

Choice ACA Drug List

AffirmedRx is committed to making healthcare more accessible by ensuring that medications covered under the Affordable Care Act (ACA) are easy to understand and access. The ACA requires coverage for a range of preventive medications to support long-term health and wellness.

This includes drugs recommended by the U.S. Preventive Services Task Force (USPSTF), Health Resources and Services Administration (HRSA), and Advisory Committee on Immunization Practices (ACIP), as adopted by the Centers for Disease Control and Prevention (CDC). These medications are covered for preventive care and chronic condition management in accordance with ACA guidelines.

Please note:

- Coverage may be based on your health plan.
- Some medications may require trying a generic version before the brand-name drug is covered.
- This list is reviewed periodically and may change based on ACA updates.

How to Use This List:

- All drugs are grouped into broad categories.
- Each category is alphabetized.
- Generic drugs are listed in lowercase.
- Brand-name drugs appear in bold, capitalized letters.
- Additional notes for the medications are listed under their category.

For details on your specific coverage, check your plan benefits or contact your healthcare provider.
