I. Requirements for Prior Authorization of Bladder Relaxant Preparations

A. Prescriptions That Require Prior Authorization

Prescriptions for Bladder Relaxant Preparations that meet any of the following conditions must be prior authorized:

1. A non-preferred Bladder Relaxant Preparation. See the Preferred Drug List (PDL) for the list of preferred Bladder Relaxant Preparations at: https://papdl.com/preferred-drug-list.
2. A urinary antispasmodic Bladder Relaxant Preparation when there is a record of a recent paid claim for another urinary antispasmodic Bladder Relaxant Preparation (therapeutic duplication).
3. A urinary beta-3 agonist Bladder Relaxant Preparation when there is a record of a recent paid claim for another urinary beta-3 agonist Bladder Relaxant Preparation (therapeutic duplication).

B. Review of Documentation for Medical Necessity

In evaluating a request for prior authorization of a prescription for a Bladder Relaxant Preparation, the determination of whether the requested prescription is medically necessary will take into account whether the beneficiary:

1. For a non-preferred Bladder Relaxant Preparation, has a history of therapeutic failure, contraindication, or intolerance of the preferred Bladder Relaxant Preparations; **AND**
2. For therapeutic duplication, **one** of the following:
    a. For a urinary antispasmodic Bladder Relaxant Preparation, is being titrated to or tapered from another urinary antispasmodic Bladder Relaxant Preparation,
    b. For a urinary beta-3 agonist Bladder Relaxant Preparation, is being titrated to or tapered from another urinary beta-3 agonist Bladder Relaxant Preparation,
    c. Has a medical reason for concomitant use of the requested medications that is supported by peer-reviewed literature or national treatment guidelines;

NOTE: If the beneficiary does not meet the clinical review guidelines above but, in the professional judgement of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary, the request for prior authorization will be approved.

C. Clinical Review Process

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section B. above to assess the medical necessity of a prescription for a Bladder Relaxant Preparation. If the guidelines in Section B. are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior authorization will be approved when, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary.
