

Highmark Wholecare

2023 Medicaid Supplemental Formulary

INTRODUCTION

Highmark Wholecare follows the Pennsylvania Medical Assistance Statewide Preferred Drug List (PDL). Highmark Wholecare also offers drug coverage from classes not included on the Statewide PDL in the Supplemental Formulary. The Supplemental Formulary is a list of FDA-approved covered medications which have been reviewed and approved by the Highmark Wholecare Pharmacy and Therapeutics (P&T) Committee and the Pennsylvania Department of Human Services (DHS). The Highmark Wholecare P&T Committee is made up of actively participating network physicians, pharmacists and Medical Assistance (MA) program consumer representatives and selects products on the basis of their safety, efficacy, quality and cost to the plan.

Physicians are requested to prescribe medications included in the PDL/Supplemental Formulary whenever medically appropriate. Providers can contact Highmark Wholecare Pharmacy Services with any questions related to a member's prescription coverage limitations.

The Supplemental Formulary is divided into major therapeutic categories (chapters) for easy use. Products that are approved for more than one therapeutic indication may be included in more than one chapter. Covered drugs are listed in the first column under the Drug Name heading. The Notes column lists any additional requirements or limits.

The P&T Committee meets on a quarterly basis to review and revise the Supplemental Formulary. All providers (both participating pharmacies and physicians) are provided access to the Supplemental Formulary and are periodically notified of formulary updates.

Providers may request the addition of a medication to the Supplemental Formulary. Requests must include the drug name, rationale for inclusion on the formulary, role in therapy and formulary medications that may be replaced by the addition. The P&T Committee will review requests. All requests should be forwarded in writing to:

Highmark Wholecare - P&T Committee
Pharmacy Department
Four Gateway Center
444 Liberty Avenue
Suite 2100
Pittsburgh, PA 15222

The Supplemental Formulary is accessible online at www.HighmarkWholecare.com. It may be searched by drug name or drug class. Additional hard copies of the Supplemental Formulary may be printed directly from the website.

Questions about the Supplemental Formulary can be directed to:
Pharmacy Services Department at 1-800-392-1147 (TTY 711)

PHARMACY CO-PAYMENTS

Co-payments will apply to members 21 years of age and older. These co-payments do not apply to any member who is pregnant or in a nursing home. Please note, members cannot be denied a service if they are unable to pay their co-pay.

For members 21 years of age and older, the co-payment structure for drugs is as follows:

- \$1.00 for generic drugs
- \$3.00 for brand drugs
- Copays will apply to any approved prior authorization for a non-formulary drug
- Medications within the following specified therapeutic categories will be excluded from the copay requirements, which will be noted at the point of sale transaction:
 - Antipsychotics
 - Family Planning
 - Antidiabetic Agents, including Insulin
 - Antineoplastic Agents (Cancer medications)
 - Antiparkinson Agents
 - Antiglaucoma Agents
 - Antihypertensive Agents
 - Anticonvulsants
 - HIV/AIDS medications
 - Cardiovascular preparations (Antiarrhythmics, Antianginals, Anticoagulants, Lipid Lowering Agents)
 - Naloxone
 - Smoking cessation products
 - Influenza, Pneumonia and Zoster vaccines

SUPPLEMENTAL FORMULARY MEDICATION COVERAGE

- **Approved Medications**
Only FDA-approved medications are eligible for coverage.
- **Supplemental Formulary Drugs**
Supplemental Formulary drugs are those reviewed and recommended for inclusion in the Supplemental Formulary by the Highmark Wholecare P&T Committee. These drugs are selected based upon their safety, efficacy, quality

and cost. Physicians should use Supplemental Formulary drugs (or Statewide PDL drugs) when they believe it medically appropriate to do so.

- **Non-formulary Drugs**

A non-formulary drug is one that has not been recommended for inclusion in the Supplemental Formulary by the P&T Committee on the basis of safety, efficacy, quality and cost. Physicians are requested to comply with the Supplemental Formulary (and Statewide PDL) when prescribing medications for members when medically appropriate.

