthy, **and**
  - you fill the prescription at a plan network pharmacy.
- In some cases, you have to do something before you can get a drug. Refer to question B4 for more information.

**If you have questions**, please call Wellcare Fidelis Dual Align (HMO D-SNP) Member Services at **1-866-892-8340 (TTY: 711)**. Between October 1 and March 31, representatives are available Monday–Sunday, 8 a.m. to 8 p.m. Between April 1 and September 30, representatives are available Monday–Friday, 8 a.m. to 8 p.m. The call is free. **For more information**, visit [go.wellcare.com/FidelisNJ](http://go.wellcare.com/FidelisNJ).

You can also find an up-to-date list of drugs that we cover on our website at [go.wellcare.com/FidelisNJ](http://go.wellcare.com/FidelisNJ) or call Member Services at the number listed at the bottom of this page.

## **B2. Does the Drug List ever change?**

Yes, and our plan must follow Medicare and Medicaid rules when making changes. We may add or remove drugs on the *Drug List* during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior authorization for a drug. (Prior authorization is permission from our plan before you can get a drug.)
- Add or change the amount of a drug you can get (called quantity limits).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we'll cover another drug.)

For more information on these drug rules, refer to question B4.

***This section is continued on the next page.***

**If you have questions**, please call Wellcare Fidelis Dual Align (HMO D-SNP) Member Services at **1-866-892-8340 (TTY: 711)**. Between October 1 and March 31, representatives are available Monday–Sunday, 8 a.m. to 8 p.m. Between April 1 and September 30, representatives are available Monday–Friday, 8 a.m. to 8 p.m. The call is free. **For more information**, visit [go.wellcare.com/FidelisNJ](http://go.wellcare.com/FidelisNJ).

If you're taking a drug that was covered at the **beginning** of the year, we'll generally not remove or change coverage of that drug **during the rest of the year** unless:

- a new, cheaper drug comes on the market that works as well as a drug on the *Drug List* now, **or**
- we learn that a drug isn't safe, **or**
- a drug is removed from the market.

Questions B3 and B6 have more information on what happens when the *Drug List* changes.

- You can always check our plan's up-to-date *Drug List* online at **go.wellcare.com/FidelisNJ**. Updates to the *Drug List* are posted on the website monthly.
- You can also call Member Services at the number listed at the bottom of this page to check the current *Drug List*.

### **B3. What happens when there's a change to the Drug List?**

Some changes to the *Drug List* will happen **immediately**. For example:

- **Substitutions of certain new versions of drugs.** We may immediately remove the drugs from the *Drug List* if we replace them with certain new versions of that drug, but your cost for the new drug will remain \$0 with the same or fewer restrictions. When we add a new version of a drug, we may also decide to keep the brand name drug or original biological product on the list but change its coverage rules or limits.
  - We may not tell you before we make this change, but we'll send you information about the specific change we made once it happens.
  - We can make these changes only if the drug we're adding:
    - is a new generic version of a brand name drug, or
    - is a certain new biosimilar version of original biological products on the *Drug List* (for example, adding an interchangeable biosimilar that can be substituted for an original biological product without a new prescription).
    - Some of these drug types may be new to you. For more information, refer to **Section B14**.

- You or your provider can ask for an exception from these changes. We will send you a notice with the steps you can take to ask for an exception. Please refer to questions B10–B12 for more information on exceptions.
- **Remove unsafe drugs and other drugs that are taken off the market.** Sometimes a drug may be found unsafe or taken off the market for another reason. If this happens we may immediately take it off the *Drug List*. If you're taking the drug, we'll send you a notice after we make the change. Please talk to your doctor or other prescriber to help you decide if there is a similar drug on the *Drug List* that you can take instead.

**We may make other changes that affect the drugs you take.** We'll tell you in advance about these other changes to the *Drug List*. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- We remove a brand name drug from the *Drug List* when adding a generic drug that isn't new to the market **or**
  - we remove an original biological product when adding a biosimilar, **or**
  - we change the coverage rules or limits for the brand name drug.

