ST Group	Product	Type	Step Order	Algorithm
AMANTADINE (GOCOVRI ER CAPSULE)	Amantadine HCl Capsule 100 MG Oral	ST applies	1	This prescription benefit provides coverage for Gocovri (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for immediate release amantadine. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
AMANTADINE (GOCOVRI ER CAPSULE)	Amantadine HCl Solution 50 MG/5ML Oral	ST applies	1	This prescription benefit provides coverage for Gocovri (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for immediate release amantadine. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
AMANTADINE (GOCOVRI ER CAPSULE)	Amantadine HCl Tablet 100 MG Oral	ST applies	1	This prescription benefit provides coverage for Gocovri (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for immediate release amantadine. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
AMANTADINE (GOCOVRI ER CAPSULE)	Gocovri Capsule Extended Release 24 Hour 137 MG Oral	ST applies	2	This prescription benefit provides coverage for Gocovri (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for immediate release amantadine. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
AMANTADINE (GOCOVRI ER CAPSULE)	Gocovri Capsule Extended Release 24 Hour 68.5 MG Oral	ST applies	2	This prescription benefit provides coverage for Gocovri (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for immediate release amantadine. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
ARIPIRAZOLE (OPIPZA)	ARIPrazole Solution 1 MG/ML Oral	ST applies to new starts only	1	This prescription benefit provides coverage for Opipza (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic aripiprazole. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
ARIPIRAZOLE (OPIPZA)	ARIPrazole Tablet 10 MG Oral	ST applies to new starts only	1	This prescription benefit provides coverage for Opipza (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic aripiprazole. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
ARIPIRAZOLE (OPIPZA)	ARIPrazole Tablet 15 MG Oral	ST applies to new starts only	1	This prescription benefit provides coverage for Opipza (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic aripiprazole. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
ARIPIRAZOLE (OPIPZA)	ARIPrazole Tablet 2 MG Oral	ST applies to new starts only	1	This prescription benefit provides coverage for Opipza (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic aripiprazole. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
ARIPIRAZOLE (OPIPZA)	ARIPrazole Tablet 20 MG Oral	ST applies to new starts only	1	This prescription benefit provides coverage for Opipza (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic aripiprazole. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.

ST Group	Product	Type	Step Order	Algorithm
ARIPIPRAZOLE (OPIPZA)	ARIPiprazole Tablet 30 MG Oral	ST applies to new starts only	1	This prescription benefit provides coverage for Opienza (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic aripiprazole. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
ARIPIPRAZOLE (OPIPZA)	ARIPiprazole Tablet 5 MG Oral	ST applies to new starts only	1	This prescription benefit provides coverage for Opienza (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic aripiprazole. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
ARIPIPRAZOLE (OPIPZA)	ARIPiprazole Tablet Dispersible 10 MG Oral	ST applies to new starts only	1	This prescription benefit provides coverage for Opienza (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic aripiprazole. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
ARIPIPRAZOLE (OPIPZA)	ARIPiprazole Tablet Dispersible 15 MG Oral	ST applies to new starts only	1	This prescription benefit provides coverage for Opienza (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic aripiprazole. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
ARIPIPRAZOLE (OPIPZA)	Opienza Film 10 MG Oral	ST applies to new starts only	2	This prescription benefit provides coverage for Opienza (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic aripiprazole. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
ARIPIPRAZOLE (OPIPZA)	Opienza Film 2 MG Oral	ST applies to new starts only	2	This prescription benefit provides coverage for Opienza (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic aripiprazole. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
ARIPIPRAZOLE (OPIPZA)	Opienza Film 5 MG Oral	ST applies to new starts only	2	This prescription benefit provides coverage for Opienza (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic aripiprazole. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
CHENODIOL (CHENODAL)	Ursodiol Capsule 300 MG Oral	ST applies	1	This prescription benefit provides coverage for Chenodiol (Chenodal) (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for ursodiol. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
CHENODIOL (CHENODAL)	Ursodiol Tablet 250 MG Oral	ST applies	1	This prescription benefit provides coverage for Chenodiol (Chenodal) (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for ursodiol. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
CHENODIOL (CHENODAL)	Ursodiol Tablet 500 MG Oral	ST applies	1	This prescription benefit provides coverage for Chenodiol (Chenodal) (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for ursodiol. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
CHENODIOL (CHENODAL)	Chenodal Tablet 250 MG Oral	ST applies	2	This prescription benefit provides coverage for Chenodiol (Chenodal) (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for ursodiol. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.

