Request for Prior Authorization for Myalept
Website Form – www.highmarkhealthoptions.com
Submit request via: Fax - 1-855-476-4158

All requests for Myalept (metreleptin) require a Prior Authorization and will be screened for medical necessity and appropriateness using the criteria listed below.

Prior Authorization Criteria:

Coverage may be provided with a diagnosis of congenital or acquired generalized lipodystrophy associated with leptin deficiency and the following criteria is met:

- Must be prescribed by or in consultation with an endocrinologist.
- Member must have leptin deficiency
- Member must have documentation of ONE of the following:
    - Diagnosis of uncontrolled diabetes mellitus or insulin resistance with persistent hyperglycemia (HbA1C greater than or equal to 6.5%) despite treatment with BOTH of the following:
        - Dietary intervention
        - Optimized insulin therapy at maximized tolerated doses.
    - Diagnosis of uncontrolled hypertriglyceridemia (TG> 200 mg/dL) despite treatment with BOTH of the following:
        - Dietary intervention
        - Optimized therapy with at least two triglyceride-lowering agents from different classes (e.g. fibrates, statins) at maximally tolerated doses.
- Medication must be used as an adjunct to diet modification.
- The requested dose and frequency is in accordance with FDA-approved labeling, nationally recognized compendia, and/or evidence-based practice guidelines
- **Initial Duration of Approval:** 12 months
- **Reauthorization criteria**
    - Evidence of positive clinical response and/or stabilization of laboratory parameters provided in initial authorization (i.e. fasting triglyceride concentrations, and/or HbA1c).
- **Reauthorization Duration of Approval:** 12 months

Coverage may be provided for any non-FDA labeled indication if it is determined that the use is a medically accepted indication supported by nationally recognized pharmacy compendia or peer-reviewed medical literature for treatment of the diagnosis(es) for which it is prescribed. These requests will be reviewed on a case by case basis to determine medical necessity.

Drugs are authorized in generic form unless the branded product is on the preferred drug list or the prescriber has indicated in writing that the branded product is medically necessary. If only the branded product is on the preferred drug list, the generic form will be considered non-preferred and shall not require the prescriber to indicate in writing that the branded product is medically necessary.
