I. Requirements for Prior Authorization of Anxiolytics

A. Prescriptions That Require Prior Authorization

Prescriptions for Anxiolytics that meet any of the following conditions must be prior authorized:

1. A non-preferred Anxiolytic. See the Preferred Drug List (PDL) for the list of preferred Anxiolytics at: https://papdl.com/preferred-drug-list.

2. An Anxiolytic benzodiazepine when prescribed for a beneficiary under 21 years of age.

3. An Anxiolytic benzodiazepine when a beneficiary has a concurrent prescription for a buprenorphine agent indicated for the treatment of opioid use disorder.

4. An Anxiolytic benzodiazepine when there is a record of a recent paid claim for another benzodiazepine (excluding clobazam and benzodiazepines indicated for the acute treatment of increased seizure activity [e.g., rectal and nasal formulations])(therapeutic duplication).

5. A prescription for an Anxiolytic benzodiazepine when there is a record of 2 or more paid claims for any benzodiazepine (excluding clobazam and benzodiazepines indicated for the acute treatment of increased seizure activity [e.g., rectal and nasal formulations]) within the past 30 days.

B. Review of Documentation for Medical Necessity

In evaluating a request for prior authorization of a prescription for an Anxiolytic, the determination of whether the requested prescription is medically necessary will take into account whether the beneficiary:

1. For an Anxiolytic benzodiazepine for a beneficiary under 21 years of age, **one** of the following:

   a. Has a diagnosis of **one** of the following:
      i. Seizure disorder,
      ii. Chemotherapy induced nausea and vomiting,
      iii. Cerebral palsy,
      iv. Spastic disorder,
      v. Dystonia,
      vi. Catatonia

   b. Is receiving palliative care;

   AND

2. For an Anxiolytic benzodiazepine for a beneficiary with a concurrent prescription for a buprenorphine agent indicated for the treatment of opioid use disorder, **both** of the following:

Gateway Health Plan
Pharmacy Division
Phone 800-392-1147 Fax 888-245-2049

a. Is prescribed the buprenorphine agent and the benzodiazepine by the same prescriber or, if prescribed by different prescribers, all prescribers are aware of the other prescription(s)
b. Has an acute need for therapy with the benzodiazepine;

AND

3. For therapeutic duplication, **one** of the following:
   a. Is being titrated to or tapered from a drug in the same class
   b. Has a medical reason for concomitant use of the requested medications that is supported by peer-reviewed literature or national treatment guidelines;

AND

4. When there is a record of 2 or more paid claims for a benzodiazepine, **both** of the following:
   a. The multiple prescriptions are consistent with medically accepted prescribing practices and standards of care, including support from peer-reviewed literature or national treatment guidelines
   b. The multiple prescriptions are written by the same prescriber or, if written by different prescribers, all prescribers are aware of the other prescription(s);

AND

5. For a non-preferred Anxiolytic, has a history of therapeutic failure, contraindication, or intolerance of the preferred Anxiolytics; **AND**

6. For an Anxiolytic that is subject to the U.S. Drug Enforcement Agency Controlled Substances Act (i.e., controlled substance), **one** of the following:
   a. Meets the guidelines in B.1.
   b. Has documentation that the prescriber or the prescriber's delegate conducted a search of the Pennsylvania Prescription Drug Monitoring Program (PDMP) for the beneficiary's controlled substance prescription history;

NOTE: If the beneficiary does not meet the clinical review guidelines listed above but, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary, the request for prior authorization will be approved.

C. Clinical Review Process

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section B. above to assess the medical necessity of a prescription for an Anxiolytic. If the guidelines in Section B. are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior authorization will be approved when, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary.