ST Group	Product	Type	Step Order	Algorithm
ESOMEPRAZOLE	Esomeprazole Magnesium Capsule Delayed Release 20 MG Oral	ST applies	2	This prescription benefit provides coverage for esomeprazole (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for 2 formulary PPI's such as omeprazole, pantoprazole, lansoprazole, rabeprazole. Benefit coverage for situations in which none or one of the above qualifications exist in history is determined through the exception review process.
ESOMEPRAZOLE	Esomeprazole Magnesium Capsule Delayed Release 40 MG Oral	ST applies	2	This prescription benefit provides coverage for esomeprazole (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for 2 formulary PPI's such as omeprazole, pantoprazole, lansoprazole, rabeprazole. Benefit coverage for situations in which none or one of the above qualifications exist in history is determined through the exception review process.
FEBUXOSTAT (ULORIC)	Allopurinol Tablet 100 MG Oral	ST applies	1	This prescription benefit provides coverage for Febuxostat (Uloric) (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for Allopurinol. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
FEBUXOSTAT (ULORIC)	Allopurinol Tablet 300 MG Oral	ST applies	1	This prescription benefit provides coverage for Febuxostat (Uloric) (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for Allopurinol. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
FEBUXOSTAT (ULORIC)	Febuxostat Tablet 40 MG Oral	ST applies	2	This prescription benefit provides coverage for Febuxostat (Uloric) (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for Allopurinol. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
FEBUXOSTAT (ULORIC)	Febuxostat Tablet 80 MG Oral	ST applies	2	This prescription benefit provides coverage for Febuxostat (Uloric) (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for Allopurinol. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
FIDAXOMICIN (DIFICID)	Vancomycin HCl Capsule 125 MG Oral	ST applies	1	This prescription benefit provides coverage for Dificid (fidaxomicin) (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for oral vancomycin. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
FIDAXOMICIN (DIFICID)	Vancomycin HCl Capsule 250 MG Oral	ST applies	1	This prescription benefit provides coverage for Dificid (fidaxomicin) (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for oral vancomycin. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
FIDAXOMICIN (DIFICID)	Dificid Suspension Reconstituted 40 MG/ML Oral	ST applies	2	This prescription benefit provides coverage for Dificid (fidaxomicin) (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for oral vancomycin. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
FIDAXOMICIN (DIFICID)	Dificid Tablet 200 MG Oral	ST applies	2	This prescription benefit provides coverage for Dificid (fidaxomicin) (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for oral vancomycin. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
LACOSAMIDE (MOTPOLY XR) CAPSULE	Lacosamide Solution 10 MG/ML Oral	ST applies to new starts only	1	This prescription benefit provides coverage for lacosamide (Motpoly XR capsule (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic lacosamide. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.

ST Group	Product	Type	Step Order	Algorithm
LACOSAMIDE (MOTPOLY XR) CAPSULE	Lacosamide Solution 100 MG/10ML Oral	ST applies to new starts only	1	This prescription benefit provides coverage for lacosamide (Motpoly XR capsule (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic lacosamide. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
LACOSAMIDE (MOTPOLY XR) CAPSULE	Lacosamide Solution 50 MG/5ML Oral	ST applies to new starts only	1	This prescription benefit provides coverage for lacosamide (Motpoly XR capsule (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic lacosamide. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
LACOSAMIDE (MOTPOLY XR) CAPSULE	Lacosamide Tablet 100 MG Oral	ST applies to new starts only	1	This prescription benefit provides coverage for lacosamide (Motpoly XR capsule (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic lacosamide. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
LACOSAMIDE (MOTPOLY XR) CAPSULE	Lacosamide Tablet 150 MG Oral	ST applies to new starts only	1	This prescription benefit provides coverage for lacosamide (Motpoly XR capsule (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic lacosamide. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
LACOSAMIDE (MOTPOLY XR) CAPSULE	Lacosamide Tablet 200 MG Oral	ST applies to new starts only	1	This prescription benefit provides coverage for lacosamide (Motpoly XR capsule (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic lacosamide. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
LACOSAMIDE (MOTPOLY XR) CAPSULE	Lacosamide Tablet 50 MG Oral	ST applies to new starts only	1	This prescription benefit provides coverage for lacosamide (Motpoly XR capsule (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic lacosamide. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
LACOSAMIDE (MOTPOLY XR) CAPSULE	Motpoly XR Capsule Extended Release 24 Hour 100 MG Oral	ST applies to new starts only	2	This prescription benefit provides coverage for lacosamide (Motpoly XR capsule (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic lacosamide. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
LACOSAMIDE (MOTPOLY XR) CAPSULE	Motpoly XR Capsule Extended Release 24 Hour 150 MG Oral	ST applies to new starts only	2	This prescription benefit provides coverage for lacosamide (Motpoly XR capsule (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic lacosamide. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
LACOSAMIDE (MOTPOLY XR) CAPSULE	Motpoly XR Capsule Extended Release 24 Hour 200 MG Oral	ST applies to new starts only	2	This prescription benefit provides coverage for lacosamide (Motpoly XR capsule (without requiring a coverage review process) in situations where the member has paid claims history during the prior 12 months for generic lacosamide. Benefit coverage for situations in which none of the above qualifications exist in history is determined through the exception review process.