- **Request for Non-Formulary Drug Coverage**

A physician may request a non-formulary medication only if medical necessity or failure of formulary alternatives are documented by the physician on the Highmark Wholecare Medicaid Drug Exception Form. If changing to a Supplemental Formulary medication (or Statewide PDL medication) is not medically advisable for a patient, a physician must initiate a Request for Non-Formulary Drug Coverage by faxing the request form found on our website to: 1-888-245-2049 or by calling 1-800-392-1147 with all of the information requested on the form. All requests for exception will receive a response within 24 hours.

- **Prior Authorization**

Prior Authorization (prior approval) is necessary for coverage of certain medications. In these cases, clinical criteria, based on current medical information and approved by our P&T Committee and the Department of Human Services, must be met or additional information must be provided before coverage is approved. Prior authorizations can be submitted by calling Highmark Wholecare at 1-800-392-1147 and selecting option 2, by faxing a drug-specific prior authorization form to 1-888-245-2049, or by accessing the electronic prior authorization portal at www.covermy meds.com. Drug specific prior authorization forms are available at www.HighmarkWholecare.com. All requests for prior authorization will receive a response within 24 hours. Medications that require prior authorization are denoted by **PA** in the Supplemental Formulary.

- **Temporary Supplies**

In the event a member's prescription for a medication is not filled when a prescription is presented to the pharmacist due to a Prior Authorization requirement, Highmark Wholecare will authorize a temporary supply. For new therapies, up to a 5-day supply may be dispensed. If the member is currently taking a medication, it qualifies as ongoing. The pharmacist may dispense up to a 15-day supply for ongoing medications.

- **Generic Substitution**

When there is a generic version of a brand name drug available, Highmark Wholecare requires the use of the generic, except in the event that the brand

name product is preferred over its generic equivalent(s). The Statewide PDL and Supplemental Formulary will identify the situations where a brand product is preferred over its generic equivalent(s). Generic drugs are subject to specific reimbursement levels, such as Maximum Allowable Cost (MAC) price reimbursements. Drugs that are available in generic form will appear in **bold** in the Supplemental Formulary. Requests for “Brand Necessary” medications will be considered a non-formulary medication request and will require authorization. The Highmark Wholecare Medicaid Drug Exception Form must be submitted with sufficient documentation to substantiate medical necessity of the Brand Name medication. Physicians are encouraged to prescribe generic medications whenever clinically appropriate.

- **Quantity Limits**

For certain drugs, Highmark Wholecare has established quantity limits (limits on the amount of drug you can have filled). Quantity limits are put in place to ensure that you do not receive a quantity greater than the recommended limit (daily, monthly or yearly based on FDA recommendations) and to promote efficient drug dosing regimens. Prescriptions in excess of the covered quantity require a medical exception request from the prescribing physician. For example, Highmark Wholecare provides coverage for 60 tablets of leflunomide (generic Arava) 10mg every 30 days. Medications with quantity limits are denoted by **QL** in the Supplemental Formulary.

- **Once Daily Medications (Dose Optimization)**

Some medications are indicated to be taken as a once daily dose rather than several times throughout the day. In these situations, Highmark Wholecare will cover only the larger dose for 30 days. This is a type of quantity limit called dose optimization. For example, your physician writes you a prescription to take a 5mg tablet twice a day. If a 10mg tablet exists in that medication, Highmark Wholecare will cover this strength rather than two of the 5mg tablets. Should there be a medical explanation as to why you would need to take a lesser dose twice a day; your physician may call Highmark Wholecare at 1-800-392-1147 or fax 1-888-245-2049 to request an exception. These medications are denoted by **QL** in the Supplemental Formulary.

- **Step Therapy**

In some cases, Highmark Wholecare requires you to first try certain drugs to treat your medical condition before covering another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Highmark Wholecare may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Highmark Wholecare will then cover Drug B. Step therapy medications may also be requested through the prior authorization process. Drugs that require step therapy are denoted by **ST** in the Supplemental Formulary.

