Prior Authorization Criteria

Pulmozyme (dornase alfa)

All requests for Pulmozyme (dornase alfa) require a prior authorization and will be screened for medical necessity and appropriateness using the criteria listed below.

Coverage may be provided with a diagnosis of Cystic Fibrosis and the following criteria is met:

- Must be 3 months of age or older
- Must be prescribed by or in association with a pulmonologist or cystic fibrosis specialist
- Will be used in conjunction with standard cystic fibrosis therapies [e.g. oral, inhaled, and/or parenteral antibiotics; inhaled hypertonic saline; chest physiotherapy; bronchodilators; enzyme supplements/vitamins; oral or inhaled corticosteroids; other anti-inflammatory therapy (e.g. ibuprofen)]
- The requested dose and frequency is in accordance with FDA-approved labeling, nationally recognized compendia, and/or evidence-based practice guidelines.
- **Initial Duration of Approval:** 12 months
- **Reauthorization criteria**
  - Member is receiving clinical benefit based on the prescriber's assessment
- **Reauthorization Duration of Approval:** 12 months

Coverage may be provided for any non-FDA labeled indication if it is determined that the use is a medically accepted indication supported by nationally recognized pharmacy compendia or peer-reviewed medical literature for treatment of the diagnosis(es) for which it is prescribed. These requests will be reviewed on a case by case basis to determine medical necessity.

When criteria are not met, the request will be forwarded to a Medical Director for review. The physician reviewer must override criteria when, in their professional judgment, the requested medication is medically necessary.
