Commercial Open/Incentive Comprehensive Formulary

INTRODUCTION

The Commercial Open/Incentive Comprehensive Formulary is a list of FDA-approved prescription drug medications reviewed by our Pharmacy and Therapeutics (P&T) Committee. This committee is comprised of network healthcare providers who select products on the basis of their safety, efficacy, quality and cost to the plan.

UNDERSTANDING THE SYMBOLS USED THROUGHOUT THIS BOOK

Throughout this book, you will see certain symbols that indicate a management program is in place for selected medications. Please consult the key on page 4.

USING THIS FORMULARY BOOK TO HELP CONTAIN COSTS

Many employers, benefit sponsors, and individuals may use the formulary to help manage the overall cost of providing prescription drug benefits. The formulary offers a wide range of outpatient medications. Because there are over 40,000 Food and Drug Administration (FDA)-approved prescription drugs on the market, not all drugs can be listed in this formulary guide. We have included in this printable formulary guide the drugs that are most commonly prescribed for our members. If you have any questions regarding coverage of a drug, please call the member service number on your ID card.

SAVE MONEY ON YOUR PRESCRIPTION DRUGS

Here's what you can do to save money:

1. Bring this member guide to your doctor and review the cost-saving information below.
2. Ask your doctor whether a drug listed in this guide is right for you.

The amount you pay for a drug is determined by which medication you purchase and to what tier it is assigned. Tier 1 drugs are the lowest cost to you. Tier 2 drugs are a higher cost to you. Tier 3 drugs are the highest cost to you.

Drugs that are not approved by the Food and Drug Administration (FDA) or are not labeled as federal legend drugs may not be covered (e.g. over-the-counter (OTC) products, dietary supplements, non-FDA approved drugs and drug kits, bulk powders used for compounding medications, etc). Some drug plans exclude certain drugs or class of drugs from coverage. Please contact Member Service if you have a question about your specific drug coverage.

Cost share may vary by plan for diabetic drugs and supplies. Please call Member Service at the number on your ID card to confirm your cost share.

AFFORDABLE CARE ACT (ACA) PREVENTIVE DRUG LIST

The Affordable Care Act (ACA) Preventive Drug List consists of medications and vaccines that may be covered at $0 at your pharmacy. They are not subject to any annual deductibles, coinsurance, or copayments. Please call Member Service at the number on your ID card to confirm if the ACA Preventive Drug List applies to you.

We've noted any drugs and vaccines on the ACA Preventive Drug List within this guide. Please consult the key on page 4. This list is reviewed periodically and is subject to change.

The presence of a drug or vaccine on this list does not guarantee coverage. Drugs on this list may require prior authorization, step-edits, and quantity limits. Restrictions may apply to certain brand-name ACA medications with generic equivalents. Other restrictions may apply according to U.S. Preventive Services Task Force (USPSTF) recommendations, which define ACA coverage requirements. These restrictions may be based on age, dose, diagnosis, and others as recommended by USPSTF. Both prescription and over-the-counter (OTC) products may be eligible to be covered when prescribed by a licensed health care provider and require a valid prescription. Vaccine administration at the pharmacy may be subject to individual state laws.

VACCINE COVERAGE

Vaccines are covered at the pharmacy for members covered under the Affordable Care Act (ACA). Vaccine administration at the pharmacy may be subject to individual state laws. Please call Member Service at the number on your ID card to confirm if the ACA Preventive Drug List applies to you. We've noted any drugs and vaccines on the ACA Preventive Drug List within this guide. Please consult the key on page 4. This list is reviewed periodically and is subject to change.

CONTRACEPTIVE COVERAGE UNDER NEW YORK INSURANCE LAW

Contraceptives (for members whose benefits align with contraceptive coverage requirements under New York Insurance Law): All contraceptives are covered at a $0 cost share. Although Brand-name contraceptives with a generic equivalent may be subject to a penalty which is the cost difference between the generic and brand drug depending on your benefit. Both prescription and over-the-counter (OTC) products are covered only when prescribed by a licensed health care provider and require a valid prescription. Please refer to your plan documents to confirm your cost share for contraceptives. Cost share may vary by plan.

Contraceptives may include implantable rods, intrauterine devices (IUD), shots/injections, oral contraceptives, patches, vaginal contraceptive rings, diaphragms, sponges, cervical caps, condoms, spermicides, and emergency contraceptives.

OPIOID MANAGEMENT

Opioids may require additional review for coverage based on recommendations from the Centers for Disease Control and Prevention (CDC).

RETAIL REFILL ALLOWANCE (RRA)

Members must obtain maintenance medications at mail-order after retail allowance is exhausted for members with RRA Benefit.

FINDING MEDICATIONS IN THE GUIDE

This guide lists medications two different ways:

1. In the Table: Alphabetically by therapeutic class and subclass. Locate a category and drug on the guide and you will see the tier and cost share for that drug which determines your cost share. To determine if a drug is a generic or brand-name medication, look at the name of the drug. Generic medications are typically lower case italics (e.g., amoxicillin), and brand-name medications are typically capitalized (e.g., ADVAIR).

2. Index: Alphabetically by drug name. Use this list to find your drug.

Members with an open formulary have coverage for tier 3 non preferred brands at the tier 2 preferred brand cost share.

Questions? Please call Pharmacy Services at 1-866-264-4685 if you have any questions about the Commercial Open/Incentive Comprehensive Formulary.

Disclaimer: This Medication Guide is subject to change, as we regularly review medications and existing therapies for inclusion in the Commercial Open/Incentive Comprehensive Formulary.
