

Fertility Medications

Custom Premium Drug List – Closed Formulary

Most plans do not cover medications to improve or achieve fertility or treat infertility. If your plan provides coverage for fertility/infertility medications, they are typically covered at tier 1 (generics) or tier 3 (brands), or at a percentage (coinsurance plans). However, please consult the drug list for specific details. Certain medications may apply a different cost share. Medications are assigned to tiers based on their quality, value, and effectiveness.

To check coverage and copay information for a medication under your plan, visit azblue.com and log into MyBlue. If you do not have access to the website, call the Pharmacy Benefits number on the back of your member ID card.
