Request for Prior Authorization for Ravicti
Website Form – www.highmarkhealthoptions.com
Submit request via: Fax - 1-855-476-4158

All requests for Ravicti (glycerol phenylbutyrate) require a Prior Authorization and will be screened for medical necessity and appropriateness using the criteria listed below.

Ravicti (glycerol phenylbutyrate) Prior Authorization Criteria:

Coverage may be provided with a diagnosis of a **urea cycle disorder (UCD)** and the following criteria is met:

- Must be prescribed by or in consultation with a physician experienced in treating metabolic disorders
- Diagnosis must be confirmed by enzymatic, biochemical, or genetic testing
- Must be used for chronic management of UCD
- Must provide documentation showing the member has tried and failed dietary protein restriction or amino acid supplementation
- Must provide documentation showing the member has tried and failed (which will be verified via pharmacy claims if available) or had an intolerance or contraindication to sodium phenylbutyrate (prior authorization may be required)
- Must be used in combination with dietary protein restriction
- The requested dose and frequency is in accordance with FDA-approved labeling, nationally recognized compendia, and/or evidence-based practice guidelines
- **Initial Duration of Approval:** 3 months
- **Reauthorization criteria**
    - Documentation of clinical improvement
    - Medication is being used in combination with dietary protein restriction
- **Reauthorization Duration of Approval:** 12 months

Coverage may be provided for any non-FDA labeled indication if it is determined that the use is a medically accepted indication supported by nationally recognized pharmacy compendia or peer-reviewed medical literature for treatment of the diagnosis(es) for which it is prescribed. These requests will be reviewed on a case by case basis to determine medical necessity.

Drugs are authorized in generic form unless the branded product is on the preferred drug list or the prescriber has indicated in writing that the branded product is medically necessary. If only the branded product is on the preferred drug list, the generic form will be considered non-preferred and shall not require the prescriber to indicate in writing that the branded product is medically necessary.