- **Specialty Pharmacy**

Some medications, including those that require special handling and some injectable medications, are only available through a specialty pharmacy network. These medications are denoted as **SPN** in the Supplemental Formulary. To find a participating specialty pharmacy or view the list of medications that must be obtained through a specialty pharmacy, use the Specialty Pharmacy Provider List and Specialty Drug List, which is located on our website at <https://highmarkwholecare.com/Medicaid/Member-Tools/Find-Medications/Specialty-Pharmacy>

If you have questions regarding the status of a particular pharmacy, please contact Member Services at 1-800-392-1147.

- **Compounded Prescriptions**

A claim for a compounded prescription should be submitted with all NDCs used in the compound. Only valid NDCs are permitted. The compound cost will automatically calculate based upon coverage of the submitted ingredients. Payment will only be made for FDA approved drugs and drugs not excluded from payment by Medical Assistance. A compounded medication may require prior authorization to determine medical necessity. Prior authorizations are processed by calling Highmark Wholecare at 1-800-392-1147 or physicians may complete a Medicaid Drug Exception Form by accessing the website at www.HighmarkWholecare.com. Physicians should fax the completed form to 1-888-245-2049 for processing. All requests will receive a response within 24 hours.

- **Over-the-counter (OTC) Medications**

Highmark Wholecare provides coverage for select OTC medications when written as a prescription. Please refer to the OTC product list referenced in this introduction for a listing of covered categories.

- **Medications Covered by Other Insurers (Coordination of Benefits and Third Party Liability)**

As an agent of the Commonwealth of Pennsylvania Medical Assistance Program, Highmark Wholecare is always the payer of last resort in the event that a member receives a medication that is covered by another payer source. The claim must be billed to the primary insurance, and subsequently billed online or submitted on a Universal Claim Form (UCF) to Highmark Wholecare for any outstanding balance.

- **Non-covered Drugs**

Non-covered drugs include the following categories:

- Drugs and other items prescribed for obesity or appetite control
- Over the counter drugs in the form of troches, lozenges, throat tablets, cough drops, chewing gum, mouthwashes and similar items

- Prescription and over the counter cough and cold products for members 21 years of age and older
- Pharmaceutical services provided to a hospitalized person
- Drugs and devices classified as experimental by the FDA or whose use is classified as experimental by the FDA
- Drugs and devices not approved by the FDA or whose use is not approved by the FDA
- Placebos
- Prescription and over the counter soaps, cleansing agents, dentifrices, mouthwashes, douche solutions, diluents, ear wax removal agents, deodorants, liniments, antiseptics, irrigants, emollients and other personal care items
- Durable Medical Equipment (DME) items (with the exception of preferred diabetic supplies, syringes, & lancets, inhaler spacers and masks, and condoms)
- Items prescribed or ordered by a physician who has been barred or suspended from participating in the Medical Assistance Program
- Prescriptions or orders filled by a pharmacy other than the one to which a recipient has been restricted
- DESI drugs and identical, similar or related products or combinations of these products
- FDA approved pharmaceutical products whose indicated use is not to treat or manage a medical condition, illness or disorder
- Prescription and over-the-counter pharmaceutical products distributed by a company that has not entered into a National rebate agreement with the Federal government
- Fertility promoting agents
- Erectile dysfunction drugs unless used for an FDA approved indication other than for the treatment of sexual or erectile dysfunction
- Agents prescribed for cosmetic purposes or approved by the FDA for cosmetic purposes only

PROVIDER IDENTIFIER

A valid prescriber NPI number is required when processing a prescription claim.

DAYS' SUPPLY DISPENSING LIMITATIONS

Members may receive up to a 34-day supply of a pharmaceutical product per prescription or refill. A 34-day supply shall be interpreted to mean consecutive 34-day supply, i.e., if a physician prescribes a medication b.i.d. (two times a day), a 34-day supply corresponds to a quantity of 68. The prescriber is urged to prescribe in amounts that adhere to FDA guidelines and accepted standards of care. The dispensing pharmacist must accurately calculate the days' supply.

