

# 2026 Alternative Covered Drugs

## WELLCARE HAS YOU COVERED FOR YOUR PRESCRIPTION DRUG NEEDS.

We strive to cover the most common drugs across all disease states. Below are some common drugs not covered by the plan, along with alternative drugs that are covered. If you are currently on a drug that is not covered, please check our plan's *formulary* (drug list) to see which alternative drugs are covered. Talk to your provider to see if the formulary alternatives listed below would work for you.

Generics, authorized generics, and biosimilars listed in the table below with the \*\* symbol have the same active ingredients as the drug not covered on the formulary. If you have an active prescription for a drug not covered, talk to your provider or pharmacist about getting the drug listed with \*\* without a new prescription.
