

## **I. Requirements for Prior Authorization of Hepatitis B Agents**

### **A. Prescriptions That Require Prior Authorization**

Prescriptions for Hepatitis B Agents that meet the following condition must be prior authorized:

- i A non-preferred Hepatitis B Agent. See the Preferred Drug List (PDL) for the list of preferred Hepatitis B Agents at: <https://papdl.com/preferred-drug-list>.

### **B. Review of Documentation for Medical Necessity**

In evaluating a request for prior authorization of a prescription for a Hepatitis B Agent, the determination of whether the requested prescription is medically necessary will take into account whether the beneficiary:

1. For a non-preferred Hepatitis B Agent, has a history of therapeutic failure of or a contraindication or an intolerance to the preferred Hepatitis B Agents

NOTE: If the beneficiary does not meet the clinical review guidelines listed above but, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary, the request for prior authorization will be approved.

### **C. Clinical Review Process**

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section B. above to assess the medical necessity of a prescription for a Hepatitis B Agent. If the guidelines in Section B. are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior authorization will be approved when, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary.

### NON-PREFERRED MEDICATION PRIOR AUTHORIZATION FORM *(form effective 01/01/20)*