A 90-day supply is available for select maintenance medications. These medications are designated as **90** in the Supplemental Formulary. View the complete list of medications covered for 90 days on our website at <https://highmarkwholecare.com/Provider/Pharmacy-Tools>

VACATION SUPPLIES

All requests for an early refill or a quantity in excess of a 34-day supply due to upcoming travel must be made by the prescribing physician. The physician must include the following in a request for a vacation supply of maintenance medication: your destination, your departure and return dates, any travel documentation including flight reservations or hotel confirmations, the dose, strength, frequency, and quantity of the medications that are being requested.

Medications being requested that have abuse potential will be reviewed on a case by case basis with the prescribing physician and Highmark Wholecare Clinical Pharmacist and/or Medical Director. In addition, members may get their prescriptions filled anywhere in the United States at a participating network pharmacy, potentially eliminating the need for a vacation override.

RECIPIENT RESTRICTION PROGRAM

Highmark Wholecare follows the DHS Recipient Restriction Program to detect and deter member overutilization and/or misutilization. This program restricts members to a single, designated Primary Care Physician (PCP) and/or one Pharmacy of the member's choice for a period of five years. Highmark Wholecare notifies the member's physician and pharmacy of choice of the member's restriction status. Our program interfaces with the DHS centralized Recipient Restriction program. This enables DHS to continue the restrictions for a five-year period across the Pennsylvania Medical Assistance Program. Please note: the restriction is not enforced in the case of an emergency. Please contact Highmark Wholecare for assistance if this situation occurs. If you suspect member misutilization and/or fraud and/or abuse please contact our Pharmacy Services Department at **1-800-392-1147** or our Fraud Hotline at **1-800-685-5235**. (TTY 711)

APPEALS AND COMPLAINTS

Highmark Wholecare members and providers have the right to appeal any denial made by the plan. Details regarding appeals, complaints, and grievances may be found in the Member Handbook or the Provider Manual. To request a Member or Provider Handbook, call 1-800-392-1147. Both manuals are available online at www.HighmarkWholecare.com.

PHARMACY BENEFIT INQUIRIES

Members or providers having questions regarding the pharmacy benefit, please call 1-800-392-1147. (TTY 711).

HIGHMARK WHOLECARE OTC COVERAGE

(FOR COVERAGE, DRUGS MUST BE WRITTEN AS A PRESCRIPTION)

This list includes OTC products outside the scope of the Statewide Preferred Drug List (PDL) and included on the Supplemental Formulary. Specific OTC drugs and classes listed below are examples and not inclusive of all covered products.

Analgesics

- Acetaminophen
- Acetaminophen combinations
- Aspirin
- Aspirin combinations

Dermatologicals/Topical Therapy

- Acne (salicylic acid)
- Anesthetics (benzocaine, dibucaine, pramoxine)
- Antibacterials (bacitracin)
- Dermatological baths (colloidal oatmeal)
- Fungicides (undecylenic acid, salicylic acid)
- Tar preparations (not including soaps and cleansing agents)
- Wet dressings (aluminum acetate)
- Scabicides/pediculicides (RID)

Endocrine/Diabetes

- Continuous Glucose Monitoring System (Freestyle Libre)
- Diabetic Supplies (insulin needles & syringes, lancets, alcohol swabs)

Gastroenterology

- Antacids
- Antidiarrheals (kaolin-pectin combinations, loperamide)
- Antiflatulents (simethicone)
- Laxatives and stool softeners (Miralax, Milk of Magnesia, bisacodyl, docusate)

Obstetrics & Gynecology

Contraceptives (condoms, contraceptive jellies, emergency contraceptives)

Ophthalmic Preparations

Ocular lubricants (polyvinyl alcohol or cellulose derivatives)

Decongestants (Visine)

Sodium chloride hypertonic

Respiratory, Allergy, Cough & Cold

Antihistamines (diphenhydramine)

Cough and cold products for members 20 years of age and younger

Nasal preparations (oxymetazoline, phenylephrine, saline)

Vitamins, Hematinics & Electrolytes

Vitamins

Calcium salts

Oral electrolyte mixtures

Medical Supplies
