

PHARMACY COVERAGE GUIDELINE

SCSEMBLIX® (asciminib) Generic Equivalent (if available)

This Pharmacy Coverage Guideline (PCG):

- Provides information about the reasons, basis, and information sources we use for coverage decisions
- Is not an opinion that a drug (collectively “Service”) is clinically appropriate or inappropriate for a patient
- Is not a substitute for a provider’s judgment (Provider and patient are responsible for all decisions about appropriateness of care)
- Is subject to all provisions e.g. (benefit coverage, limits, and exclusions) in the member’s benefit plan; and
- Is subject to change as new information becomes available.

Scope

- This PCG applies to Commercial and Marketplace plans
- This PCG does not apply to the Federal Employee Program, Medicare Advantage, Medicaid or members of out-of-state Blue Cross and/or Blue Shield Plans

Instructions & Guidance

- To determine whether a member is eligible for the Service, read the entire PCG.
- This PCG is used for FDA approved indications including, but not limited to, a diagnosis and/or treatment with dosing, frequency, and duration.
- Use of a drug outside the FDA approved guidelines, refer to the appropriate Off-Label Use policy.
- The “Criteria” section outlines the factors and information we use to decide if the Service is medically necessary as defined in the Member’s benefit plan.
- The “Description” section describes the Service.
- The “Definition” section defines certain words, terms or items within the policy and may include tables and charts.
- The “Resources” section lists the information and materials we considered in developing this PCG
- **We do not accept patient use of samples as evidence of an initial course of treatment, justification for continuation of therapy, or evidence of adequate trial and failure.**
- Information about medications that require prior authorization is available at www.azblue.com/pharmacy. You must fully complete the [request form](#) and provide chart notes, lab workup and any other supporting documentation. The prescribing provider must sign the form. Fax the form to BCBSAZ Pharmacy Management at (602) 864-3126 or email it to Pharmacyprecert@azblue.com.

Criteria:

- **Criteria for initial therapy:** Scemblix (asciminib) and/or generic equivalent (if available) are considered ***medically necessary*** and will be approved when **ALL** the following criteria are met:
1. Prescriber is a physician specializing in the patient’s diagnosis or is in consultation with an Oncologist
 2. Individual is 18 years of age or older
 3. Individual has a confirmed diagnosis of **ONE** of the following:
 - a. Newly diagnosed Philadelphia chromosome-positive chronic myeloid leukemia (Ph+CML) in chronic phase (CP)
 - b. Ph+ CML in CP previously treated with two or more TKIs

ORIGINAL EFFECTIVE DATE: 02/17/2022 | ARCHIVE DATE: | LAST REVIEW DATE: 02/20/2025 | LAST CRITERIA REVISION DATE: 02/20/2025

PHARMACY COVERAGE GUIDELINE

SCSEMBLIX® (asciminib) Generic Equivalent (if available)

- c. Ph+CML in CP with the T315I mutation
 - d. Other request for a specific oncologic direct treatment use that is found and listed in the National Comprehensive Cancer Network (NCCN) Guidelines with Categories of Evidence and Consensus of 1 and 2A
4. Individual has received and completed **ALL** the following **baseline tests** before initiation of treatment and with continued monitoring of the individual as clinically appropriate:
 - a. Negative pregnancy test in a woman of childbearing potential
 - b. Eastern Cooperative Oncology Group (ECOG) performance status of 0-2
 5. **If available:** Individual has failure after adequate trial, contraindication per FDA label, intolerance, or is not a candidate for a **generic equivalent** [Note: Failure, contraindication or intolerance, to the generic should be reported to the FDA] ([see Definitions section](#))
 6. Individual is not currently taking any other drugs which cause severe adverse reactions or any significant drug interaction requiring discontinuation such as use with:
 - a. Itraconazole oral solution containing hydroxypropyl-β-cyclodextrin
 - b. Rosuvastatin and atorvastatin

Initial approval duration: 6 months

➤ **Criteria for continuation of coverage (renewal request):** Scemblix (asciminib) and/or generic equivalent (if available) are considered **medically necessary** and will be approved when **ALL** the following criteria are met (**samples are not considered for continuation of therapy**):

1. Individual continues to be seen by a physician specializing in the patient's diagnosis or is in consultation with an Oncologist
2. Individual's condition has responded while on therapy with response defined as no evidence of disease progression or unacceptable toxicity
3. Individual has been adherent with the medication
4. **If available:** Individual has failure after adequate trial, contraindication per FDA label, intolerance, or is not a candidate for a **generic equivalent** [Note: Failure, contraindication or intolerance, to the generic should be reported to the FDA] ([see Definitions section](#))
5. Individual has not developed any contraindications or other significant adverse drug effects that may exclude continued use, if clinically appropriate withhold, reduce dose, or permanently discontinue based on severity, recurrence, persistence, or duration of adverse reaction such as:
 - a. Myelosuppression such as thrombocytopenia or neutropenia
 - b. Pancreatic toxicity (e.g., elevated serum lipases and amylase)
 - c. Hypertension that is not medically controlled
 - d. Hypersensitivity reactions such as rash, edema, and bronchospasms
 - e. Severe or life-threatening cardiovascular toxicity

ORIGINAL EFFECTIVE DATE: 02/17/2022 | ARCHIVE DATE: | LAST REVIEW DATE: 02/20/2025 | LAST CRITERIA REVISION DATE: 02/20/2025

PHARMACY COVERAGE GUIDELINE

SCSEMBLIX® (asciminib) Generic Equivalent (if available)

- f. Any severe non-hematologic adverse reaction that does not resolve after withholding Scemblix (asciminib) or recurs after dose reduction
- 6. Individual is not currently taking any other drugs which cause severe adverse reactions or any significant drug interaction requiring discontinuation such as use with:
 - a. Itraconazole oral solution containing hydroxypropyl- β -cyclodextrin
 - b. Rosuvastatin and atorvastatin

Renewal duration: 12 months

- Criteria for a request for non-FDA use or indication, treatment with dosing, frequency, or duration outside the FDA-approved dosing, frequency, and duration, refer to one of the following Pharmacy Coverage Guideline:

1. **Off-Label Use of Non-Cancer Medications**
 2. **Off-Label Use of Cancer Medications**
-

Description:

Scemblix (asciminib) is a kinase inhibitor indicated for the treatment of adult patients with: a) Newly diagnosed Philadelphia chromosome-positive chronic myeloid leukemia (Ph+ CML) in chronic phase (CP); b) previously treated Ph+ CML in CP with two or more tyrosine kinase inhibitors (TKIs); c) Ph+ CML in CP with the T315I mutation.

The indication for Ph+ CML in CP is approved under accelerated approval based on major molecular response (MMR). Continued approval for this indication may be contingent upon verification and description of clinical benefit in a confirmatory trial(s).

Asciminib is an ABL/BCR-ABL1 tyrosine kinase inhibitor. Asciminib inhibits the ABL1 kinase activity of the BCR-ABL1 fusion protein, by binding to the ABL myristoyl pocket. Studies of asciminib showed activity against wild-type BCR-ABL1 and several mutant forms of the kinase, including the T315I mutation.
