

Commercial Closed Comprehensive Formulary

INTRODUCTION

The Commercial Closed Comprehensive Formulary is a list of FDA-approved prescription drug medications reviewed by our Pharmacy and Therapeutics (P&T) Committee. This committee is comprised of network healthcare providers who select products on the basis of their safety, efficacy, quality and cost to the plan.

UNDERSTANDING THE SYMBOLS USED THROUGHOUT THIS BOOK

Throughout this book, you will see certain symbols that indicate a management program is in place for selected medications. Please consult the key on page 4.

USING THIS FORMULARY BOOK TO HELP CONTAIN COSTS

Many employers, benefit sponsors, and individuals may use the formulary to help manage the overall cost of providing prescription drug benefits. The formulary offers a wide range of outpatient medications. Because there are over 40,000 Food and Drug Administration (FDA)-approved prescription drugs on the market, not all drugs can be listed in this formulary guide. We have included in this printable formulary guide the drugs that are most commonly prescribed for our members. If you have any questions regarding coverage of a drug, please call the member service number on your ID card.

SAVE MONEY ON YOUR PRESCRIPTION DRUGS

Here's what you can do to save money:

1. Bring this member guide to your doctor and review the cost-saving information below.
2. Ask your doctor whether a drug listed in this guide is right for you.

The amount you pay for a drug is determined by which medication you purchase and to what tier it is assigned. Tier 1 drugs are the lowest cost to you. Tier 2 drugs are a higher cost to you. Non-formulary (NF) drugs are not covered unless an exception is granted. If approved, the non-formulary drug will be the highest cost to you.

Drugs that are not approved by the Food and Drug Administration (FDA) or are not labeled as federal legend drugs may not be covered (e.g. over-the-counter (OTC) products, dietary supplements, non-FDA approved drugs and drug kits, bulk powders used for compounding medications, etc). Some drug plans exclude certain drugs or class of drugs from coverage. Please contact Member Service if you have a question about your specific drug coverage.

Cost share may vary by plan for diabetic drugs and supplies. Please call Member Service at the number on your ID card to confirm your cost share.

AFFORDABLE CARE ACT (ACA) PREVENTIVE DRUG LIST

The Affordable Care Act (ACA) Preventive Drug List consists of medications and vaccines that may be covered at \$0 at your pharmacy. They are not subject to any annual deductibles, coinsurance, or copayments. Please call Member Service at the number on your ID card to confirm if the ACA Preventive Drug List applies to you.

We've noted any drugs and vaccines on the ACA Preventive Drug List within this guide. Please consult the key on page 4. This list is reviewed periodically and is subject to change.

The presence of a drug or vaccine on this list does not guarantee coverage. Drugs on this list may require prior authorization, step-edits, and quantity limits. Restrictions may apply to certain brand-name ACA medications with generic equivalents. Other restrictions may apply according to U.S. Preventive Services Task Force (USPSTF) recommendations, which define ACA coverage requirements. These restrictions may be based on age, dose, diagnosis, and others as recommended by USPSTF. Both prescription and over-the-counter (OTC) products may be eligible to be covered when prescribed by a licensed health care provider and require a valid prescription. Vaccine administration at the pharmacy may be subject to individual state laws.

VACCINE COVERAGE

Vaccines are covered at the pharmacy for members covered under the Affordable Care Act (ACA). Vaccine administration at the pharmacy may be subject to individual state laws. Please call Member Service at the number on your ID card to confirm if the ACA Preventive Drug List applies to you. We've noted any drugs and vaccines on the ACA Preventive Drug List within this guide. Please consult the key on page 4. This list is reviewed periodically and is subject to change.

CONTRACEPTIVE COVERAGE UNDER NEW YORK INSURANCE LAW

Contraceptives may include implantable rods, intrauterine devices (IUD), shots/injections, oral contraceptives, patches, vaginal contraceptive rings, diaphragms, sponges, cervical caps, female condoms, spermicides, and emergency contraceptives.

OPIOID MANAGEMENT

Opioids may require additional review for coverage based on recommendations from the Centers for Disease Control and Prevention (CDC).

RETAIL REFILL ALLOWANCE (RRA)

Members must obtain maintenance medications at mail-order after retail allowance is exhausted for members with RRA Benefit.

FINDING MEDICATIONS IN THE GUIDE

This guide lists medications two different ways:

1. In the Table: Alphabetically by therapeutic class and subclass. Locate a category and drug on the guide and you will see the tier and cost share for that drug which determines your cost share. To determine if a drug is a generic or brand-name medication, look at the name of the drug. Generic medications are typically lower-case italics (e.g., amoxicillin), and brand-name medications are typically capitalized (e.g., ADVAIR).
2. Index: Alphabetically by drug name. Use this list to find your drug.

Questions? Please call Pharmacy Services at 1-866-264-4685 if you have any questions about the Commercial Closed Comprehensive Formulary.

Disclaimer: This Medication Guide is subject to change, as we regularly review medications and existing therapies for inclusion in the Commercial Closed Comprehensive Formulary.

Notes

ACAP = ACA Preventive: This medication that may be available to some members at no cost with a prescription. Contact member services for more information.

DDS = Diabetic Drugs and Supplies: Cost share may vary by plan for these drugs and supplies. Please contact Member Service to confirm your cost share for diabetic drugs and supplies.

DSL = Day Supply Limit: Depending on member benefits, this medication may be limited to a 30, 31, or 34 day supply at retail and/or mail pharmacies. Select products available as prepackaged products that supply a day supply greater than this limit are exempt.

MW = Market Watch: Coverage of this drug is subject to review by the plan and is based on Pharmacy policy. Select High-Cost Low-Value medications (HCLV), Prescription Drugs with an Over-the-Counter (OTC) Equivalent (RxOTC), and New to Market (NTM) products may be included in the Market Watch Program.

PA = Prior Authorization: Coverage of this drug is subject to review by the plan and is based on Pharmacy policy.

RRA = Retail Refill Allowance: Some benefit designs require medication to be obtained through the mail-order pharmacy. The medication is subject to a retail refill allowance (RRA).

SP = Specialty Pharmacy: To assist in the management of select specialty medications, some pharmacy benefit designs require the use of a preferred specialty pharmacy. Please call the number on the back of your member ID card for assistance.

ST = New York State Step Therapy: A step edit applies to this drug. Step therapy means that in order to receive a medication with a step edit, a preferred medication must be tried first.

WP = Women's Preventive: This is a contraceptive medication that may be available to some members at no cost with a prescription. Contact Member Service for more information.

lowercase italics = Generic drugs
UPPERCASE = Brand name drugs
