Request for Prior Authorization for Systemic lupus erythematosus (SLE) Agents
Website Form – www.highmarkhealthoptions.com
Submit request via: Fax - 1-855-476-4158

All requests for Systemic lupus erythematosus (SLE) Agents require a Prior Authorization and will be screened for medical necessity and appropriateness using the criteria listed below.

Systemic lupus erythematosus (SLE) Agents Prior Authorization Criteria:

*Systemic Lupus Erythematosus Agents include Benlysta (belimumab) and Saphnelo (anifrolumab-fnia). New products with this classification will require the same documentation.

For all requests for SLE Agents, all of the following criteria must be met:

- The member has a clinical diagnosis of SLE according to American College of Rheumatology classification criteria
- Must be prescribed by or in consultation with a rheumatologist or hematologist
- Must not have severe active central nervous system (CNS) lupus
 - Additionally for Saphnelo, must not have lupus nephritis
- Must be currently taking or has tried and failed or had an intolerance or contraindication to at least one standard therapy for systemic lupus erythematosus (e.g. corticosteroids, antimalarials or immunosuppressives) or lupus nephritis (e.g. corticosteroids, mycophenolate, cyclophosphamide, azathioprine)
- The requested dose and frequency is in accordance with FDA-approved labeling, nationally recognized compendia, and/or evidence-based practice guidelines.
- The member will not be using the requested agent in combination with another biologic agent, IV cyclophosphamide
 - Saphnelo may not be used in combination with Benlysta

Benlysta (belimumab) only:

Coverage may be provided with a diagnosis of active SLE and the following criteria is met:

- The member is 5 years of age or older
- The member's disease is active as evidenced by a SELENA-SLEDAI score of 6 or greater prior to initiation of therapy
- Must be autoantibody-positive confirmed by documentation of one of the following:
 - anti-nuclear antibody (ANA) titer \geq 1:80
 - anti-double stranded DNA (anti-dsDNA) \geq 30 IU/mL
- **Initial Duration of Approval:** 12 months
- **Reauthorization Criteria:** chart documentation demonstrating clinical benefit and tolerance.
- **Reauthorization Duration of Approval:** 12 months

Coverage may be provided with a diagnosis of active lupus nephritis and the following criteria is met:

- The member is 18 years of age or older
- The member has a biopsy-proved lupus nephritis Class III, IV and/or V
- **Initial Duration of Approval:** 12 months
- **Reauthorization Criteria:** chart documentation demonstrating clinical benefit and tolerance.

- **Reauthorization Duration of Approval:** 12 months

Saphnelo (anifrolumab-fnia) only:

Coverage may be provided with a diagnosis of moderate to severe systemic lupus erythematosus and the following criteria is met:

- The member is 18 years of age or older
- The member's disease is active as evidenced by a SELENA-SLEDAI score of 6 or greater prior to initiation of therapy
- Documented laboratory testing showing the presence of autoantibodies [e.g., ANA, Anti-dsDNA, Anti-Sm, Anti-Ro/SSA, Anti-La/SSB]
- **Initial Duration of Approval:** 12 months.
- **Reauthorization Criteria:** Chart documentation demonstrating clinical benefit and tolerance.
- **Reauthorization Duration of Approval:** 12 months

Coverage may be provided for any non-FDA labeled indication if it is determined that the use is a medically accepted indication supported by nationally recognized pharmacy compendia or peer-reviewed medical literature for treatment of the diagnosis(es) for which it is prescribed. These requests will be reviewed on a case by case basis to determine medical necessity.

Drugs are authorized in generic form unless the branded product is on the preferred drug list or the prescriber has indicated in writing that the branded product is medically necessary. If only the branded product is on the preferred drug list, the generic form will be considered non-preferred and shall not require the prescriber to indicate in writing that the branded product is medically necessary.

MEDICAL HISTORY (Complete for ALL requests)

Diagnosis: Systemic lupus erythematosus Lupus nephritis Other:
ICD-10: _____

Does the member have a clinical diagnosis of SLE according to the American College of Rheumatology classification criteria? Yes No

Does the member have any contraindications, such as severe active central nervous system (CNS) lupus, to the requested medication? Yes No

Does the member have active disease? Yes No

➤ Please provide member's baseline SELENA-SLEDAI score: _____

Is the anti-nuclear antibody (ANA) titer \geq 1:80? Yes No

Is the anti-double stranded DNA (anti-dsDNA) \geq 30 IU/mL? Yes No

If applicable, is there laboratory testing showing the presence of autoantibodies? Yes No

Has the member tried and failed, have an intolerance or contraindication to standard of care medications for SLE or lupus nephritis? Yes, please list below No

Will the member be using other biologics or IV cyclophosphamide in combination with this medication? Yes No

Additionally, for lupus nephritis only:

Does the member have a biopsy-proved lupus nephritis Class III, IV and/or V? Yes No

CURRENT or PREVIOUS THERAPY

Medication Name	Strength/ Frequency	Dates of Therapy	Status (Discontinued & Why/Current)

REAUTHORIZATION

Has the member tolerated and experienced a clinical benefit from treatment? Yes No
