Changes coming to your plan's pharmacy drug lists

There will be changes to the **Standard Opt Out Plan-Aetna** drug list that applies to your plan starting on **April 1, 2021**. It's important that you review the changes in the chart below. Talk to your health care provider about how these changes might impact you.

What if I need a prescription drug that requires a medical exception?

You or your prescriber can request a medical exception to the changes in this letter. If you would like to ask for an exception, talk with your prescriber. Or, you can call us at the toll-free number on your Member ID card.

We'll contact you and your prescriber with our decision. If we approve your exception, you will pay your plan copay or cost-share. But first you must meet any deductible or out-of-pocket requirements of your pharmacy plan.

How to find a preferred medicine that's right for you

You can visit the website that's shown on your member ID card. Then log in to your account. To better understand how your plan's pharmacy benefits work, call us at the number on your member ID card.

Aetna is the brand name used for products and services provided by one or more of the Aetna group of subsidiary companies, including Aetna Life Insurance Company, and its affiliates (Aetna).

Some health benefits and health insurance plans are offered, administered and/or underwritten by Aetna Health Inc., 151 Farmington Avenue, Hartford, CT 06156. Each insurer has sole financial responsibility for its own products.

Not all health services are covered. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change.

Aetna receives rebates from drug manufacturers that may be taken into account in determining drug lists. Information is subject to change. The drugs on the Pharmacy Drug Guide (formulary), Formulary Exclusions, Precertification, Quantity Limit and Step Therapy Lists are subject to change. In certain states, including Arkansas, Colorado, Connecticut, Delaware, Georgia, Illinois, Louisiana, Maryland, Minnesota, North Dakota, Pennsylvania and Texas, step therapy programs do not apply to fully insured members utilizing prescription drugs for the treatment of stage-four advanced, metastatic cancer.

In accordance with state law, commercial fully insured (including HMO) members in Louisiana and Texas (except Federal Employee Health Benefit Plan members) who are receiving coverage for drugs that are added or removed from the Pharmacy Drug Guide and Specialty Drug List will continue to have those drugs covered at the same benefit level until their plan's renewal date. In Texas, preauthorization approval is known as "preservice utilization review." It is not "verification" as defined by Texas law. Preauthorization means a determination that healthcare services proposed to be provided to a patient are medically necessary and appropriate.

In accordance with state law, certain fully insured commercial California members (except Federal Employee Health Benefit Plan members) who obtained approval from an Aetna plan for coverage of drugs that are later added to the Preauthorization or Step Therapy Lists or removed from the Pharmacy Drug Guide will continue to have those drugs covered, for as long as the treating in-network provider continues prescribing them, provided that the drug is appropriately prescribed and is considered safe and effective for treating the enrollee's medical condition. Aetna reserves the right to periodically request clinical information from your provider to assess your medical condition and the appropriateness of your ongoing treatment. Failure to provide clinical information could result in subsequent denial of coverage for this medication.

In accordance with state law, fully insured commercial Connecticut preferred provider organization (PPO) members (except Federal Employee Health Benefit Plan members) covered under a policy and using a drug for treatment of a chronic illness prior to the drug's removal from the Pharmacy Drug Guide will continue to have the medication covered, provided the prescriber states in writing that the drug is medically necessary and more medically beneficial than other covered drugs. Nothing in this section shall preclude the prescribing provider from prescribing another drug covered by the plan that is medically appropriate for the enrollee, nor shall anything in this section be construed to prohibit generic drug substitutions.

This material is for information only. It contains only a partial, general description of plan benefits or programs and does not constitute a contract. Aetna is part of the CVS Health family of companies.
