HIGHMARK WHOLECARE

Updated: 9/2025
PARP Approved: 12/2025

Prior Authorization Criteria

Isturisa (osilodrostat)

All requests for Isturisa (osilodrostat) require a prior authorization and will be screened for medical necessity and appropriateness using the criteria listed below.

Coverage may be provided with a diagnosis of **Cushing's syndrome** and the following criteria is met:

- Member must be 18 years of age or older
- Must be prescribed by or in association with an endocrinologist
- Must provide documentation that pituitary surgery is not an option or has not been curative
- The requested dose and frequency is in accordance with FDA-approved labeling, nationally recognized compendia, and/or evidence-based practice guidelines
- **Initial Duration of Approval:** 6 months
- **Reauthorization criteria**
    - Member must have mUFC within normal limits (reference range must be provided).
- **Reauthorization Duration of Approval:** 12 months

Coverage may be provided for any non-FDA labeled indication if it is determined that the use is a medically accepted indication supported by nationally recognized pharmacy compendia or peer-reviewed medical literature for treatment of the diagnosis(es) for which it is prescribed. These requests will be reviewed on a case by case basis to determine medical necessity.

When criteria are not met, the request will be forwarded to a Medical Director for review. The physician reviewer must override criteria when, in their professional judgment, the requested medication is medically necessary.
