

I. Requirements for Prior Authorization of GI Motility, Chronic Agents**A. Prescriptions That Require Prior Authorization**

All prescriptions for GI Motility, Chronic Agents must be prior authorized.

B. Review of Documentation for Medical Necessity

In evaluating a request for prior authorization of a prescription for a GI Motility, Chronic Agent, the determination of whether the requested prescription is medically necessary will take into account whether the beneficiary:

1. Is being treated for a diagnosis that is indicated in the U.S. Food and Drug Administration (FDA)-approved package labeling OR a medically accepted indication; **AND**
2. Is age-appropriate according to FDA-approved package labeling, nationally recognized compendia, or peer-reviewed medical literature; **AND**
3. Is prescribed a dose that is consistent with FDA-approved package labeling, nationally recognized compendia, or peer-reviewed medical literature; **AND**
4. Had all potential drug interactions addressed by the prescriber (such as discontinuation of the interacting drug, dose reduction of the interacting drug, or counseling of the beneficiary of the risks associated with the use of both medications when they interact); **AND**
5. Does not have a history of a contraindication to the prescribed medication; **AND**
6. **One** of the following:
 - a. For an agent indicated for treatment of a diagnosis involving constipation, has a documented history of therapeutic failure, contraindication, or intolerance of **all** of the following:
 - i. Laxatives,
 - ii. Fiber supplementation,
 - iii. Osmotic agents,
 - iv. Bulk forming agents,
 - v. Glycerin or bisacodyl suppositories
 - b. For an agent indicated for treatment of a diagnosis involving diarrhea, **all** of the following:
 - i. Has a documented history of therapeutic failure, contraindication, or intolerance of **both** of the following:
 - a) Loperamide
 - b) A bile acid sequestrant,
 - ii. Has a documented history of therapeutic failure of **both** of the following:

- a) Lactose, gluten, and artificial sweetener avoidance
 - b) A low fermentable oligo-, di-, and monosaccharides and polyols (FODMAP) diet,
- iii. Is prescribed the requested medication by or in consultation with a gastroenterologist;

AND

7. For a non-preferred GI Motility, Chronic Agent, has a history of therapeutic failure, contraindication, or intolerance to the preferred GI Motility, Chronic Agents approved or medically accepted for the beneficiary's diagnosis. See the Preferred Drug List for the list of preferred GI Motility, Chronic Agents at: <https://papdl.com/preferred-drug-list>;

NOTE: If the beneficiary does not meet the clinical review guidelines listed above but, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary, the request for prior authorization will be approved.

FOR RENEWALS OF PRIOR AUTHORIZATION FOR GI MOTILITY, CHRONIC AGENTS:
The determination of medical necessity of a request for renewal of a prior authorization for a GI Motility, Chronic Agent that was previously approved will take into account whether the beneficiary:

1. Has documentation of tolerability and a positive clinical response to the medication; **AND**
2. Is prescribed a dose that is consistent with FDA-approved package labeling, nationally recognized compendia, or peer-reviewed medical literature; **AND**
3. Had all potential drug interactions addressed by the prescriber (such as discontinuation of the interacting drug, dose reduction of the interacting drug, or counseling of the beneficiary of the risks associated with the use of both medications when they interact); **AND**
4. Does not have a history of a contraindication to the prescribed medication; **AND**
5. For an agent indicated for treatment of a diagnosis involving diarrhea, is prescribed the requested medication by or in consultation with a gastroenterologist

NOTE: If the beneficiary does not meet the clinical review guidelines listed above but, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary, the request for prior authorization will be approved.

C. Clinical Review Process

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section B. above to assess the medical necessity of a prescription for a GI Motility, Chronic Agent. If the guidelines in Section B. are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior

authorization will be approved when, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary.

D. Dose and Duration of Therapy

1. Initial and renewal requests for prior authorization of GI Motility, Chronic agents will be approved for up to 6 months unless otherwise indicated below.
2. Requests for prior authorization of Lotronex (alosetron hydrochloride) will be approved as follows:
 - a. Initial requests will be approved for up to four (4) weeks.
 - b. Renewal requests will be approved for up to three (3) months.
