

Dose Optimization

Override(s)	Approval Duration
Prior Authorization	Approval Duration if dose is being titrated: 3 months Approval Duration for all other approval criteria: 1 year

APPROVAL CRITERIA

Requests for multiple doses of lower strength medications may be approved based on the following criteria:

- I. Individual is intolerant to the recommended drug regimen due to adverse side effects; **OR**
- II. Individual did not achieve desired results with the recommended drug regimen; **OR**
- III. The requested dose cannot be consolidated using a higher strength tablet/capsule; **OR**
- IV. Individual's dose is being titrated; **OR**
- V. Individual cannot use the recommended dosage forms (such as, unable to swallow tablets)

Requests will be approved up to the recommended maximum daily dosing limit that is supported by the FDA for the approved indication. Requests for quantities greater than the maximum daily dose will be reviewed for medical necessity.
