Request for Prior Authorization for Hyperkalemia Agents
Website Form – www.highmarkhealthoptions.com
Submit request via: Fax - 1-855-476-4158

All requests for Hyperkalemia Agents require a prior authorization and will be screened for medical necessity and appropriateness using the criteria listed below.

Hyperkalemia Agents Prior Authorization Criteria:

Coverage may be provided with a diagnosis of hyperkalemia and the following criteria is met:

- The member is age appropriate according to FDA-approved package labeling, nationally recognized compendia, or peer-reviewed medical literature
- For non-preferred agents, must have a therapeutic failure, contraindication, or intolerance to the preferred agent(s) approved or medically accepted for the member's diagnosis
- Treatment is prescribed by, or in consultation with, a cardiologist or nephrologist
- There is documentation of recent laboratory values consistent with a diagnosis of hyperkalemia as evidenced by serum potassium levels at or above the upper limit of the normal reference range of the specific laboratory facility
- Will not be used as emergency treatment for life-threatening hyperkalemia
- Member must follow a low potassium diet (less than or equal to 3 grams per day)
- Provider has tried all of the following drug therapy modifications, as applicable, in an effort to address modifiable factors that may contribute to or cause hyperkalemia:
 - Member is taking no more than one medication from the following classes at one time:
 - Angiotensin converting enzyme (ACE) inhibitor
 - Angiotensin II receptor blocker (ARB)
 - Dose-reduction or discontinuation of medication(s) known to cause hyperkalemia
- Must provide documentation showing the member has tried and failed (which will be verified via pharmacy claims if available) or had an intolerance or contraindication to a loop or thiazide diuretic
- The requested dose and frequency is in accordance with FDA-approved labeling, nationally recognized compendia, and/or evidence-based practice guidelines
- **Initial Duration of Approval:** 3 months
- **Reauthorization criteria**
 - Must provide documentation that member's potassium level have normalized or decreased from baseline
 - Provider agrees to adjust the dosing based on the serum potassium level and desired target range
- **Reauthorization Duration of Approval:** 12 months

Coverage may be provided for any non-FDA labeled indication if it is determined that the use is a medically accepted indication supported by nationally recognized pharmacy compendia or peer-reviewed medical literature for treatment of the diagnosis(es) for which it is prescribed. These requests will be reviewed on a case by case basis to determine medical necessity.

REQUESTED DRUG INFORMATION

Product: <input type="checkbox"/> Veltassa 8.4 gm powder packet	<input type="checkbox"/> Veltassa 25.2 gm powder packet	
<input type="checkbox"/> Veltassa 16.8 gm powder packet		
Product: <input type="checkbox"/> Lokelma 5gm powder packet	<input type="checkbox"/> Lokelma 10gm powder packet	
Directions:	Quantity:	Refills:
Is the patient currently receiving requested medication? <input type="checkbox"/> Yes <input type="checkbox"/> No	Date Medication Initiated:	
Is this medication being used for a chronic or long-term condition for which the medication may be necessary for the life of the patient? <input type="checkbox"/> Yes <input type="checkbox"/> No		

MEDICAL HISTORY

What is the patient's diagnosis? Hyperkalemia Other (please specify): _____

Please provide the most recent serum potassium levels and include the normal reference range.

Potassium (with reference range): _____ **Date taken:** _____

Has the provider tried *all of the following* drug therapy modifications, as applicable, in an effort to address modifiable factors that may contribute to or cause hyperkalemia?

- Discontinuation of potassium supplements Yes No N/A
- ARB/ACE inhibitor have been discontinued Yes No N/A
 - If ARB/ACE inhibitors are still being used, is therapy limited to one agent? Yes No
- NSAIDs have been discontinued Yes No N/A
- Dose-reduction or discontinuation of medications known to cause hyperkalemia Yes No N/A

Has the member tried using a loop or thiazide diuretic? Yes No

If no, please provide rationale: _____

Will the member follow a low potassium diet (less than or equal to 3 grams per day)? Yes No
