

## I. Requirements for Prior Authorization of Hypoglycemics, TZDs

### A. Prescriptions That Require Prior Authorization

All prescriptions for Hypoglycemics, TZDs must be prior authorized.

### B. Review of Documentation for Medical Necessity

In evaluating a request for prior authorization of a prescription for a Hypoglycemics, TZD, the determination of whether the requested prescription is medically necessary will take into account whether the beneficiary:

1. Has a diagnosis of type 2 diabetes mellitus; **AND**
2. Has a documented history of **one** of the following:
  - a. Failure to achieve glycemic control as evidenced by the beneficiary's HbA1c values using maximum tolerated doses of metformin,
  - b. A contraindication or intolerance to metformin,
  - c. Requires initial dual therapy with metformin based on HbA1c as defined by the American Diabetes Association or the American Association of Clinical Endocrinologists and American College of Endocrinology;

**AND**

3. For a non-preferred Hypoglycemics, TZD, has a documented history of therapeutic failure, contraindication, or intolerance of the preferred Hypoglycemics, TZDs. See the Preferred Drug List (PDL) for the list of preferred Hypoglycemics, TZDs at:  
<https://papdl.com/preferred-drug-list>

NOTE: If the beneficiary does not meet the clinical review guidelines listed above but, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary, the request for prior authorization will be approved.

### C. Clinical Review Process

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section B. above to assess the medical necessity of a prescription for a Hypoglycemics, TZD. If the guidelines in Section B. are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior authorization will be approved when, in the professional judgment of the physician reviewer, the service is medically necessary to meet the medical needs of the beneficiary.
