I. Requirements for Prior Authorization of Anticoagulants

A. Prescriptions That Require Prior Authorization

Prescriptions for Anticoagulants that meet any of the following conditions must be prior authorized:

1. A non-preferred Anticoagulant. See the Preferred Drug List (PDL) for the list of preferred Anticoagulants at: https://papdl.com/preferred-drug-list.
2. An oral Anticoagulant when there is a record of a recent paid claim for another oral Anticoagulant (therapeutic duplication).
3. An injectable Anticoagulant when there is a record of a recent paid claim for another injectable Anticoagulant (therapeutic duplication).

B. Review of Documentation for Medical Necessity

In evaluating a request for prior authorization of a prescription for an Anticoagulant, the determination of whether the requested prescription is medically necessary will take into account whether the beneficiary:

1. For a non-preferred Anticoagulant, has a history of therapeutic failure, contraindication, or intolerance of the preferred Anticoagulants approved or medically accepted for the beneficiary's diagnosis or indication; **AND**

2. Is prescribed a dose and duration of therapy that is consistent with FDA-approved package labeling, nationally recognized compendia, or peer-reviewed medical literature; **AND**

3. Does not have a history of a contraindication to the prescribed medication; **AND**

4. For therapeutic duplication, **one** of the following:
   a. For an oral Anticoagulant, is being titrated to or tapered from another oral Anticoagulant,
   b. For an injectable Anticoagulant, is being titrated to or tapered from another injectable Anticoagulant,
   c. Has a clinical reason for concomitant use of the requested medications that is supported by peer-reviewed literature or national treatment guidelines;

NOTE: If the beneficiary does not meet the clinical review guidelines listed above but, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary, the request for prior authorization will be approved.

C. Clinical Review Process

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section B. above to assess the medical necessity of a prescription for an Anticoagulant. If the guidelines in Section B. are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior authorization will be approved when, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary.
