

Select Drug List

Subject to regulatory approval

Three-tier formulary

Empire BlueCross BlueShield Select Drug List

Your prescription drug benefit includes coverage for medicines that you'll find on the Select Drug List. You can often find more savings when your doctor prescribes medicine that is on our Select Drug List. Here are some commonly asked questions and answers about how the Select Drug List works with your prescription drug plan.

Q. What is a Select Drug List?

A. The Drug List that identifies the prescription drugs covered under Empire's Individual and Small Group benefit plans is called the "Select Formulary." It contains the prescription drugs subject to coverage if you buy 1) an Empire Individual plan on the New York State of Health Marketplace ("Marketplace") or 2) an Individual or Small Group plan directly from Empire outside of the Marketplace. The Select Formulary has three levels, or tiers, and includes a select number of drugs in different categories and classes. The Select Formulary is available online at empireblue.com/EBSSelectdrugtier3. You can also find out if a specific drug is on the Select Formulary by calling the number on your ID card.

Q. What are Tiers?

A. Drugs on the Select Drug List are grouped into tiers. There are several factors that are used to determine under which tier a drug will be put in. This can include (but it's not limited to):

- Cost of the drug.
- Cost of the drug in comparison to other drugs used for the same type of treatment.
- Availability of over-the-counter options.
- Other clinical and cost factors.

Q. What is a brand-name drug?

A. These are drugs that are developed by a company who holds the rights to sell them. When the rights expire, other drug companies can make their own version of the drugs (see generic drugs below). You may be more familiar with brand-name drugs through advertising or because you know people who take them.

Q. What is a generic drug?

A. Generics are simply copies of brand-name drugs. Brand-name and generic drugs have the same active ingredients, strength and dose. And the FDA requires that generic drugs meet the same high standards for purity, quality, safety and strength.

Q. What if my medication is not on the Select Drug List?

A. You may want to first check with your doctor about prescribing a drug that is on the Select Drug List. If your doctor prescribes a drug that's not on the Select Drug List, you will have to pay the amount described in your policy for nonformulary drugs.

Q. Can I request that a drug be added to the Select Drug List?

A. You or your doctor can put in a request to add a drug to the Select Drug List. You can do this either in writing or on our website. Requests are reviewed by the P&T Process team during the Select Drug List review. **Please note that if a drug request is approved, it does not guarantee coverage. Some drugs, such as those used for cosmetic purposes, may be excluded from your benefits. Please refer to your insurance *Certificate of Evidence of Coverage* to know for sure.**

Q. What if my medication is not covered?

A. You may want to first check with your doctor about prescribing a drug that is covered. If your doctor prescribes a drug that's not covered, you will need to pay the out-of-pocket cost that applies to drugs not on the formulary.

Preventive care drugs: We cover preventive care drugs with zero cost share in compliance with the Affordable Care Act (ACA).

Please note: In selecting medications for the prescription drug list, the therapeutic efficacy and cost effectiveness are addressed for each category. All therapeutic categories are represented on the drug list by at least one medication. When a closed drug list is in effect, only medications that are included on the drug list are a covered service. In certain clinical situations, a member may require use of a noncovered product. Empire has criteria that permits a member to obtain a noncovered medication in a closed drug list plan. If specific criteria are met, a member can receive a noncovered drug for a drug list copay. The criteria preserves the clinical integrity of the drug list and provides a process by which deviations from the drug list may be allowed. An appeals process is in place for any medications that do not meet the criteria.

NOTE: Not all medications and not all plans are subject to prior authorization and quantity limits. For more information regarding prior authorization or quantity limits, contact Member Services at the telephone number listed on your identification card.

List of Abbreviations

Tier 1: Tier 1 drugs have the lowest cost share. these drugs offer the greatest value compared to others that treat the same conditions.

Tier 2: Tier 2 drugs have a medium cost share. They may be preferred drugs, based on their effectiveness and value. Some are newer, more expensive generic drugs.

Tier 3: Tier 3 drugs have a higher cost share. They may cost more than others used to treat the same condition. Tier 3 may also include drugs that were recently approved by the FDA.

\$0: PREVENTATIVE DRUG: For some members, this product may be covered at 100% with \$0 cost share with a prescription from your provider if specified criteria are met.

DO: DOSE OPTIMIZATION REQUIRED. Normally involves the conversion from twice-daily dosing to a once-daily dosing schedule

PA: PRIOR AUTHORIZATION REQUIRED. Prior authorization is the process of obtaining approval of benefits before certain prescriptions may be filled.

QL: QUANTITY LIMITS. Certain prescription drugs have specific quantity limits per prescription or per month.

ST: STEP THERAPY REQUIRED. You may need to use one medication before benefits for the use of another medication can be authorized. Please note: Foradil and Serevent are safety edits that prevent duplication of therapy.

Below is a list of drug name formatting patterns that may appear in the following pages.

List of Patterns

lowercase: Generic drugs

UPPERCASE BOLD: Brand name drugs
