Request for Prior Authorization for Enspryng (satralizumab-mwge) and Uplizna (Inebilizumab-cdon)
Website Form – www.highmarkhealthoptions.com
Submit request via: Fax - 1-855-476-4158

All requests for Enspryng (satralizumab-mwge) and Uplizna (Inebilizumab-cdon) require a Prior Authorization and will be screened for medical necessity and appropriateness using the criteria listed below.

Enspryng (satralizumab-mwge) and Uplizna (Inebilizumab-cdon) Prior Authorization Criteria:

For all requests for Enspryng (satralizumab-mwge) and Uplizna (Inebilizumab-cdon) all of the following criteria must be met:

- The requested dose and frequency is in accordance with FDA-approved labeling, nationally recognized compendia, and/or evidence-based practice guidelines
- Is age-appropriate according to FDA-approved package labeling, nationally recognized compendia, or peer-reviewed medical literature
- Member must not have an active hepatitis B infection or active or untreated latent tuberculosis

Coverage may be provided with a diagnosis of Neuromyelitis Optica Spectrum Disorder (NMOSD) and the following criteria are met:

- Medication is prescribed by, or in consultation with a neurologist
- Documentation of a positive test for AQP4-IgG antibodies
- The prescriber submits documentation of baseline number of relapse(s), which occurred over the last year.
- Documentation of an Expanded Disability Status Scale (EDSS) score of ≤ 6.5 for Enspryng or a score of ≤ 8 for Uplizna (Inebilizumab-cdon)
- Must have documentation of inadequate response, contraindication or intolerance to one (1) immunosuppressant (e.g., mycophenolate mofetil, azathioprine, methotrexate) or an inadequate response, contraindication or intolerance to rituximab or any of its biosimilars
- **Initial Duration of Approval:** 12 months
- **Reauthorization criteria**
    - Documentation the member has experienced a decrease from baseline in the number of NMOSD relapse(s).
- **Reauthorization Duration of Approval:** 12 months

Coverage may be provided for any non-FDA labeled indication if it is determined that the use is a medically accepted indication supported by nationally recognized pharmacy compendia or peer-reviewed medical literature for treatment of the diagnosis(es) for which it is prescribed. These requests will be reviewed on a case by case basis to determine medical necessity.

Drugs are authorized in generic form unless the branded product is on the preferred drug list or the prescriber has indicated in writing that the branded product is medically necessary. If only the

branded product is on the preferred drug list, the generic form will be considered non-preferred and shall not require the prescriber to indicate in writing that the branded product is medically necessary.