When these changes happen, we'll:

- tell you at least 30 days before we make the change to the *Drug List* **or**
- let you know and give you a 30-day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- if there's a similar drug on the *Drug List* you can take instead **or**
- whether to ask for an exception from these changes. To learn more about exceptions, refer to questions B10–B12.

## **B4. Are there any restrictions or limits on drug coverage or any required actions to take to get certain drugs?**

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior authorization:** For some drugs, you or your doctor or other prescriber must get authorization from our plan before you fill your prescription. Prior authorization is different from a referral. Our plan may not cover the drug if you don't get authorization.
- **Quantity limits:** Sometimes our plan limits the amount of a drug you can get.
- **Step therapy:** Sometimes our plan requires you to do step therapy. This means you'll have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your prescriber thinks the first drug doesn't work for you, then we'll cover the second.

## **B6. What happens if Wellcare Fidelis Dual Align (HMO D-SNP) changes their rules about how they cover some drugs (for example, prior authorization, quantity limits, and/or step therapy restrictions)?**

In some cases, we'll tell you in advance if we add or change prior authorization, quantity limits, and/or step therapy restrictions on a drug. Refer to question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the *Drug List* change.

## **B7. How can I find a drug on the *Drug List*?**

There are two ways to find a drug:

- you can search alphabetically, **or**
- you can search by drug type.

To search **alphabetically**, look for your drug in the Index of Covered Drugs section. You can find it if you know how to spell the name of the drug. The Index of Covered Drugs is an alphabetical list of all of the drugs included in the *Drug List*. Brand name drugs and generic drugs as well as over-the-counter (OTC) drugs are listed in the index.

**If you have questions**, please call Wellcare Fidelis Dual Align (HMO D-SNP) Member Services at **1-866-892-8340 (TTY: 711)**. Between October 1 and March 31, representatives are available Monday–Sunday, 8 a.m. to 8 p.m. Between April 1 and September 30, representatives are available Monday–Friday, 8 a.m. to 8 p.m. The call is free. **For more information**, visit [go.wellcare.com/FidelisNJ](http://go.wellcare.com/FidelisNJ).

To search **by drug type**, find the **Section C** labeled “List of Drugs by Drug Type”. The drugs in this section are grouped into categories by type. For example, if you’re taking a medicine for migraines, you should look in the “Autonomic / CNS Drugs, Neurology / Psych” category, under the “Migraine / Cluster Headache Therapy” class. That’s where you’ll find drugs that treat migraines.

## **B8. What if the drug I want to take isn’t on the Drug List?**

If you don’t find your drug on the *Drug List*, call Member Services at the number listed at the bottom of this page and ask about it. If you learn that our plan won’t cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the *Drug List* that’s like the one you want to take. **Or**
- Ask our plan to make an exception to cover your drug. Refer to questions B10–B12 for more information about exceptions.

## **B9. What if I'm a new plan member and can't find my drug on the Drug List or have a problem getting my drug?**

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you're a member of our plan. This will give you time to talk to your doctor or other prescriber. They can help you decide if there's a similar drug on the *Drug List* you can take instead or whether to ask for an exception.

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 30 days of medication.

We will cover a 30-day supply of your drug if:

- you're taking a drug that isn't on our *Drug List*, **or**
- our plan rules don't let you get the amount ordered by your prescriber, **or**
- the drug requires prior authorization by our plan, **or**
- you're taking a drug that's part of a step therapy restriction.

**If you have questions**, please call Wellcare Fidelis Dual Align (HMO D-SNP) Member Services at **1-866-892-8340 (TTY: 711)**. If you're in a nursing home or other long-term care facility and need a drug that isn't on the *Drug List* or if you can't easily get the drug you need, we can help. If you've been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- We'll cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you're a new plan member.
- This is in addition to the temporary supply during the first 90 days you're a member of our plan.

