

Request for Prior Authorization for Obesity Treatment Agents
Website Form – www.highmarkhealthoptions.com
Submit request via: Fax - 1-855-476-4158

All requests for Obesity Treatment Agents require a Prior Authorization and will be screened for medical necessity and appropriateness using the criteria listed below.

Obesity Treatment Agents Prior Authorization Criteria:

Obesity Treatment Agents include Adipex-P (phentermine), benzphetamine (previously known as Didrex or Regimax), Bontril PDM (phendimetrazine), Contrave (bupropion/naltrexone), diethylpropion, Lomaira (phentermine), phendimetrazine ER, and Xenical (orlistat). New products with this classification will require the same documentation.

******* For a request for a drug containing a glucagon-like peptide-1 (GLP-1) receptor agonist, see the prior authorization guidelines related to GLP-1 Receptor Agonists: CP-206.380-MD-DE GLP-1 Receptor Agonist including requests for Metabolic Dysfunction– Associated Steatohepatitis (MASH) *******

For all requests, the following criteria must be met in addition to the specific criteria below:

- For non-preferred agents, must have a therapeutic failure, contraindication, or intolerance to the preferred agent(s) FDA-approved or medically accepted for the intended use.
- Is prescribed for an FDA-approved or medically accepted indication
- The requested dose and frequency is in accordance with FDA-approved labeling, nationally recognized compendia, and/or evidence-based practice guidelines
- Must be age-appropriate according to FDA-approved labeling, nationally recognized compendia, or evidence-based practice guidelines

Coverage **for weight reduction** may be provided when the following criteria are met:

- For members 18 years of age or older, must meet ONE of the following:
 - has a BMI of 30 kg/m² or greater
 - has a BMI of 27-29 kg/m² AND one of the following co-morbid conditions:
 - Diabetes Mellitus
 - Hypertension
 - Hyperlipidemia
 - Coronary Artery Disease (Heart Bypass surgery, CABG, history of a myocardial infarction MI, history of stroke, angina)
 - Obstructive sleep apnea
- For members under 18 years old, has a BMI ≥ 95th percentile for age and sex based on the current CDC charts
- The prescriber attests to the following:
 - Member is actively involved in a dietary/behavior modification program for weight loss.
 - Member is actively following a fitness exercise regimen
- Members cannot obtain another obesity treatment agent for at least 30 days.

- **Initial Duration of Approval:** 6 months
- **Reauthorization Criteria:**
 - Documentation of member's current weight since initiating therapy.
 - Must lose at least 5% of their initial starting weight within the initial approval request as documented by their physician.
 - Must continue to implement diet and exercise into their weight loss plan.
 - If the member fails to maintain at least a 5% weight reduction from baseline, the request will be denied.
- **Reauthorization Duration of Approval:** 6 months

Coverage may be provided for any non-FDA labeled indication if it is determined that the use is a medically accepted indication supported by nationally recognized pharmacy compendia or peer-reviewed medical literature for treatment of the diagnosis(es) for which it is prescribed. These requests will be reviewed on a case by case basis to determine medical necessity.

Drugs are authorized in generic form unless the branded product is on the preferred drug list or the prescriber has indicated in writing that the branded product is medically necessary. If only the branded product is on the preferred drug list, the generic form will be considered non-preferred and shall not require the prescriber to indicate in writing that the branded product is medically necessary.

**OBESITY TREATMENT AGENTS
PRIOR AUTHORIZATION FORM**
