

# Xpovio (selinexor)

Override(s)	Approval Duration
Prior Authorization Quantity Limit	1 year

Medications	Quantity Limit
Xpovio (selinexor)	May be subject to quantity limit

## **APPROVAL CRITERIA**

Requests for Xpovio (selinexor) may be approved if the following criteria are met:

- I. Individual has a diagnosis of relapsed or refractory Diffuse Large B-cell Lymphoma (DLBCL), not otherwise specified, including DLBCL arising from follicular lymphoma; **AND**
  - A. Individual previously received at least two prior lines of systemic therapy; **AND**
  - B. Individual must not have DLBCL with mucosa-associated lymphoid tissue (MALT) lymphoma, composite lymphoma (Hodgkins and non-Hodgkins lymphoma), primary mediastinal (thymic) large B-cell lymphoma (PMBL), or known central nervous system (CNS) lymphoma (NCT02227251).

### **OR**

- II. Individual has a diagnosis of relapsed or refractory multiple myeloma; **AND**
  - A. Individual is using in combination with dexamethasone; **AND**
  - B. Individual previously received at least four prior lines of therapies; **AND**
  - C. Confirmation of disease refractory to all of the following:
    - 1. At least two proteasome inhibitors (for example, bortezomib, carfilzomib, or ixazomib); **AND**
    - 2. At least two immunomodulatory agents (for example, lenalidomide, pomalidomide, or thalomide); **AND**
    - 3. An anti-CD38 monoclonal antibody (for example, daratumumab);

### **OR**

- III. Individual has a diagnosis of relapsed or refractory Multiple Myeloma; **AND**
  - A. Individual is using as subsequent therapy; **AND**
  - B. Individual is using in combination with bortezomib and dexamethasone; **OR**
  - C. Individual is using in combination with dexamethasone and daratumumab (Darzalex or Darzalex Faspro) (NCCN 2A).