If you experience a level of care change (such as being discharged or admitted to a long-term care facility), your physician or pharmacy can call our Provider Service Center and request a one-time override. This one-time override will be up to a 30-day supply (unless you have a prescription written for fewer days).

## **B10. Can I ask for an exception to cover my drug?**

Yes. You can ask our plan to make an exception to cover a drug that isn't on the *Drug List*.

You can also ask us to change the rules on your drug.

- For example, our plan may limit the amount of a drug we'll cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior authorization requirements.

## **B11. How can I ask for an exception?**

To ask for an exception, call Member Services. A Member Services representative will work with you and your prescriber to help you ask for an exception. You can also read **Chapter 9** Section G of *Evidence of Coverage* to learn more about exceptions.

## **B12. How long does it take to get an exception?**

After we get a statement from your prescriber supporting your request for an exception, we'll give you a decision within 72 hours.

When requesting an exception, please provide the “supporting statement.” Your prescriber must give us a statement explaining the medical reasons for asking for an exception. (We call this the “supporting statement.”) Your prescriber can fax or mail the statement to us. Or your prescriber can tell us on the phone and follow up by faxing or mailing a written statement if necessary. We must accept any written request. An online form is available on our website at **<https://www.wellcare.com/drug-coverage-determination-request>** to submit electronically by you or your doctor or someone you have authorized to act on your behalf.

If your prescriber supports your request, we'll give you a decision within 24 hours of getting your prescriber's supporting statement.

### **B13. What are generic drugs?**

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and generally work just as well. They usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA). There are generic drugs available for many brand name drugs. Generic drugs usually can be substituted for brand name drugs at the pharmacy without a new prescription---depending on state laws.

Our plan covers both brand name drugs and generic drugs.

## **B14. What are original biological products and how are they related to biosimilars?**

When we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have forms that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For more information on drug types, refer to **Chapter 5** of the *Evidence of Coverage*.

## **B15. What are OTC drugs?**

OTC stands for “over-the-counter.” Our plan offers some OTC drugs through the NJ FamilyCare (Medicaid) portion of the plan’s coverage at no cost to you. You need a prescription for OTC drugs to be covered. These OTC drugs are listed in this *Drug List* in **Section C1**.

## **B16. Does our plan cover non-drug OTC products?**

Our plan covers **some** non-drug OTC products when they're written as prescriptions by your provider. These non-drug OTC products are listed in this *Drug List* in **Section C1**.

Examples of non-drug OTC products include spacers and respiratory therapy devices.

## **B17. Can I get my drugs through Mail-Order/Long-Term Supply?**

- **Mail-Order Program.** Yes, we offer a mail-order program that allows you to get a 35 to 100-day supply of your drugs sent directly to your home.
- **Long-Term Supply.** Yes, we offer a way to get a long-term supply of "maintenance" drugs on our plan's *Drug List*. (Maintenance drugs are drugs that you take on a regular basis, for a chronic or long-term medical condition.)

For more information about getting drugs through mail-order or long-term supply, call Member Services at the number listed at the bottom of this page.

## **B18. What's my copay?**

Our plan members have no copays for prescription and over-the-counter (OTC) drugs and non-drug products as long as the member follows the plan's rules. Refer to questions B15 and B16 for more information about OTC drugs and non-drug products.

Tiers are groups of drugs on our *Drug List*.

## C1. List of Drugs by Drug Type

The drugs in this section are grouped into categories by type. For example, if you're taking a medicine for migraines, you should look in the "Autonomic / CNS Drugs, Neurology / Psych" category, under the "Migraine / Cluster Headache Therapy" category. That's where you'll find drugs that treat migraines.

The first column of the table lists the name of the drug. Generic drugs are listed in lower-case italics (for example, *lisinopril oral tablet 10 mg*), brand name drugs are capitalized (for example, TRADJENTA ORAL TABLET 5 MG), and OTC drugs and non-drug products are listed in lower case (for example, loratadine 10mg). The information in the "Necessary actions, restrictions, or limits on use" column tells you if our plan has any rules for covering your drug.
