

2026 AffirmedRx Choice Formulary Changes

Below is a list of drugs that have been identified as changes to your formulary **effective January 1, 2026**. These updates may include the following types of changes:

- Brand to Generic Switches: The generic alternative for the brand medication will now be preferred by your health plan. The brand will no longer be covered.
- Non-Formulary: These drugs are no longer preferred by your prescription benefit plan*. Please talk to your health care provider about changing to one of the preferred alternatives listed.
- Excluded Drugs: These drugs are no longer covered by your prescription benefit plan.
- Tier Changes: Drugs that remain covered but may move to a higher (up-tier), or lower (down-tier) tier. Your out-of-pocket costs may change if you have elected the Surest Copay Plan.
- Opioid Safety Program: Additional requirements may apply to opioid medications including, but is not limited to, day supply limit, quantity limit, and/or step therapy.
- *Additional requirements may apply to the medications listed in this document. This includes but is not limited to Step Therapy, Quantity Limits, or Prior Authorization. Please scan the QR code below for a full listing of covered medications and associated edits.*

**Your health care provider may submit a prior authorization request if there is a clinical reason that requires you to continue a particular medication.*

Additional Information:

1. Information is subject to change
2. Refer to your plan documents for costs and complete details of your benefits, exclusions, and limitations of coverage.
